

Welcome to
Google Gemini for
Image Creation

Using Google Gemini for Image Creation (Workspace AI)

Understand the scenario

You are a Developer for Hexelo, an organization that wants to use Google Gemini for image creation. First, you will generate a basic image, and then you will create a business logo. Next, you will make a social media post image, and then you will generate multiple variations of an image. Next, you will edit an existing image, and then you will create icons. Next, you will generate a presentation background, and then you will create infographics. Finally, you will design a themed illustration.

Getting Started (Before You Begin)

Before beginning this lab, make sure:

- You are signed into your Google Workspace (work or school) Gmail account.
- Access to Google Docs in a desktop browser.
- Your administrator has enabled Gemini (formerly Duet AI).
- You are using the Google Chrome browser for best compatibility.

Exercise 1: Generate a Basic Image

- Enter your Gmail Username and Password into the following textboxes:

Gmail Users Name

Gmail Password

- Use Gemini to create a simple illustrative image by using the following prompt, and then save the image to your Downloads folder:

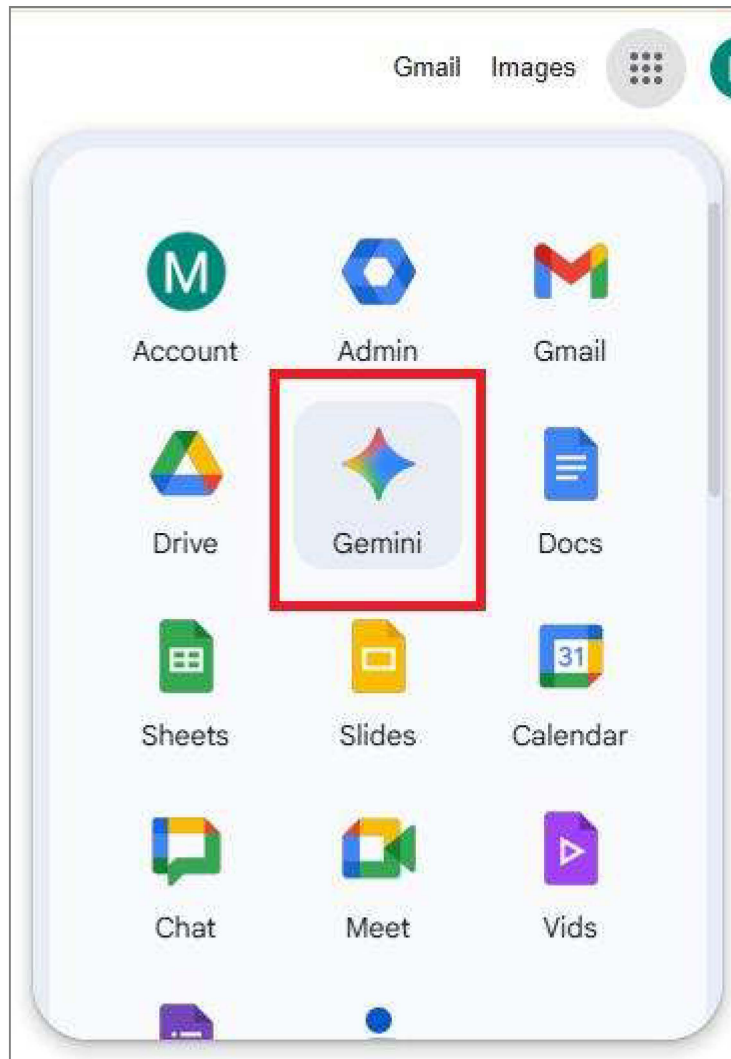

T Generate an image of a sunrise over a mountain in a minimalist style.

Expand this hint for guidance on creating an image in Google Gemini.

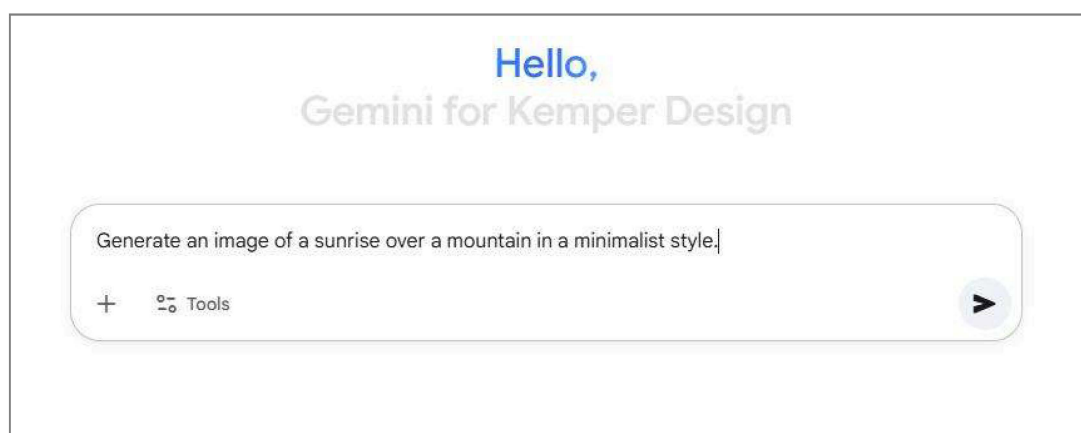

- On the Google Chrome Home page, select **Gemini**.

- In the Gemini prompt textbox, enter the following:

T Generate an image of a sunrise over a mountain in a minimalist style.

- Download the image to your Downloads folder by **right-clicking** and then selecting **Save image as**.

- Ask Gemini to generate a second variation by using the following prompt:

T Generate an image of a sunrise over a mountain in a photorealistic style.

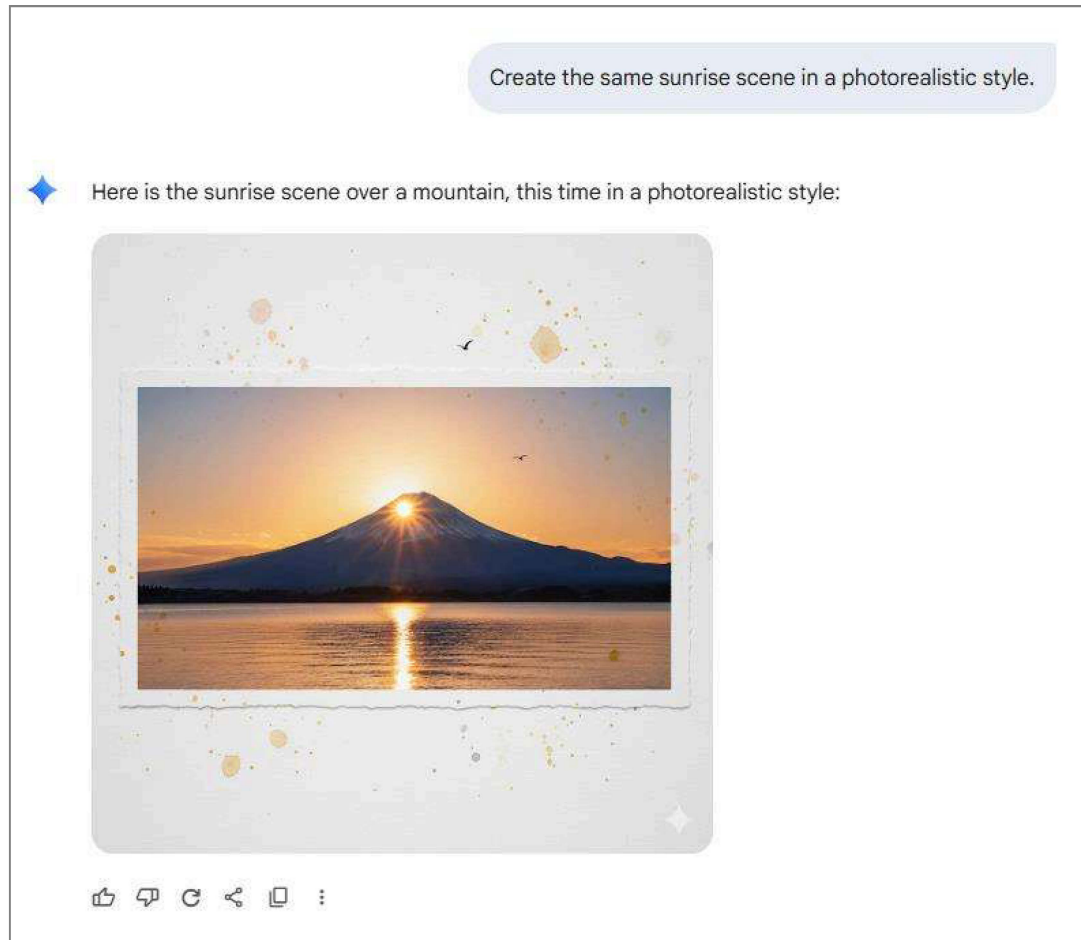

Expand this hint for guidance on creating an image in Google Gemini.

- In the Gemini prompt textbox, enter the following:

T Generate an image of a sunrise over a mountain in a photorealistic style.

- Save the image to your Downloads folder.

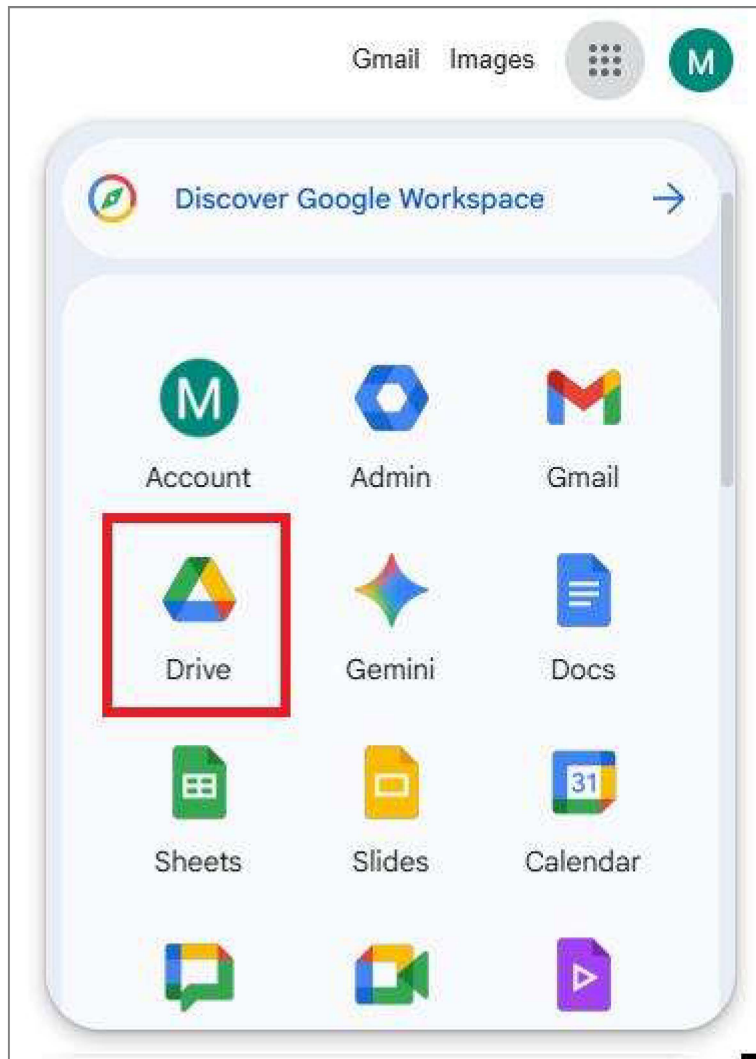

- Upload both documents to Google Drive to compare them.

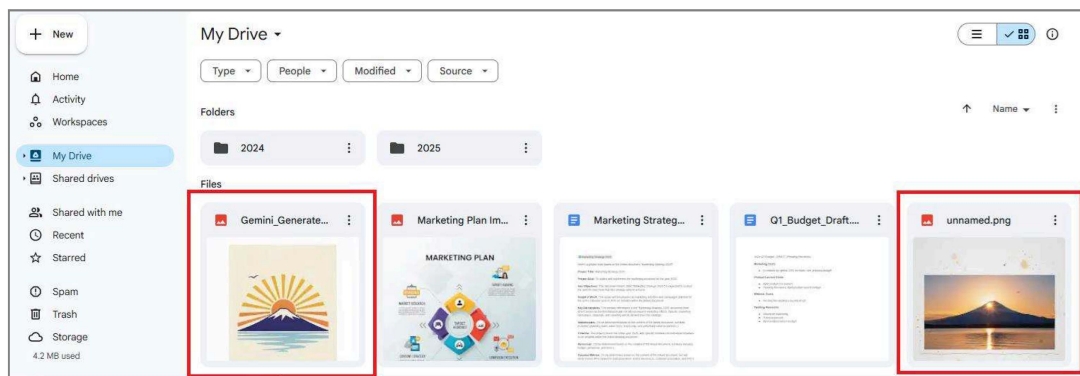

Expand this hint for guidance on comparing variations in Docs.

- On the Google Chrome Home page, select **Google Drive**.

- On the Google Drive Home page, select **+New**, and then select **File upload**.
- Select **My Drive** and then review your images.

Exercise 2: Create a Business Logo

- Ask Gemini to generate a professional logo for a fictional company by using the following prompt:

T Create a modern logo for a coffee shop called 'Bean & Brew.' Use warm colors and clean typography.

Expand this hint for guidance on preparing logos for digital vs. print.

- In the Gemini prompt textbox, enter the following:

T Create a modern logo for a coffee shop called 'Bean & Brew.' Use warm colors and clean typography.

- Save the image to your Downloads folder.

- Ask Gemini to generate a monochrome version suitable for print by using the following prompt:

T Make a black and white version of the Bean & Brew logo.

Expand this hint for guidance on preparing logos for digital vs. print.

- In the Gemini prompt textbox, enter the following:

T Make a black and white version of the Bean & Brew logo.

- Save the image to your Downloads folder.

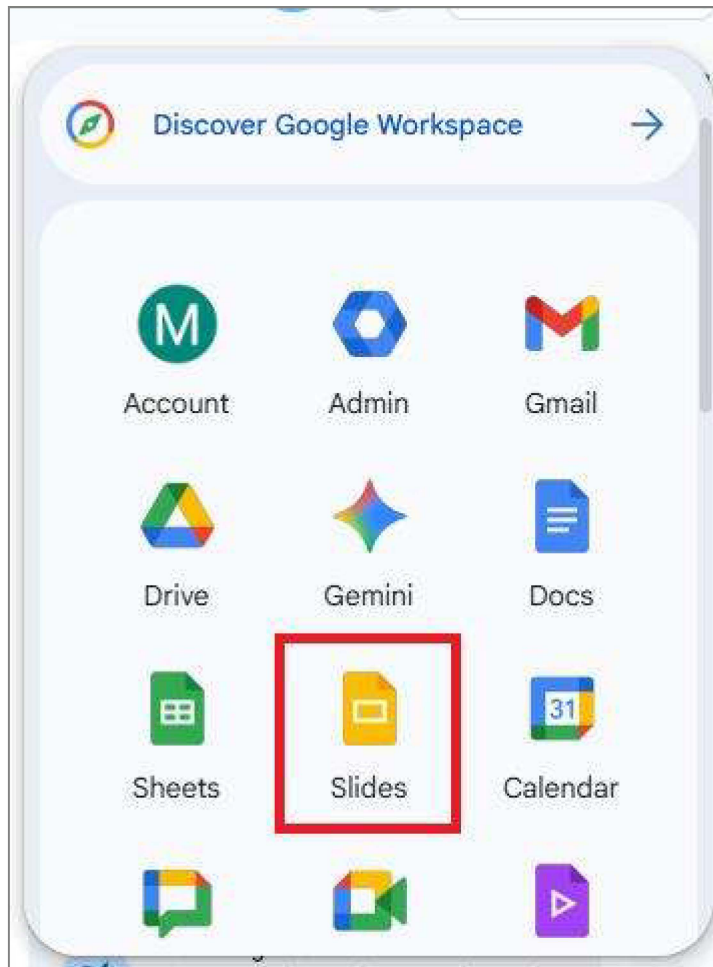

- Place both versions into a Google Slides presentation.

Expand this hint for guidance on preparing logos for placing images in a Google Slides presentation. ^

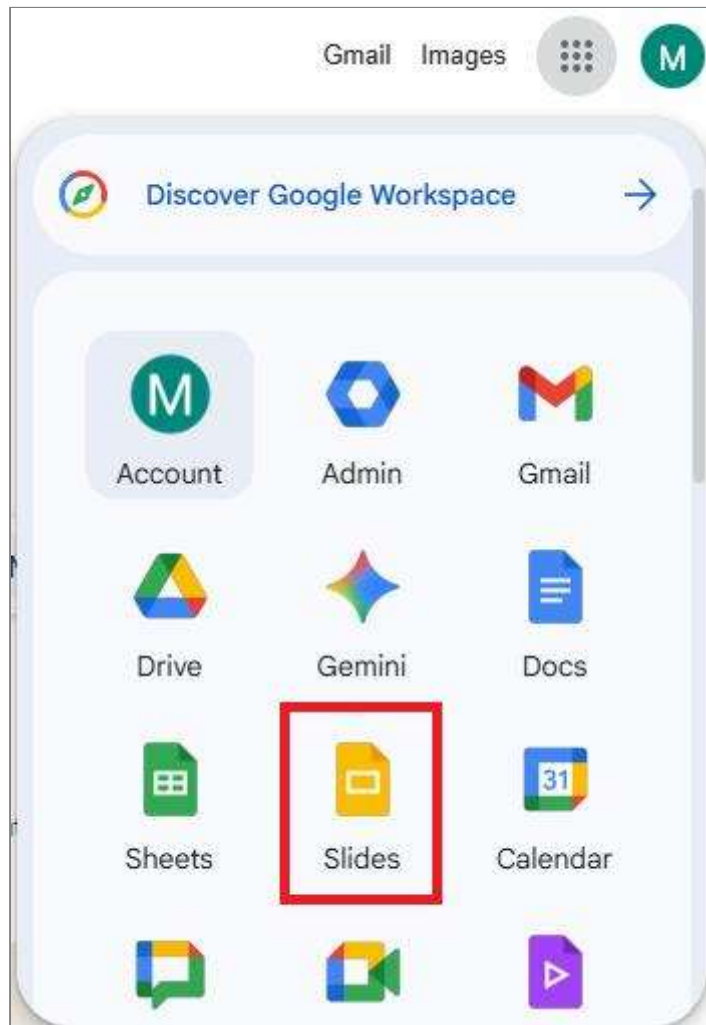

- On the Google Chrome Home page, select **Slides**.

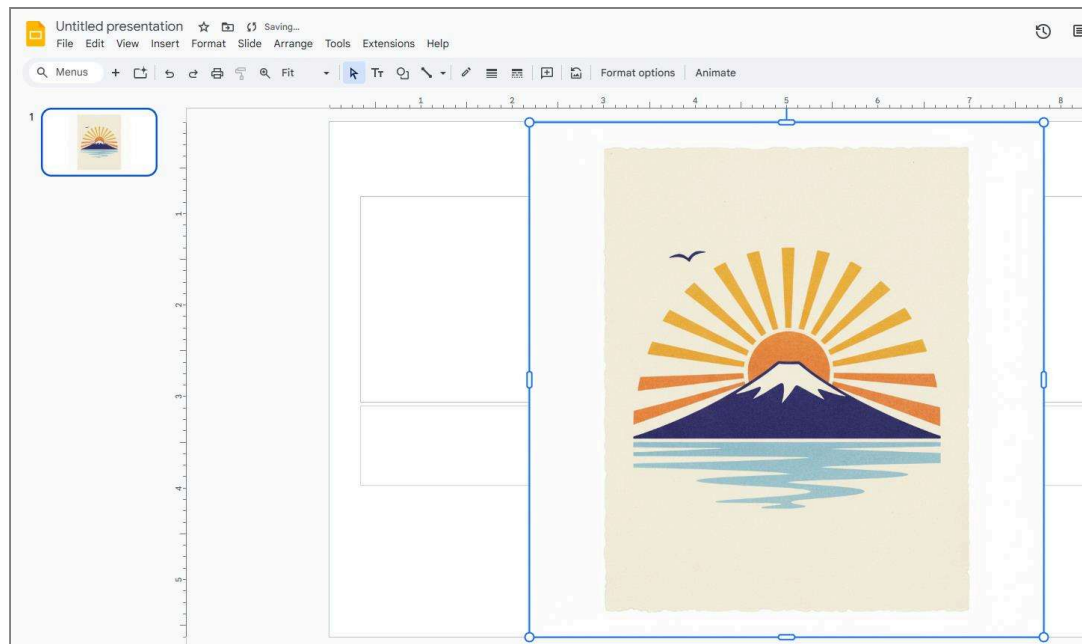

- On the Google Slides Home page, select **Blank presentation**.
- On the *Untitled presentation* spreadsheet, on the Ribbon, select **Insert**, select **Image**, and then select **Upload from computer**.

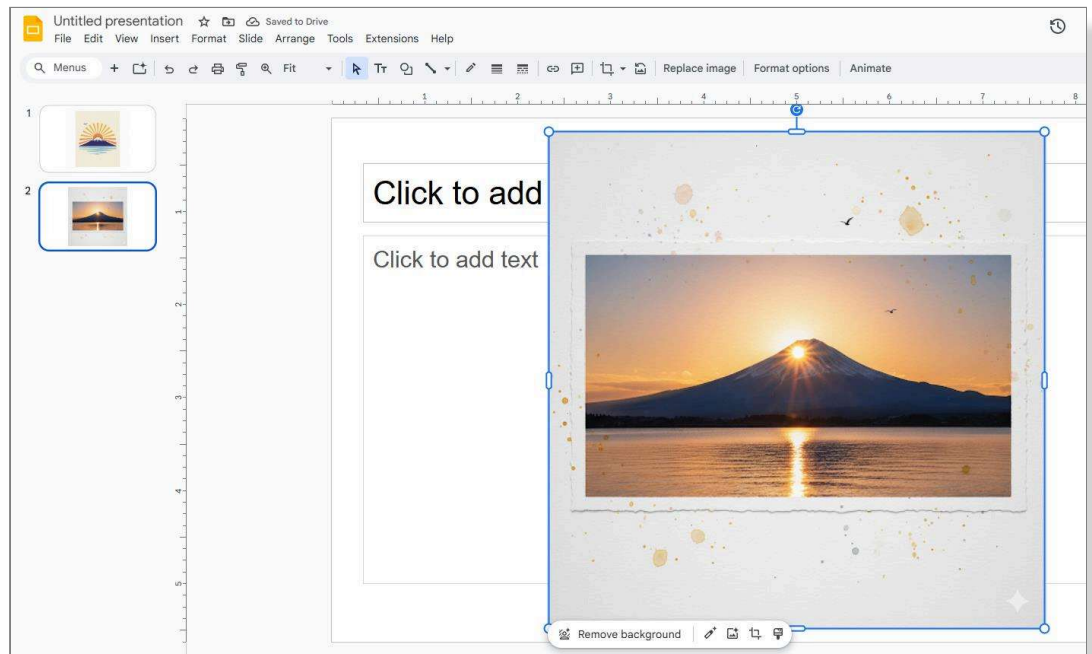

- Navigate to your images, select one image, and then select **the Google Home page**, select ****Slides**.

**

- Add a new slide and then insert the second image.

Check your work

Exercise 3: Make a Social Media Post Image

- Ask Gemini to design a square promotional image by using the following prompt:

T Make a 1080x1080 Instagram post promoting a weekend sale: '50% Off All Items - This Weekend Only!' Use bold fonts and bright background.

Expand this hint for guidance on adapting images for different social platforms. ^

- In the Gemini prompt textbox, enter the following:

T Make a 1080x1080 Instagram post promoting a weekend sale: '50% Off All Items - This Weekend Only!' Use bold fonts and bright background.

- Save the image to your Downloads folder.

- Ask Gemini to generate a Facebook Cover by using the following prompt:

T Design a Facebook Cover promoting an upcoming live event, using bright concert lights and space for event details.

Expand this hint for guidance on adapting images for different social platforms. ^

- In the Gemini prompt textbox, enter the following:

T Design a Facebook Cover promoting an upcoming live event, using bright concert lights and space for event details.

- Save the image to your Downloads folder.

- Ask Gemini to generate a TikTok story background by using the following prompt:

T Generate a vibrant background for a story ad promoting a new product launch, with abstract gradients.

Expand this hint for guidance on adapting images for different social platforms. ^

- In the Gemini prompt textbox, enter the following:

T Generate a vibrant background for a story ad promoting a new product launch, with abstract gradients.

- Save the image to your Downloads folder.

- Add the following text to the image by using the following prompt:

T Add the following text to the image: "Coming Soon! Stay Tuned".

- Upload all images to Google Drive for comparison.

Exercise 4: Generate Multiple Variations

- Ask Gemini to produce multiple creative variations of the same concept by using the following prompt:

T Create 3 different poster-style images advertising a jazz concert in New York City.

Expand this hint for guidance on labeling styles in Slides.

- In the Gemini prompt textbox, enter the following:

T Create 3 different poster-style images advertising a jazz concert in New York City.

- Save the image to your Downloads folder.

- Ask Gemini to produce multiple creative variations of the same concept by using the following prompt:

T Create 3 different retro/vintage style images advertising a jazz concert in New York City.

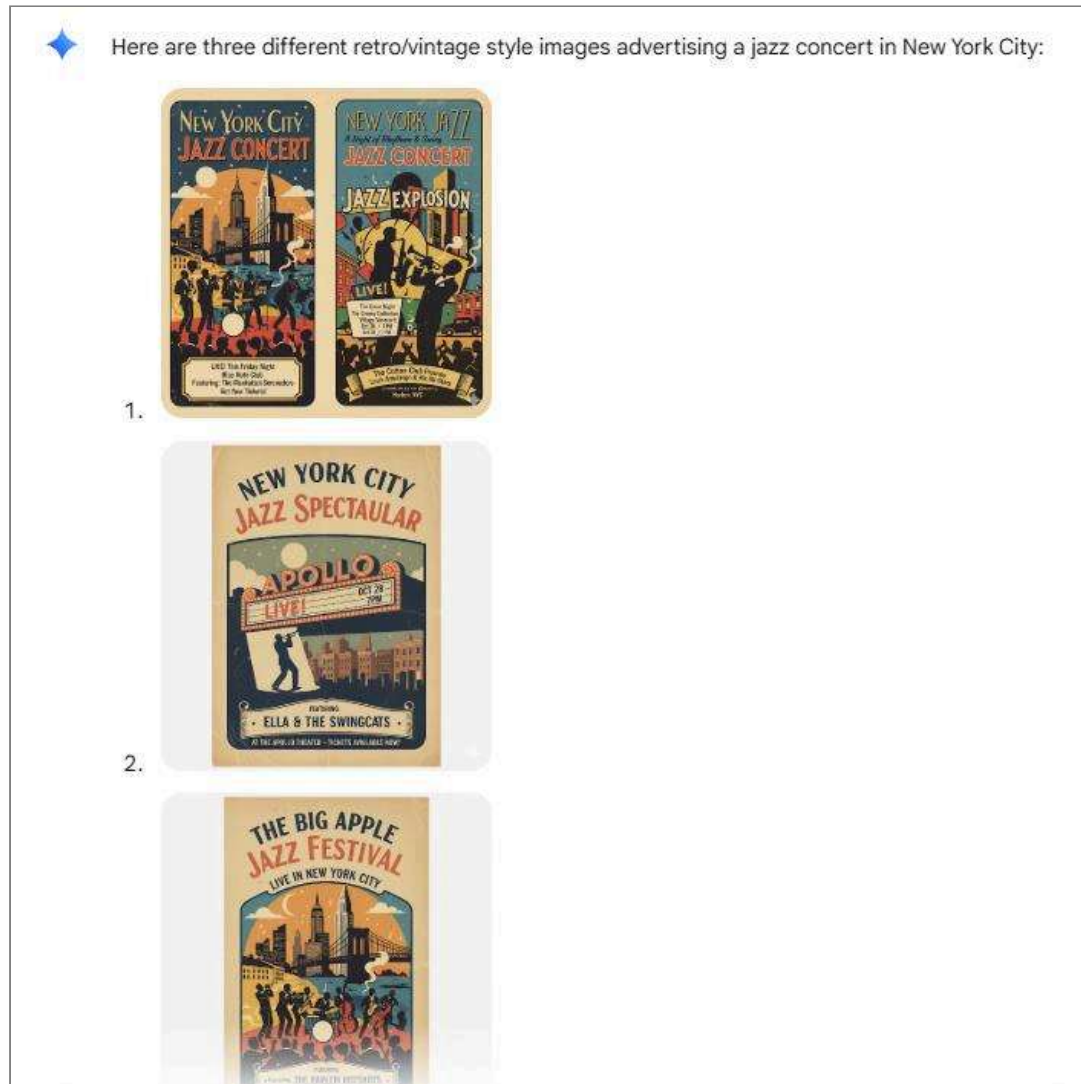

Expand this hint for guidance on labeling styles in Slides.

- In the Gemini prompt textbox, enter the following:

T Create 3 different retro/vintage style images advertising a jazz concert in New York City.

- Save the image to your Downloads folder.

- Ask Gemini to produce multiple creative variations of the same concept by using the following prompt:

T Create 3 different comic book style images advertising a jazz concert in New York City.

- Ask Gemini to produce multiple creative variations of the same concept by using the following prompt:

T Create 3 different Salvador Dali style images advertising a jazz concert in New York City.

Here are three Salvador Dalí-inspired images advertising a jazz concert in New York City:

1.

2.

- Insert all images into a Google Slides deck and label each style.

Exercise 5: Edit an Existing Image

- Generate your sample image by entering the following prompt:

T Create a photo of a laptop on a wooden desk with a plant beside it.

Expand this hint for guidance on editing an existing image.

- In the Gemini prompt textbox, enter the following:
- T Create a photo of a laptop on a wooden desk with a plant beside it.

- Save the generated image to your Downloads folder.
- Upload your sample image and then ask Gemini to edit it by using the following prompt.

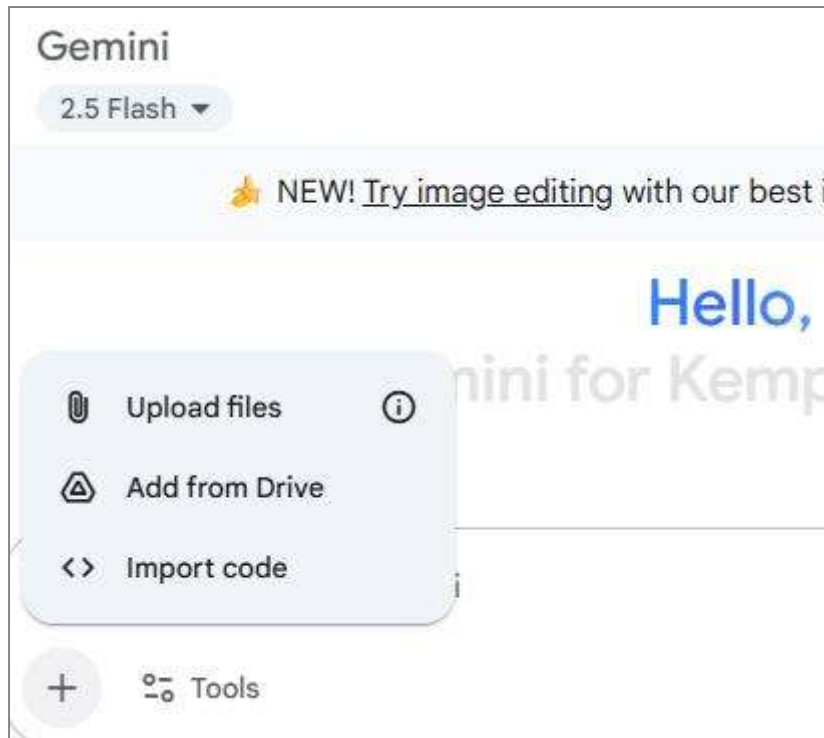

T Remove the background and replace it with a clean white background.

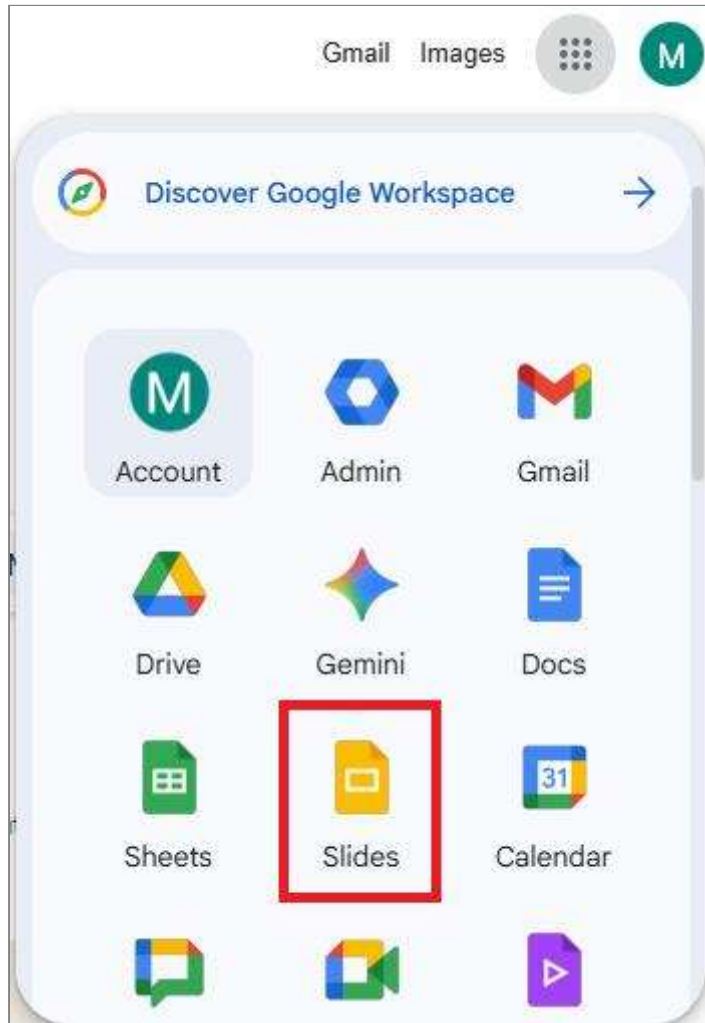

Expand this hint for guidance on editing an existing image.

- On the Gemini Home page, select the **Add files** icon, and then select **Upload Files**.

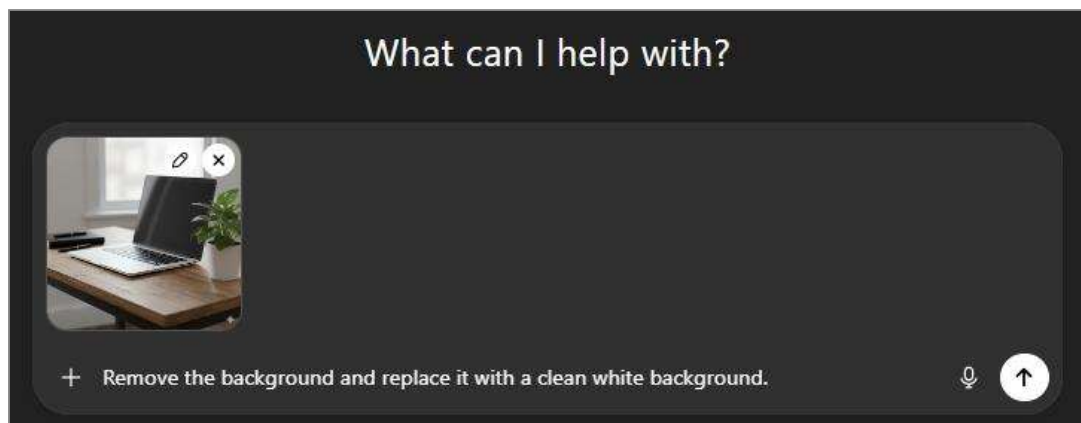

- Navigate to the Downloads folder, select the sample image, and then select **the Google Home page, select **Slides**.

**

- In the Gemini prompt textbox, enter the following:

T Remove the background and replace it with a clean white background.

- Save the generated image to your Downloads folder.

- Upload the white-background image again and then ask Gemini to edit it by using the following prompt.

T Replace the background with a modern office environment.

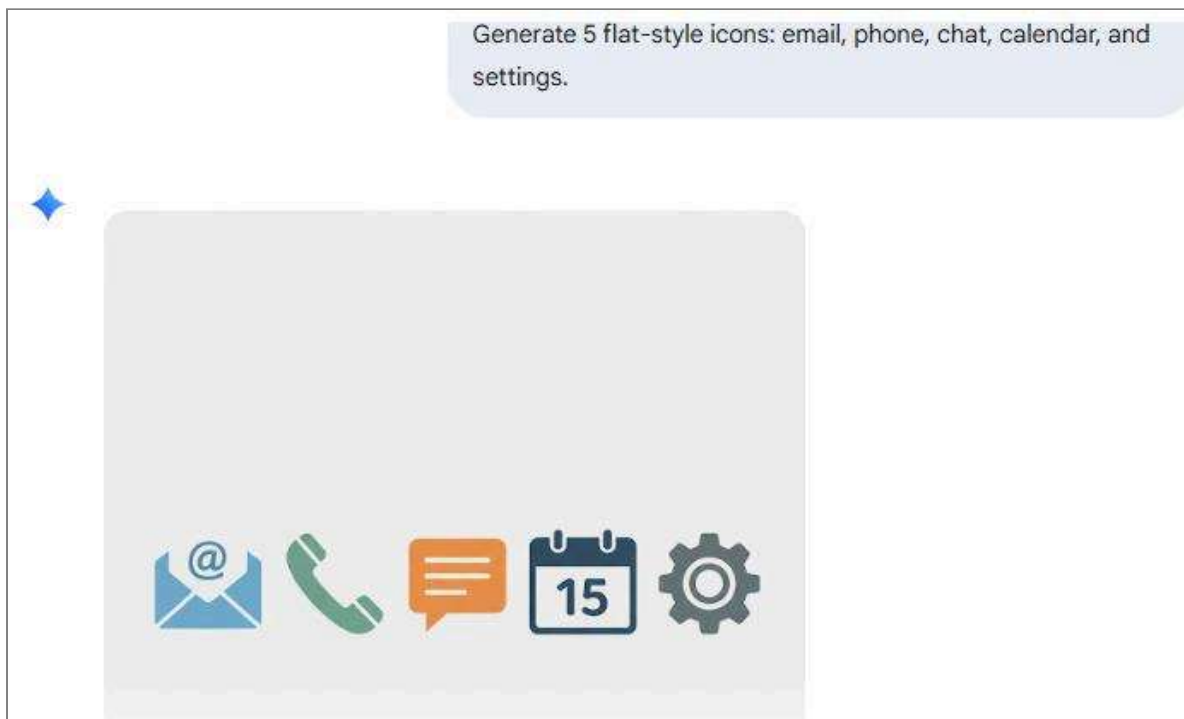

- Compare the three versions in Google Drive.

Check your work

Exercise 6: Create Icons

- Ask Gemini to design icons for an app by using the following prompt:

T Generate 5 flat-style icons: email, phone, chat, calendar, and settings.

- In Google Drive, create a new folder named **T** ApplIcons, and then upload your icons.
- Ask Gemini to redesign the icons by using the following prompt:
T Regenerate the same 5 icons in a 3D gradient style.

Regenerate the same 5 icons in a 3D gradient style.

- Upload the icons to the **AppIcons** folder.

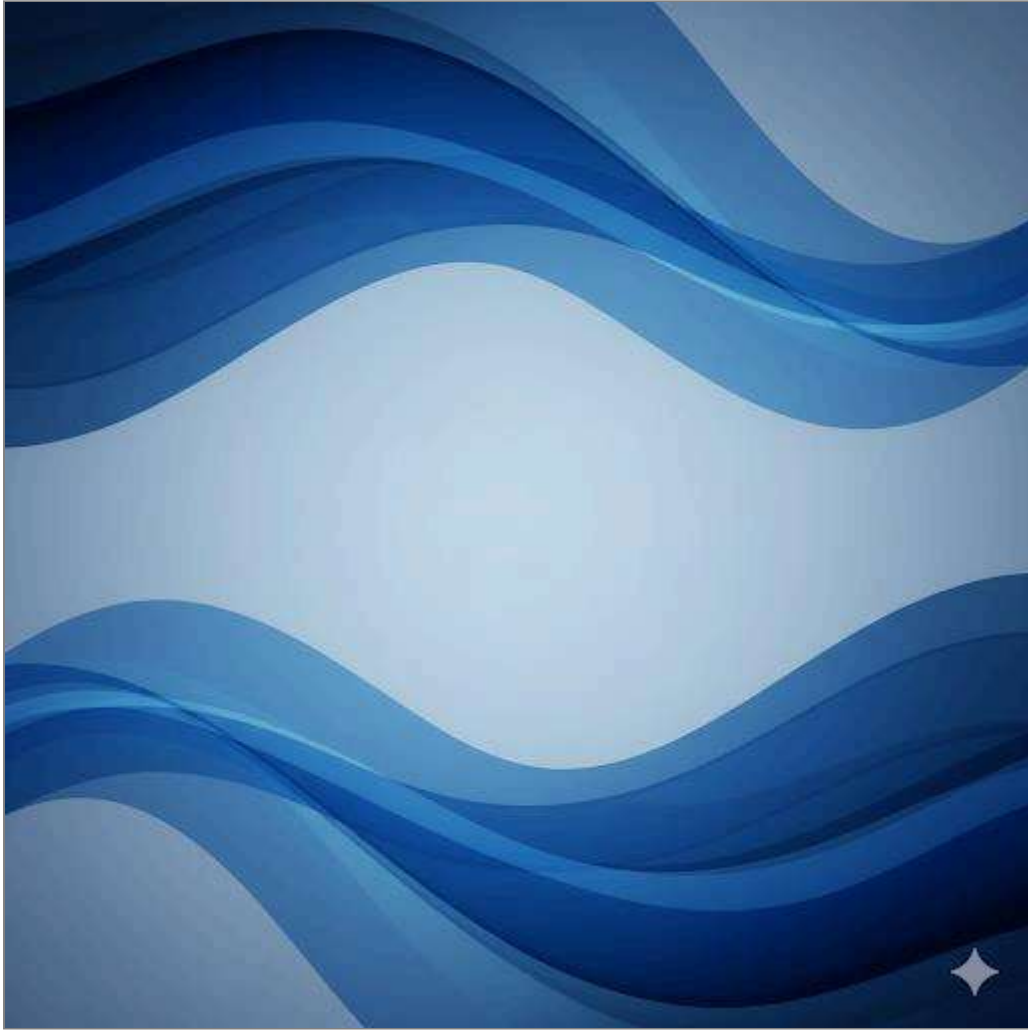

-

Check your work

Exercise 7: Generate a Presentation Background

- Ask Gemini to create a slide background image by using the following prompt:

T Design a professional presentation background with abstract blue waves.

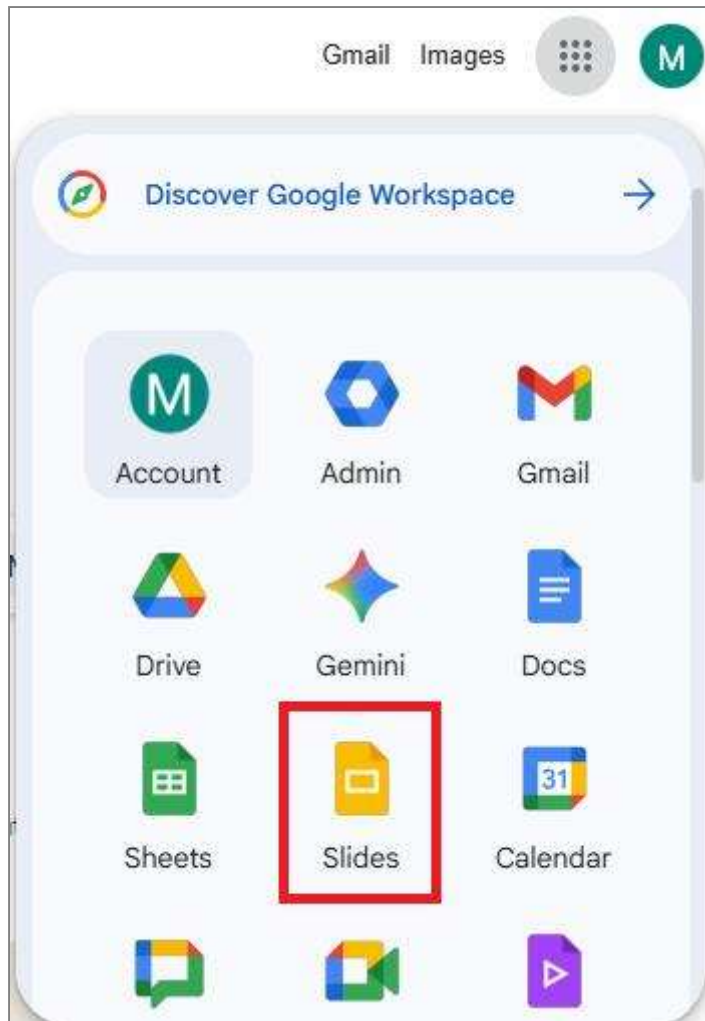

- Insert the background into a Google Slides deck and set it as the background.

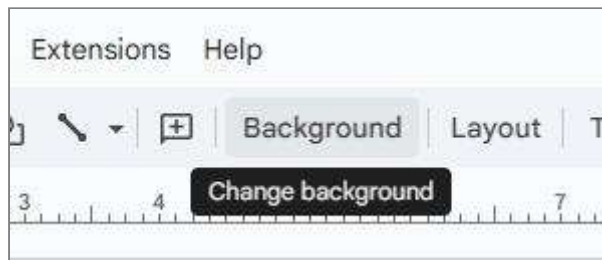

Expand this hint for guidance on setting a slide background.

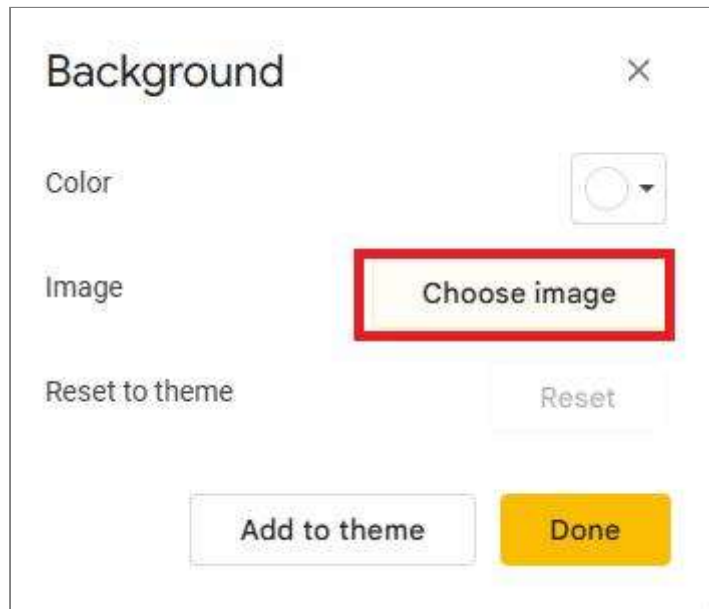

- On the Google Home page, select **Slides**, and then select **Blank Presentation**.

- Select Background in the toolbar (or go to Slide → Change background).

- In the popup, select **Choose Image**.

- Upload the background image, and then select **Done**.

 To apply it across all slides, click Add to theme before closing.

- Ask Gemini to create additional matching slide background images by using the following prompt:

 Generate a set of 3 individual images with alternative color schemes for this background: 1 green, 1 orange, and 1 purple.

- Create 3 new slides and then apply each background to a different slide in the same deck.

- Save the presentation as T Gemini Backgrounds in **Google Drive**.

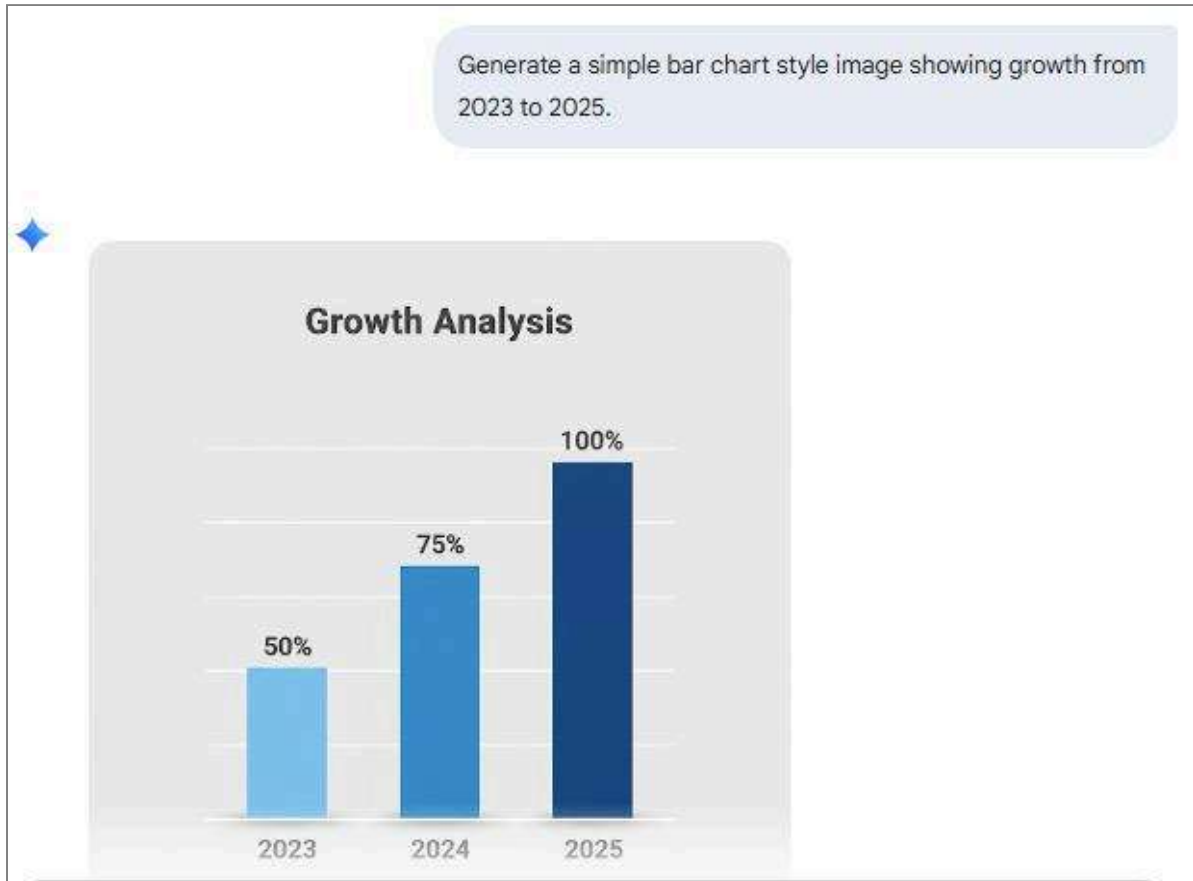

Check your work

Exercise 8: Create Infographic Elements

- Ask Gemini to generate parts of an infographic by using the following prompt, and then download the image to your Downloads folder:

T Generate a simple bar chart style image showing growth from 2023 to 2025.

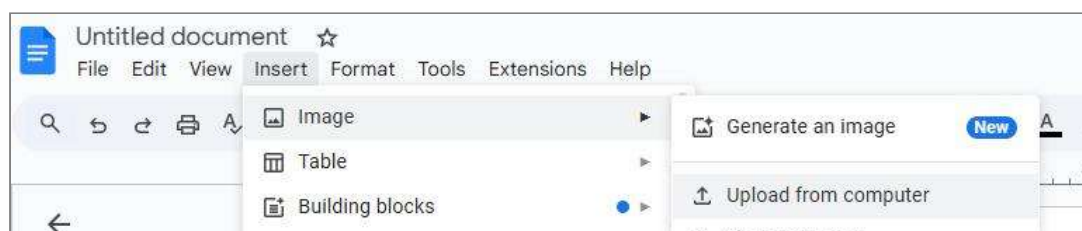

- Insert the result into a Google Docs report.

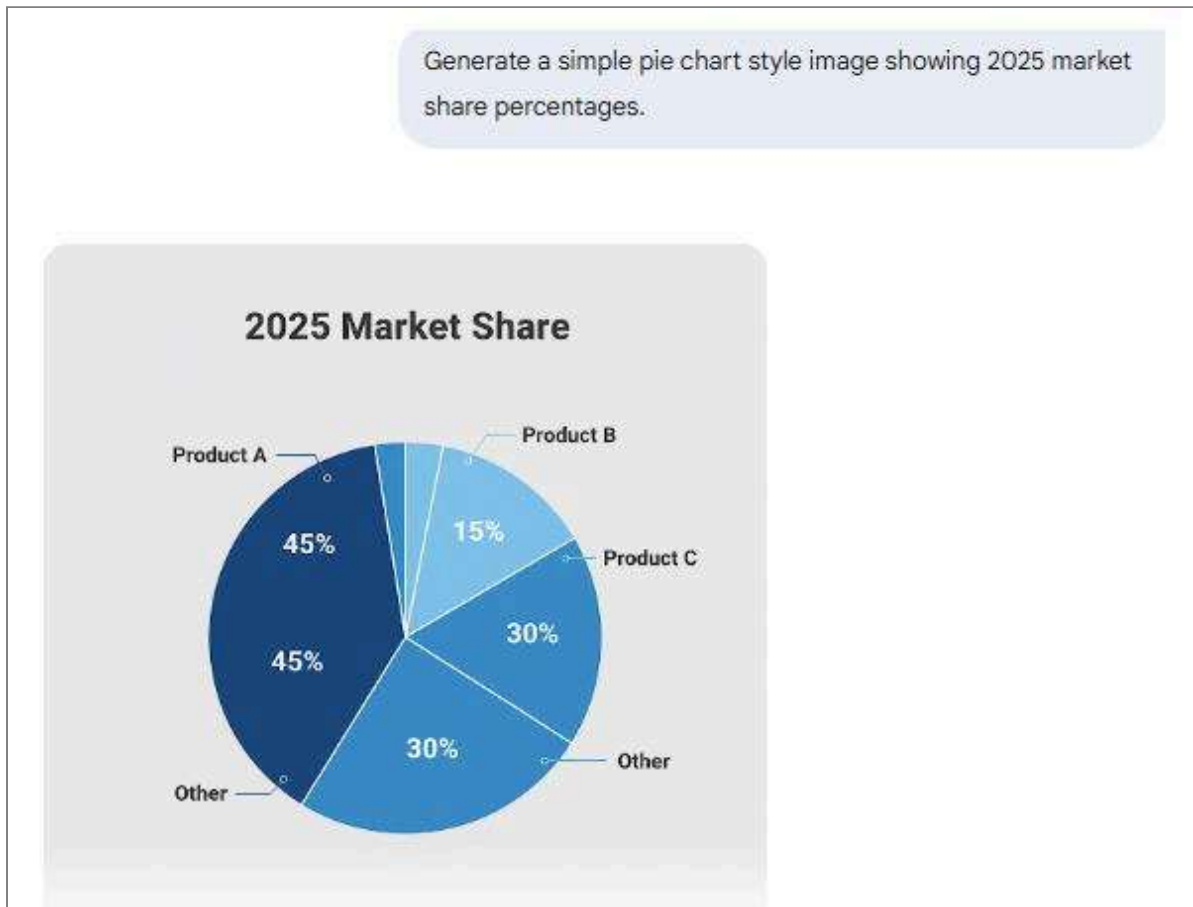

Expand this hint for guidance on inserting an image into a Google Docs report. 

- On the Google Home page, select **Docs**, and then select **Blank Document**.
- On the Untitled document ribbon, select **Insert**, **Image**, and then select **Upload from computer**.

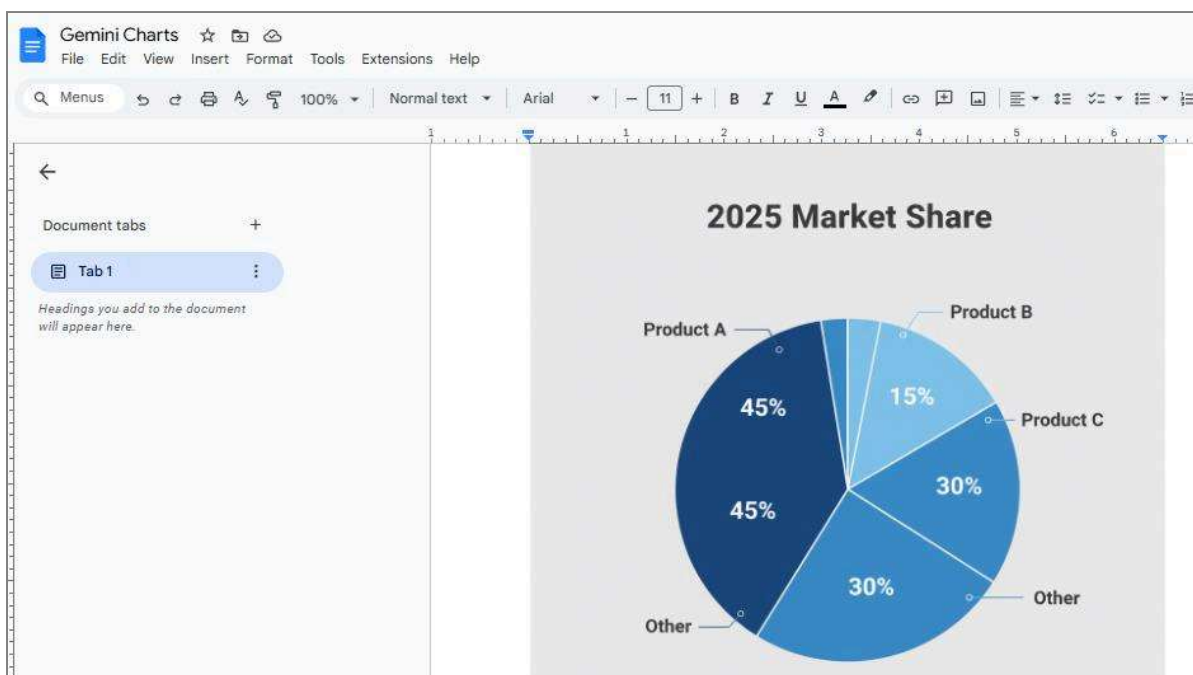

- Ask Gemini to also create a **pie chart image** showing 2025 market share percentages by using the following prompt, and then download the image to your Downloads folder:

T Generate a simple pie chart style image showing 2025 market share percentages.

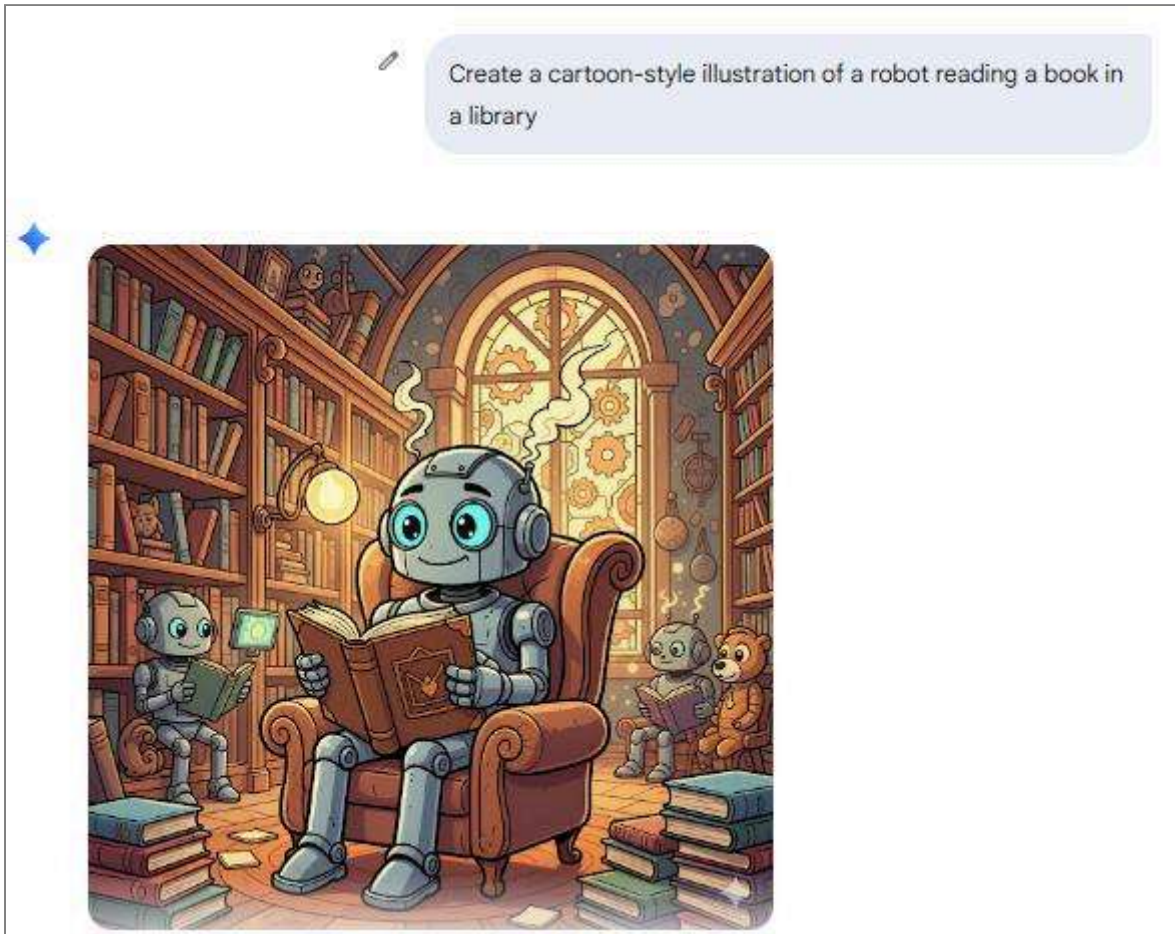

- Insert the pie chart into your open Google Doc and save it as **T Gemini Charts**.

Exercise 9: Design a Themed Illustration

- Ask Gemini to generate an illustration with a theme by using the following prompt, and then download the image to your Downloads folder:

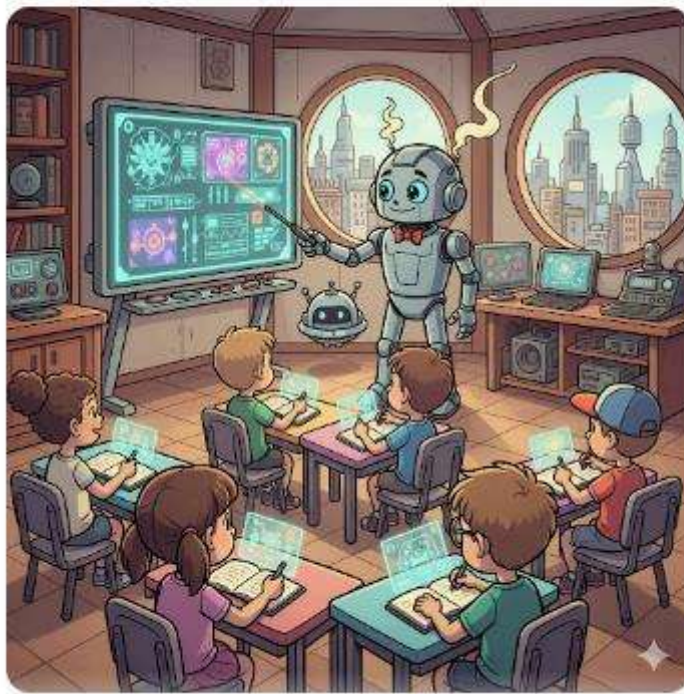

T Create a cartoon-style illustration of a robot reading a book in a library.

- Ask Gemini to generate another illustration with the same theme by using the following prompt, and then download the image to your Downloads folder:

T Generate a second illustration of the same robot, but this time teaching a class of children.

Generate a second illustration of the same robot, but this time teaching a class of children.

- Upload both images to your Google Drive.

Check your work

Summary

Congratulations, you have completed the **Using Google Gemini for Image Creation (Workspace AI)** Lab.

You have accomplished the following:

- Generated a basic image.
- Created a business logo.
- Made a Social Media Post image.
- Generated multiple variations of an image.
- Edited an existing image.
- Created icons.
- Generated a presentation background.
- Create infographics.
- Designed a themed illustration.
