Generate Viral Video Clips with Gemini Veo

Understand the scenario

You are a Developer for Hexelo, an organization that wants to use Google Gemini to create viral video clips. First, you will generate a single 8-second video clip. Next, you will create Viral pattern recreations using Google Gemini. Finally, you will generate short Viral Vlogs using Gemini Veo.

Getting Started (Before You Begin)

Before beginning this lab, make sure:

- You are signed into your Google Workspace (work or school) Gmail account.
- Access to Google Docs in a desktop browser.
- Your administrator has enabled Gemini (formerly Duet AI).
- You are using the Google Chrome browser for best compatibility.

Exercise 1: Generate a single 8-second video clip

- Enter your Gmail Username and Password into the following textboxes:

Gmail Users Name

Gmail Password

- Ask Gemini to create a single 8-second clip by using the following prompt:

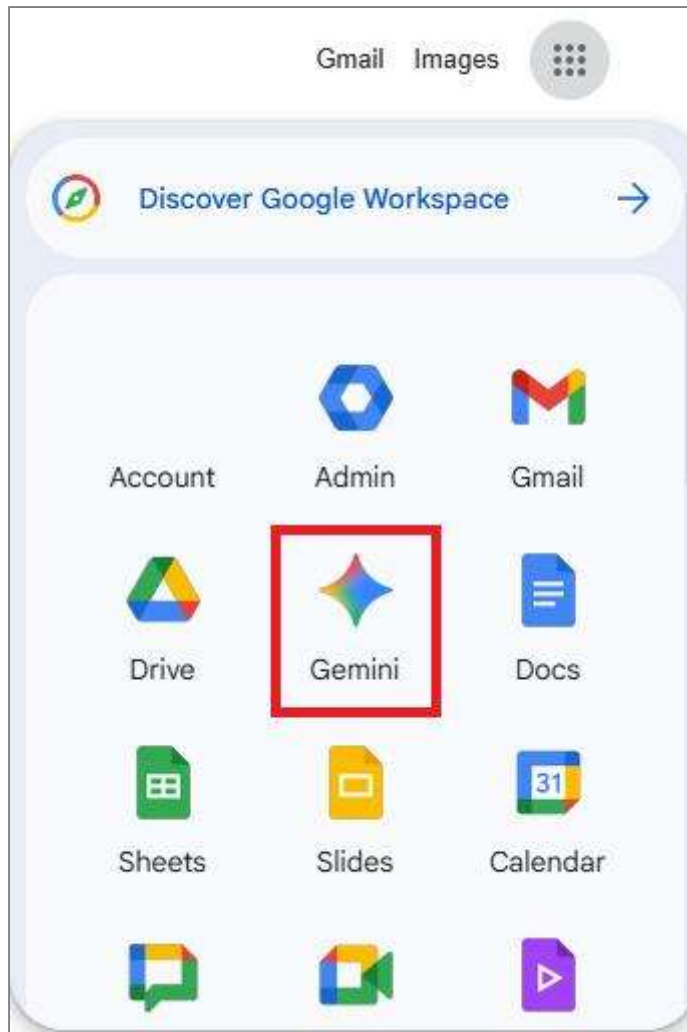

T Three stormtroopers wearing fake mustaches, sombreros, and sunglasses speak to camera: "I think it worked! We are the three amigos. Let the force be with us."

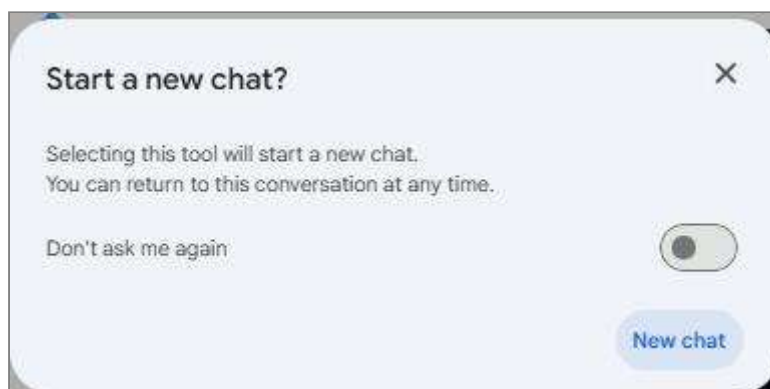

Expand this hint for guidance on creating videos in Google Gemini.

- On the Google Chrome Home page, select **Gemini**.

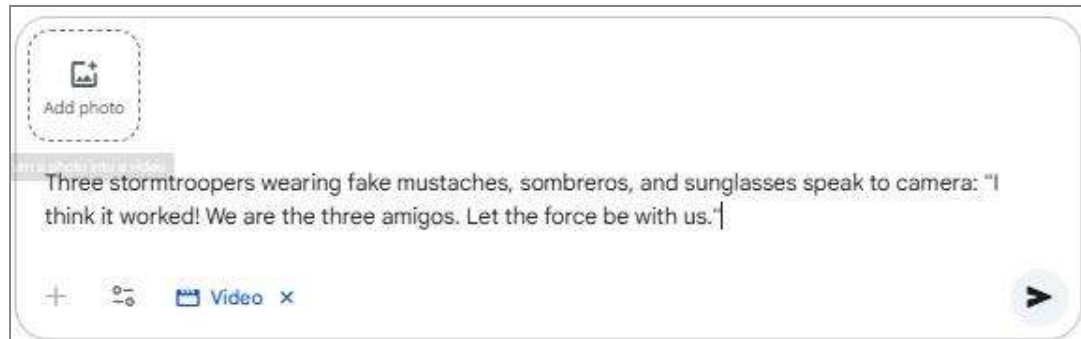

- In the Gemini prompt textbox, select the **Tools** icon, select **Create videos with Veo**, and then on the *Start new chat* dialog, select **New chat**.

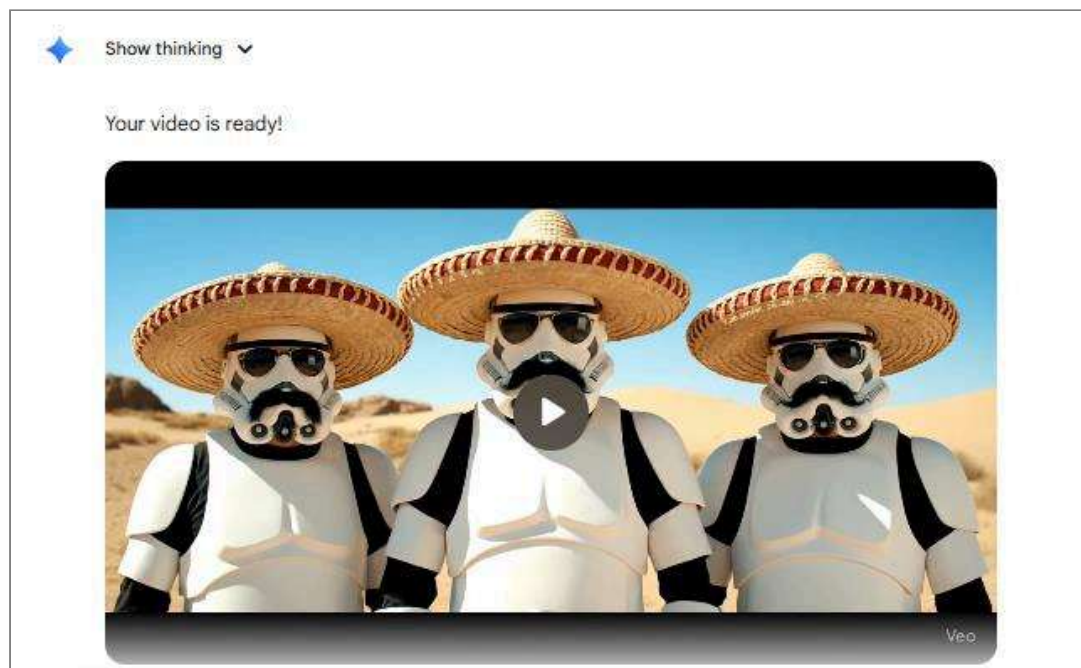

- In the Gemini prompt textbox, enter the following:

T Three stormtroopers wearing fake mustaches, sombreros, and sunglasses speak to camera: "I think it worked! We are the three amigos. Let the force be with us."

- Save the video to your Downloads folder, and then upload it to your Google Drive.

- Sharpen the following prompt by using ChatGPT:

T Improve this for an AI video generator. Include visual details, camera, lighting, and specific ambient audio. Return one paragraph only.

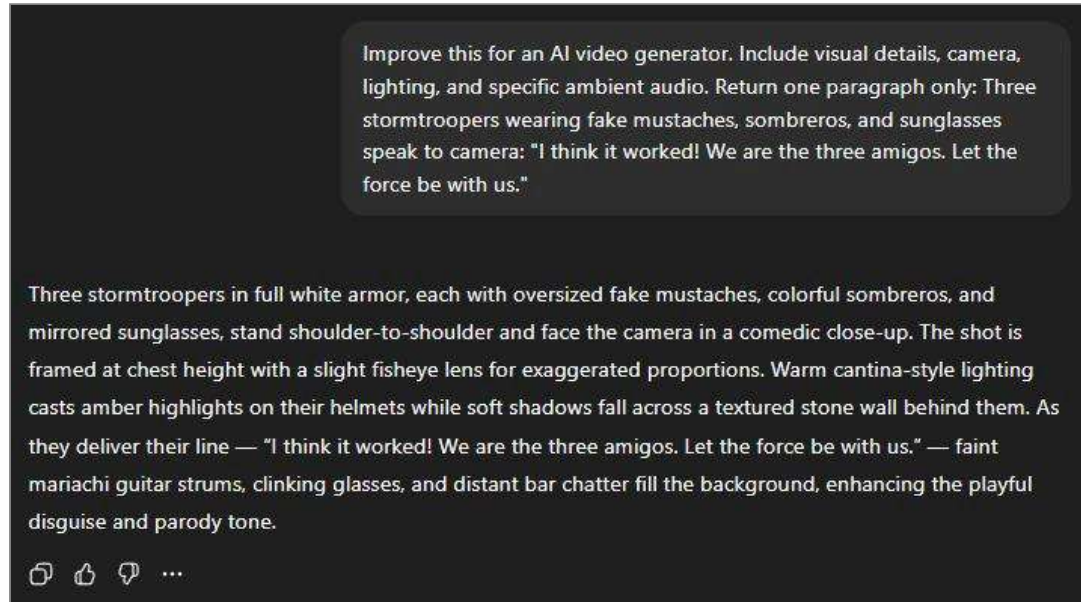

Expand this hint for guidance on improving prompts in ChatGPT.

- On the Google Chrome Home page, in the address bar, navigate to [ChatGPT.com](https://chatgpt.com).
- In the ChatGPT prompt textbox, enter the following:

T Improve this for an AI video generator. Include visual details, camera, lighting, and specific ambient audio. Return one paragraph only: Three stormtroopers wearing fake mustaches, sombreros, and sunglasses speak to camera: "I think it worked! We are the three amigos. Let the force be with us."

- Select the **Copy** icon to select and copy the entire prompt.
- Ask Gemini to create a second 8-second clip by using your improved prompt, or use the following improved prompt:

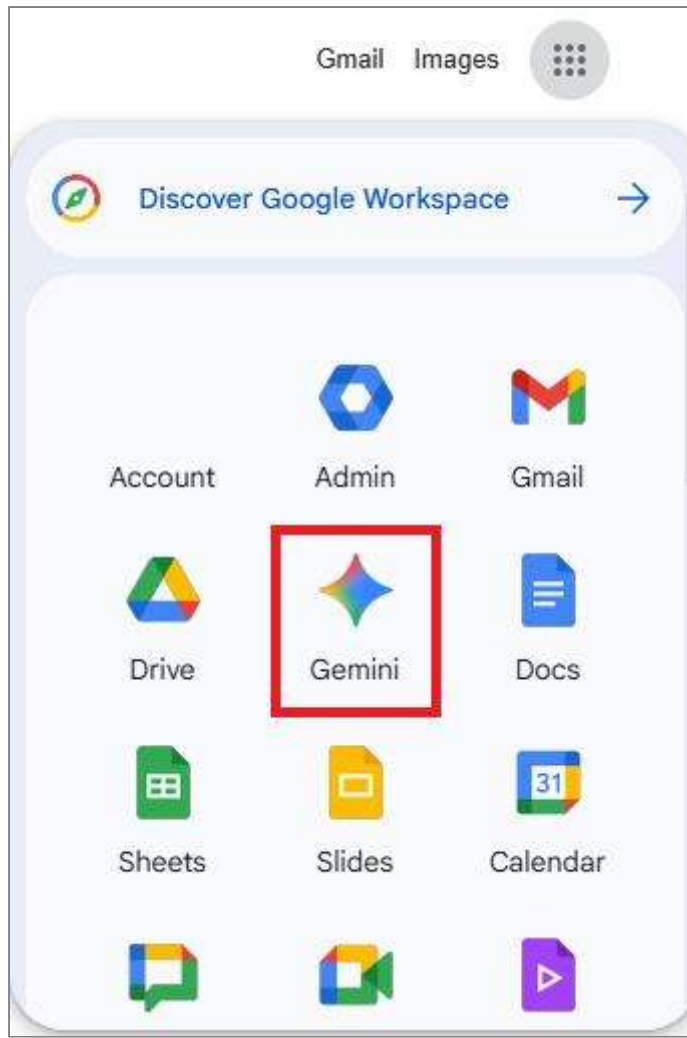

T Three stormtroopers in full white armor, each with oversized fake mustaches, colorful sombreros, and mirrored sunglasses, stand shoulder-to-shoulder and face the camera in a comedic close-up. The shot is framed at chest height with a slight fisheye lens for exaggerated proportions. Warm cantina-style lighting casts amber highlights on their helmets while soft shadows fall across a textured stone wall behind them. As they deliver their line - "I think it worked! We are the three amigos. Let the force be with us." - faint mariachi guitar strums, clinking glasses, and distant bar chatter fill the background, enhancing the playful disguise and parody tone.

Expand this hint for guidance on creating videos in Google Gemini.

- Return to the Google Gemini tab or page.

- In the Gemini prompt textbox, enter the following prompt into the prompt textbox:

T Three stormtroopers in full white armor, each with oversized fake mustaches, colorful sombreros, and mirrored sunglasses, stand shoulder-to-shoulder and face the camera in a comedic close-up. The shot is framed at chest height with a slight fisheye lens for exaggerated proportions. Warm cantina-style lighting casts amber highlights on their helmets while soft shadows fall across a textured stone wall behind them. As they deliver their line - "I think it worked! We are the three amigos. Let the force be with us." - faint mariachi guitar strums, clinking glasses, and distant bar chatter fill the background, enhancing the playful disguise and parody tone.

- Save the video to your Downloads folder, and then upload it to your Google Drive.

Your video is ready!

- Compare the two videos to see how the improved prompt affected the end result.

Check the limits on video generation as they are related to your subscription.

Exercise 2: Create Viral pattern recreations using Google Gemini

- Ask Gemini to create a Man-on-street interview by using the following prompt:

T Alligator reporter asks quick quirky questions to three friends outside a rock concert at night. Street ambience, responsive dialog, over-shoulder coverage.

Expand this hint for guidance on creating videos in Google Gemini.

- On the Google Chrome Home page, select **Gemini**.
- In the Gemini prompt textbox, select the **Tools** icon, select **Create videos with Veo**, and then on the *Start new chat* dialog, select **New chat**.
- In the Gemini prompt textbox, enter the following:

T Alligator reporter asks quick quirky questions to three friends outside a rock concert at night. Street ambience, responsive dialog, over-shoulder coverage.

- Save the video to your Downloads folder, and then upload it to your Google Drive.

- Ask Gemini to create an Object ASMR video by using the following prompt:

T Macro close-up of a glass watermelon cut with a knife. Hyperreal textures. Knife scrape sounds.

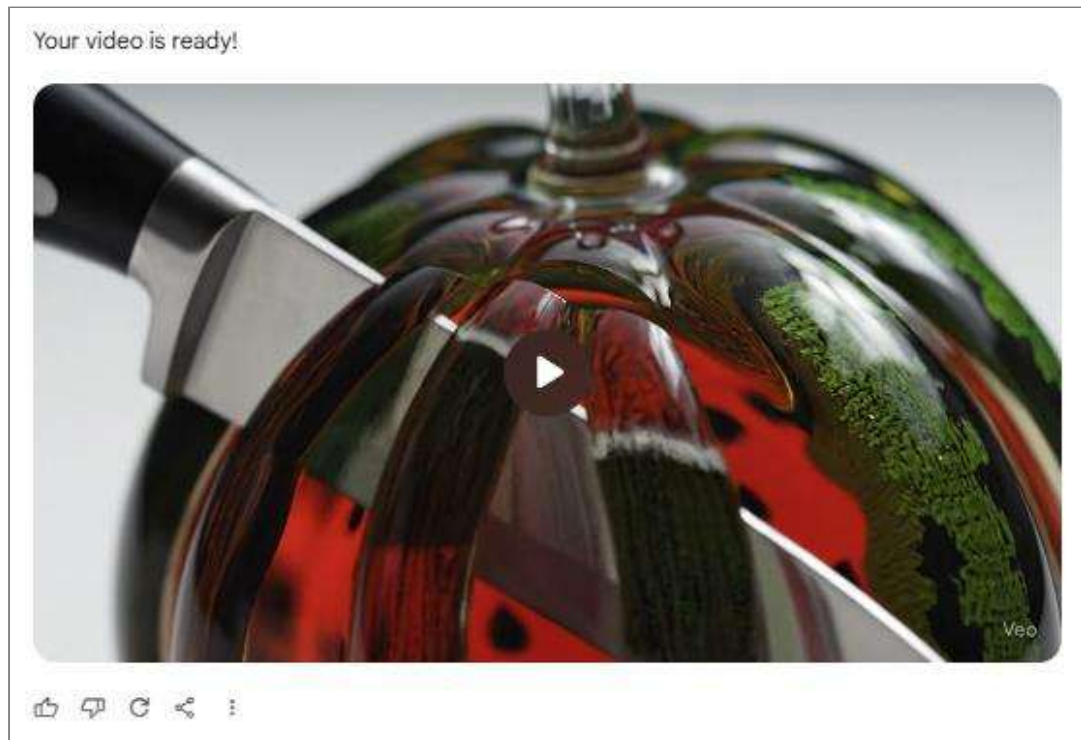

Expand this hint for guidance on creating videos in Google Gemini.

- On the Google Chrome Home page, select **Gemini**.
- In the Gemini prompt textbox, select the **Tools** icon, select **Create videos with Veo**, and then on the *Start new chat* dialog, select **New chat**.
- In the Gemini prompt textbox, enter the following:

T Macro close-up of a glass watermelon cut with a knife. Hyperreal textures. Knife scrape sounds.

- Save the video to your Downloads folder, and then upload it to your Google Drive.

- Ask Gemini to create an odd vignette by using the following prompt:

T Airline gate dispute over an emotional-support alligator. Slow push-in to alligator's puzzled face.

Expand this hint for guidance on creating videos in Google Gemini.

- On the Google Chrome Home page, select **Gemini**.
- In the Gemini prompt textbox, select the **Tools** icon, select **Create videos with Veo**, and then on the *Start new chat* dialog, select **New chat**.
- In the Gemini prompt textbox, enter the following:

T Airline gate dispute over an emotional-support alligator. Slow push-in to alligator's puzzled face.

- Save the video to your Downloads folder, and then upload it to your Google Drive.

Your video is ready!

- Review the three videos.

Exercise 3: Generate short Viral Vlogs using Gemini Veo

- Sharpen the following prompt by using ChatGPT:

T Improve the following prompt for me for an AI video generator. Include both visuals and audio that should be included. Respond with a single paragraph prompt. Don't break out the individual details: Alligator camper standing upright, down by the river, in the forest, wearing camping gear. Holds out the camera selfie style while showing off his campsite and explains his camping setup.

Expand this hint for guidance on improving prompts in ChatGPT.

- On the Google Chrome Home page, in the address bar, navigate to **T** ChatGPT.com.
- In the ChatGPT prompt textbox, enter the following:

T Improve the following prompt for me for an AI video generator. Include both visuals and audio that should be included. Respond with a single paragraph prompt. Don't break out the individual details: Alligator camper standing upright, down by the river, in the forest, wearing camping gear. Holds out the camera selfie style while showing off his campsite and explains his camping setup.

Improve the following prompt for me for an AI video generator. Include both visuals and audio that should be included. Respond with a single paragraph prompt. Don't break out the individual details: Alligator camper standing upright, down by the river, in the forest, wearing camping gear. Holds out the camera selfie style while showing off his campsite and explains his camping setup.

A cartoon-style alligator camper stands upright by a quiet river deep in the forest, dressed in full camping gear with a backpack and hat, holding the camera at arm's length in a casual selfie style. He smiles into the lens while panning to show his rustic campsite with a pitched tent, campfire, and gear neatly arranged under tall trees swaying gently in the breeze. The natural soundscape includes birds chirping, leaves rustling, and water flowing softly in the background, while the alligator speaks cheerfully to the camera, enthusiastically explaining his camping setup as if recording a personal vlog.

- Select the **Copy** icon to select and copy the entire prompt.
- Ask Gemini to create a short Viral Vlog by using the following prompt:

T A photorealistic alligator camper stands upright by a quiet river deep in the forest, dressed in full camping gear with a backpack and hat, holding the camera at arm's length in a casual

selfie style. He smiles into the lens while panning to show his rustic campsite with a pitched tent, campfire, and gear neatly arranged under tall trees swaying gently in the breeze. The natural soundscape includes birds chirping, leaves rustling, and water flowing softly in the background, while the alligator speaks cheerfully to the camera, enthusiastically explaining his camping setup as if recording a personal vlog.

Expand this hint for guidance on creating videos in Google Gemini.

- In the Gemini prompt textbox, enter your generated prompt, or use the following:

T A photorealistic alligator camper stands upright by a quiet river deep in the forest, dressed in full camping gear with a backpack and hat, holding the camera at arm's length in a casual selfie style. He smiles into the lens while panning to show his rustic campsite with a pitched tent, campfire, and gear neatly arranged under tall trees swaying gently in the breeze. The natural soundscape includes birds chirping, leaves rustling, and water flowing softly in the background, while the alligator speaks cheerfully to the camera, enthusiastically explaining his camping setup as if recording a personal vlog.

- Save the image to your Downloads folder, and then upload it to your Google Drive.

!IMAGE

- Ask Gemini to create a dramatic slow-mo reveal of a vintage car driving through a storm with a cinematic soundtrack by using the following prompt:

T A dramatic slow-motion reveal shows a gleaming vintage muscle car emerging from heavy rain on a deserted highway at night, its headlights slicing through sheets of water while lightning briefly illuminates the chrome body and windshield with sharp reflections. The camera tracks low and close as water sprays off the tires, neon road signs flicker in the distance, and thunder rolls overhead. Each flash of lightning catches raindrops cascading across the hood, while the storm intensifies with wind and pounding rain. A tense cinematic soundtrack swells with deep strings and echoing percussion, heightening the suspense as the car powers forward into the storm's chaos.

- Ask Gemini to create a video of an astronaut awakening on a neon alien planet, with rose-petal rain, and synth wave music, by using the following prompt:

T An astronaut in a sleek white space suit awakens on a surreal neon alien planet, surrounded by glowing crystal spires and bioluminescent plants that pulse with vibrant purples, blues, and pinks. Rose-petal rain drifts slowly from a shimmering sky, catching the light as it falls onto the reflective surface of the landscape. The scene is framed in a wide cinematic shot with slow camera movement, haze and lens flares enhancing the dreamlike mood. In the background, an ethereal synthwave soundtrack with deep bass and shimmering synths swells, blending with faint alien wind and distant echoes to create a fantastical, cinematic atmosphere.

- Ask Gemini to create a video of retro arcade game characters interacting in real life city streets, with a mixed perspective, and a pop soundtrack, by using the following prompt:

T Retro 8-bit arcade game characters step out of glowing pixelated portals and roam through real-life city streets at night, their blocky, neon-colored bodies contrasting with rain-slick sidewalks, passing cars, and flickering neon signs; the camera sweeps between overhead drone shots and low street-level angles for a mixed perspective, while a vibrant synth-pop soundtrack with arcade sound effects-coin drops, power-up chimes, and digital explosions-underscores the surreal blend of nostalgia, fantasy, and reality.

- Ask Gemini to create a video by using the following prompt:

T Time-lapse transformation: vacant lot becomes lush garden at sunrise, soft music, birds chirping". Visually soothing, especially for loops or reels.

- Ask Gemini to create a video by using the following prompt:

T Haunted mirror reflection with whispering voices, candlelight flicker, gothic mansion". Spooky content tends to go viral, especially near seasonal moments.

- Ask Gemini to create a video by using the following prompt:

T Epic slow-pan over neon cyberpunk marketplace, rainswept streets, flying cars, voice-over narration". World-building + depth + immersive feels.

Check your work

Summary

Congratulations, you have completed the **Generate Viral Video Clips with Gemini Veo** Lab.

You have accomplished the following:

- Generated a single 8-second video clip
- Created Viral pattern recreations using Google Gemini
- Generated short Viral Vlogs using Gemini Veo

Congratulations

ON COMPLETING THE

Generate Viral Video Clips

lab
Gemini Veo
