Google Slides & Vids (Presentations & Video)

Understand the scenario

You are a New Employee for Worx1, an organization that needs to use Google Gemini with Google Slides and Vids. First, you will use Gemini to generate a professional slide deck, and then you will import and summarize data into presentations. Next, you will use Gemini to rewrite or enhance slide content, and then you will auto-generate speaker notes and visual suggestions. Finally, you will create a short video script and storyboard using Google Vids, and then you will turn a written idea into a narrated video with visuals.

Getting Started (Before You Begin)

Before beginning this lab, make sure:

- You are signed into your Google Workspace (work or school) Gmail account.
- Google Slides, Google Vids (Gemini-enabled)
- Your administrator has enabled Gemini (formerly Duet AI).
- You are using the Google Chrome browser for best compatibility.

Exercise 1: Use Gemini to Generate a Slide Deck

- Enter your Gmail Username and Password into the following textboxes:

Gmail Username

Gmail Password

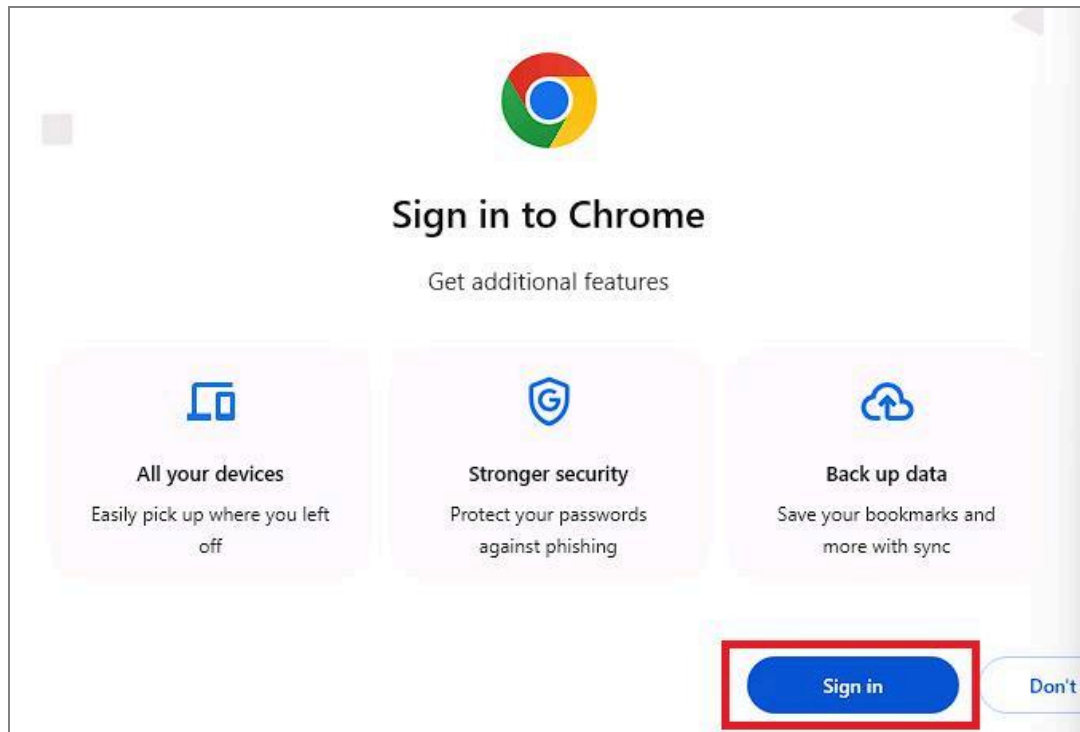

- Sign into Chrome as T <Name> by using T <PW> as the password.

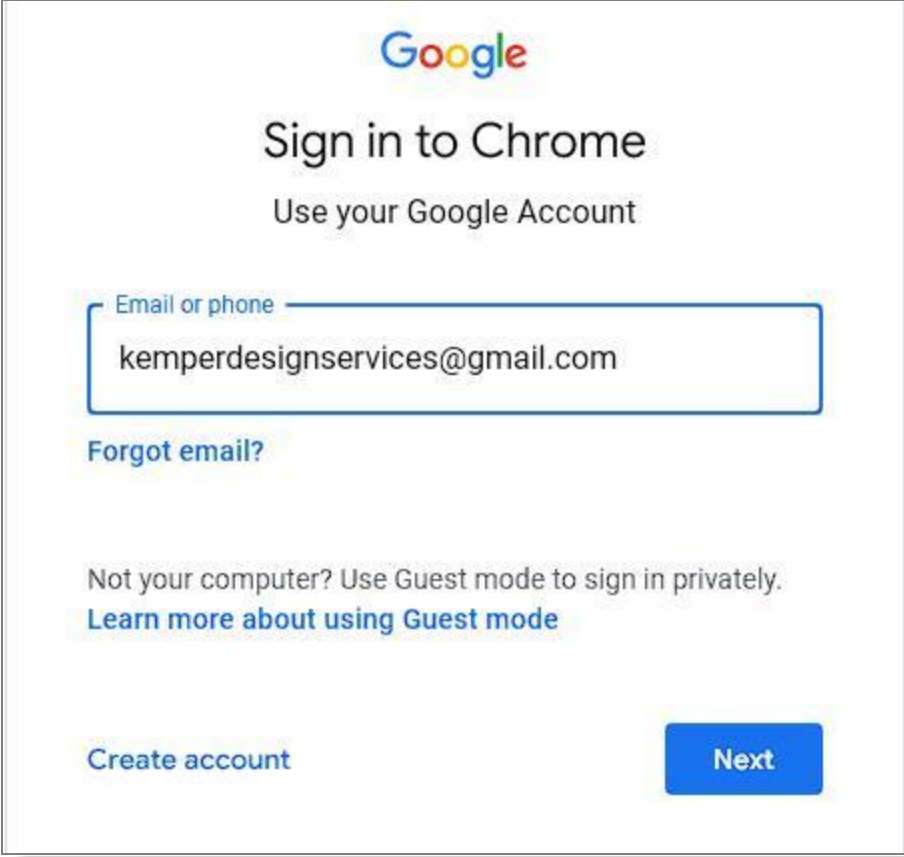

Expand this hint for guidance on signing into Google Chrome.

- On the *Sign in to Chrome* page, select **Sign in**.

- On the *Sign in to Chrome | Use your Google Account* page, in email or phone, enter T <Name>, and then select **Next**
