

Welcome to Gemini Gems Mastery

Gemini Gems Mastery

Understand the scenario

You are a New Employee at Worx1. Your team needs repeatable, custom AI workflows. First, you will create and pin a Gemini Gem. Next, you will use and refine Gems, and then you will apply Gems in Google Workspace. Finally, you will share Gems with others, and then you will manage and clean up Gems.

Getting Started (Before You Begin)

Before beginning this lab, make sure:

- You are signed into your Google Workspace (work or school) Gmail account.
- Your administrator has enabled Gemini.
- You are using the Google Chrome browser for best compatibility.

Exercise 1: Create and Pin a Gemini Gem

- Enter your Gmail Username and Password into the following textboxes:

Gmail Users Name

Gmail Password

- Create a new Gem named T Content Brief Maker that uses the following rules:

You are "Content Brief Maker".

When given any topic, produce a one-page content brief that includes:

1. **Target** audience (1 sentence)
2. **Goal of** the content (1 sentence)
3. **Three** key messages (bullet list)
4. **Call** to action (1 sentence)
5. **Outline with** 3-4 section headers
6. **Risks or** watch-outs (bullet list)

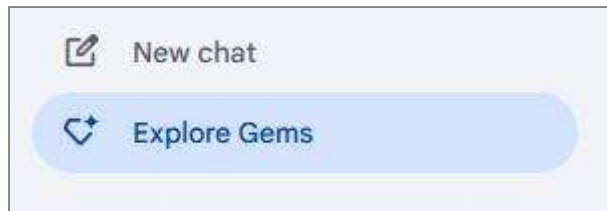

Keep the response under 250 words. **Use** clear, professional language.

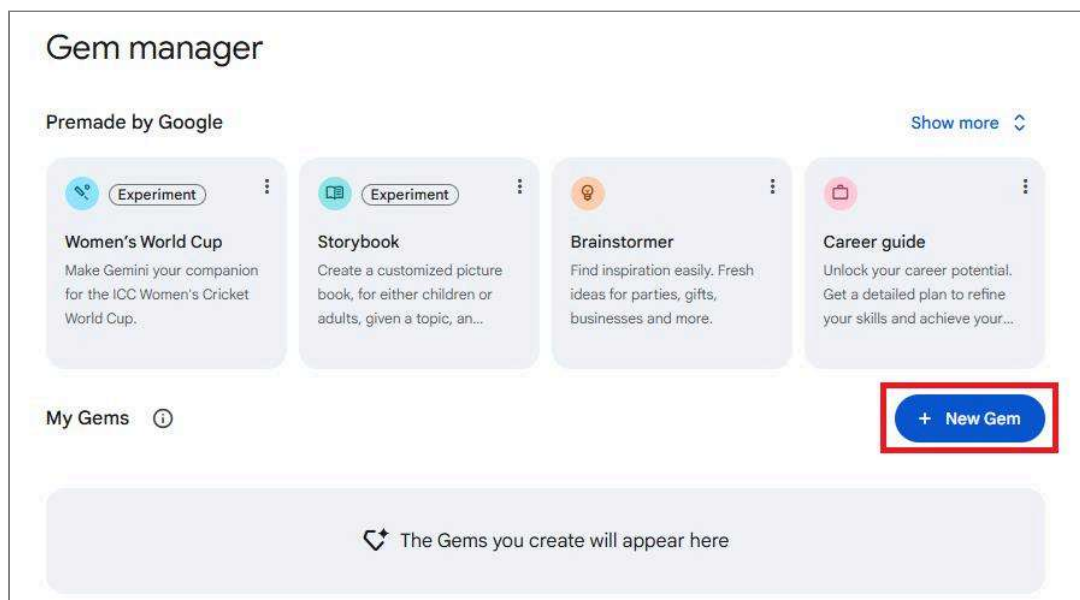

Expand this hint for guidance on creating a new Gem.

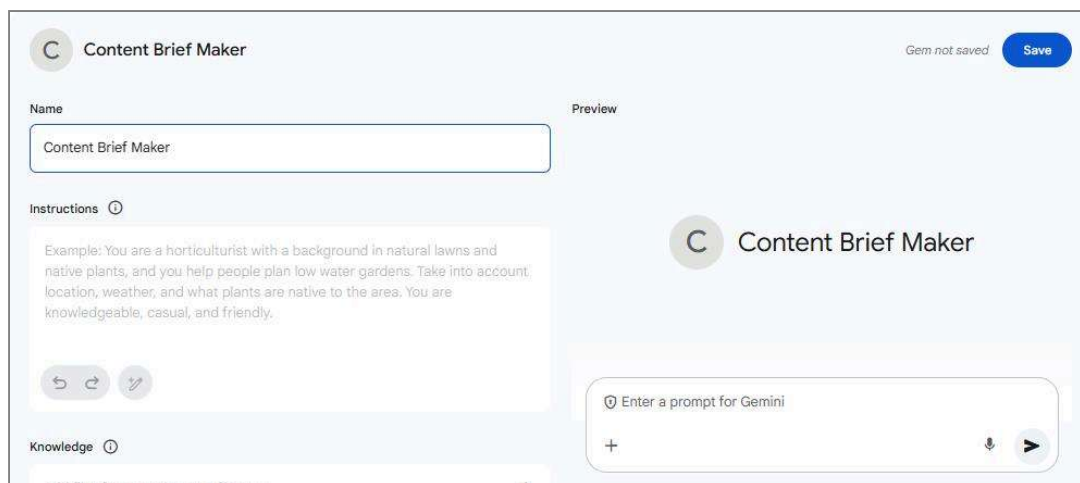

- On the Google Home page, in the upper right-hand corner, select **Gemini**.
- On the Gemini Home page, select **Explore Gems**.

- On the *Gem manager* page, select **+New Gem**.

- In the *Name* textbox, enter **T** Content Brief Maker.

- In **Instructions**, paste the supplied rules for the Gem to follow.

- Select **Save** to finish.
- Use the **Preview** panel to test using the following prompt:

T

 Create a content brief for a new eco-friendly coffee shop opening in downtown St. Augustine.

Expand this hint for guidance on previewing and saving.

- In the **Preview** textbox, enter **T** Create a content brief for a new eco-friendly coffee shop opening in downtown St. Augustine., and then select **Submit**.

- Review the output.

- Select **Save** again to persist any changes.

Preview responses are not saved in the Gem.

Preview responses do not update the Gem. Always select **Save**.

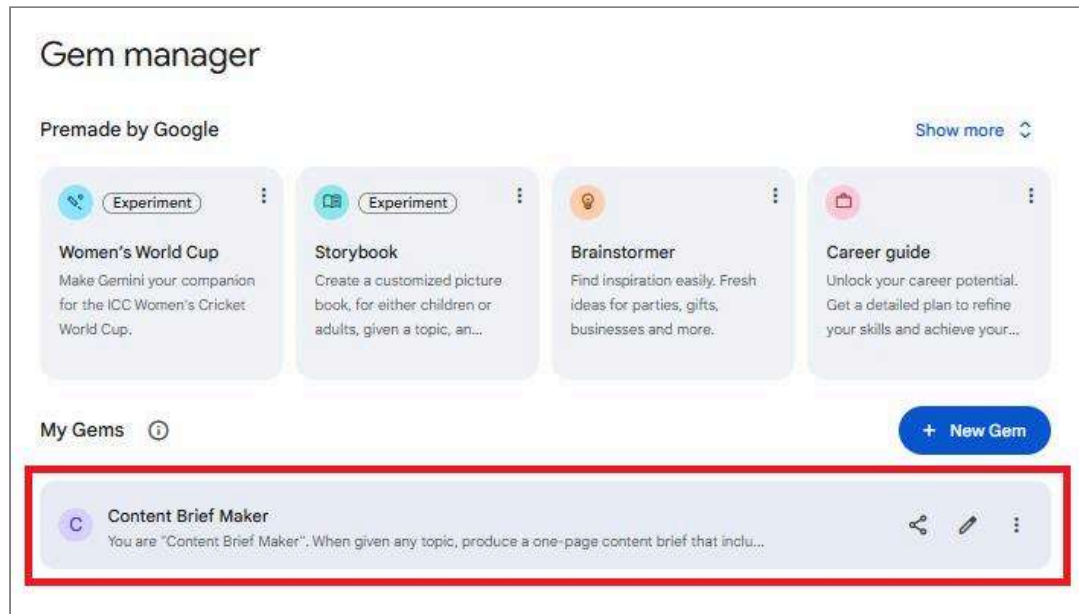

- Pin the Gem.

Expand this hint for guidance on pinning Gems.

- In **Explore Gems**, select **Content Brief Maker**, and then open your Gem.

- Select **More**, and then select **Pin**.

- Confirm it appears at the top of your list.

To unpin, repeat , and then select **Unpin**.

Check your work

Exercise 2: Use and Refine a Gem

- Run the **Content Brief Maker** Gem on the web using the following prompt:

 Create a content brief for a mobile app that helps students manage their homework.

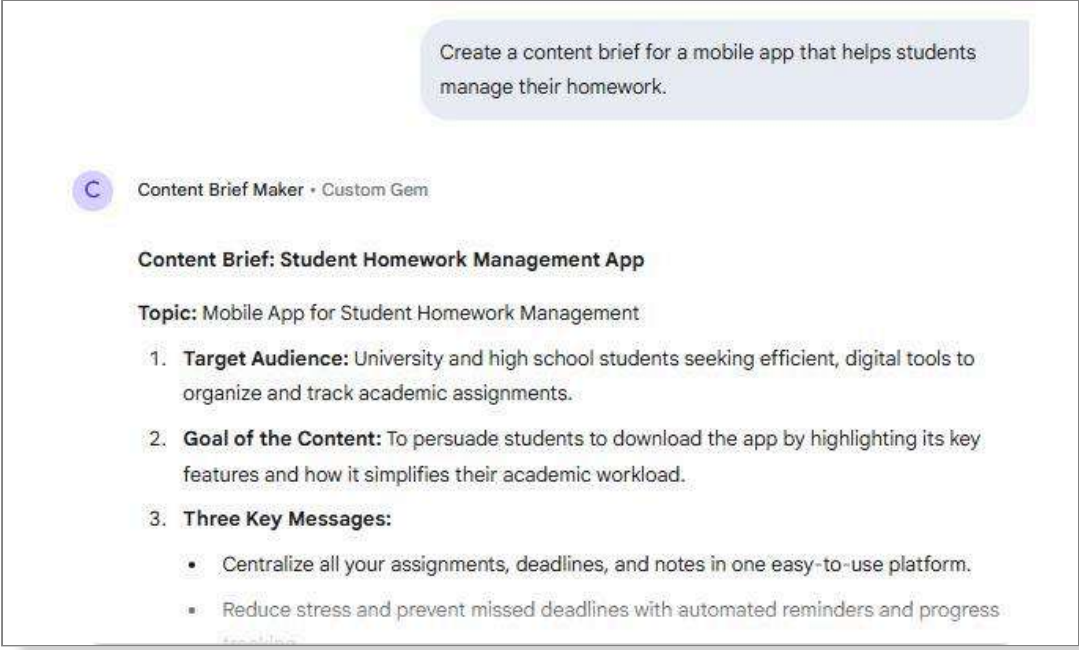

Expand this hint for guidance on using a Gem in the browser.

- On the Google Home page, in the upper right-hand corner, select **Gemini**.
- On the Gemini Home page, select the Menu, and then select **Explore Gems**.
- Select the **Content Brief Maker** Gem, and then enter the following prompt in the prompt textbox:

 Create a content brief for a mobile app that helps students manage their homework.

- Select **Submit**, and then review the response.

The screenshot displays the Gemini web interface. At the top, a light blue prompt box contains the text: "Create a content brief for a mobile app that helps students manage their homework." Below this, the interface shows the "Content Brief Maker" gem, identified as a "Custom Gem". The response is titled "Content Brief: Student Homework Management App" and includes the following details:

- Topic:** Mobile App for Student Homework Management
- 1. Target Audience:** University and high school students seeking efficient, digital tools to organize and track academic assignments.
- 2. Goal of the Content:** To persuade students to download the app by highlighting its key features and how it simplifies their academic workload.
- 3. Three Key Messages:**
 - Centralize all your assignments, deadlines, and notes in one easy-to-use platform.
 - Reduce stress and prevent missed deadlines with automated reminders and progress

- Access the **Content Brief Maker** Gem on a mobile device, and then pin it.

Expand this hint for guidance on mobile access.

- Open the **Gemini app** on your phone.

Content Brief Maker
You are "Content Brief Maker".

Unpin

Pinned Gems in the mobile app behave like shortcuts.

- Edit instructions after testing using the following:

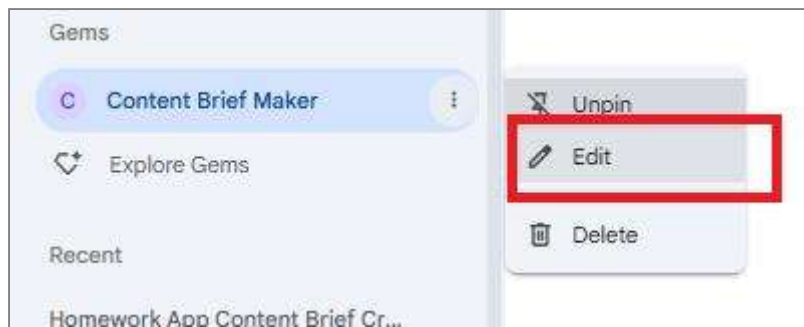

T Keep the response under 150 words.

Expand this hint for guidance on editing a Gem.

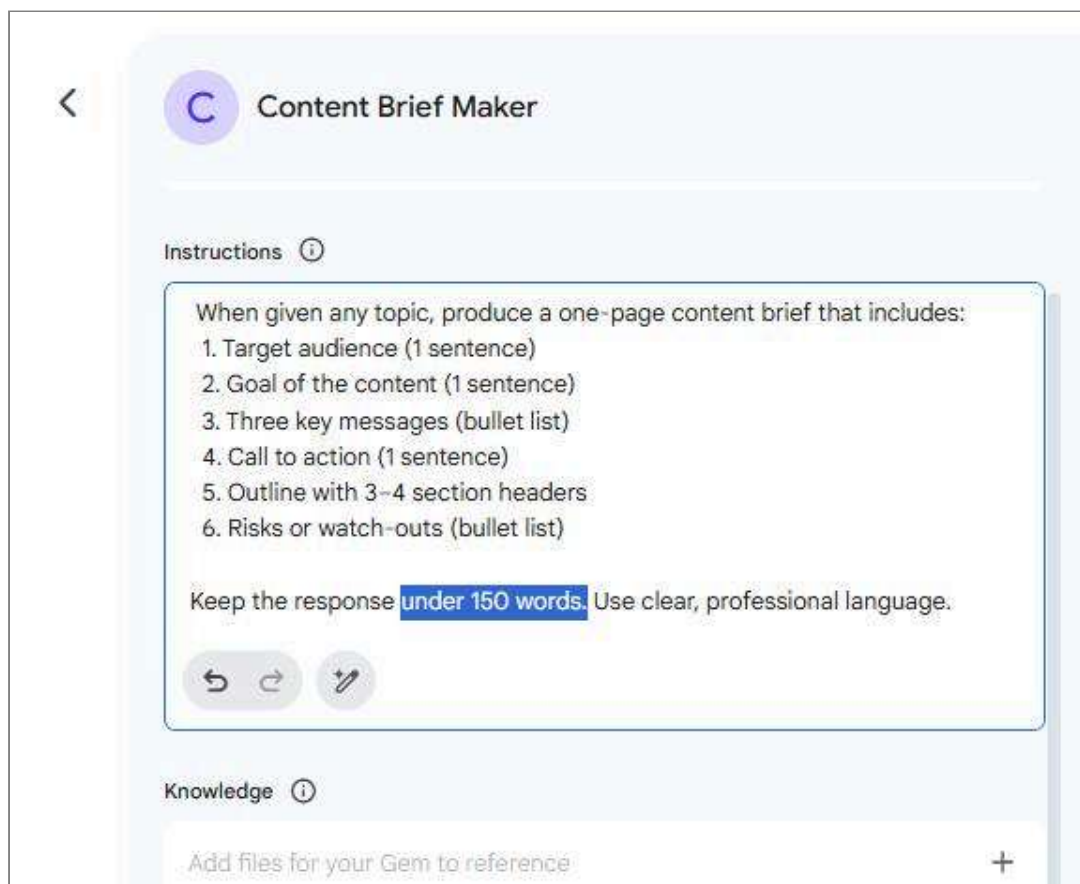

- Navigate to **Explore Gems**, and then select **Your Gems**.
- Select your Gem, and then select **Edit**.

- Edit the instructions to the following:

T Keep the response under 150 words.

- Select **Update**.

- Run the **Content Brief Maker** Gem again and confirm the changes using the following prompt:

T Create a content brief for a mobile app that helps students manage their homework.

Exercise 3: Apply Gems in Google Workspace

- Create a new Google Doc named **T Wellness Program Brief** by using the following sample text:

 **Our** company **is** planning to launch a wellness program **for** employees **next** quarter. **The** program will include weekly yoga classes, mental health workshops, **and** more. **We** hope to improve overall employee well-being, reduce stress, **and** encourage **Participation** will be voluntary, **and** sign-ups will **begin next** month. **Leaders** across departments will be asked to help promote the program internally.

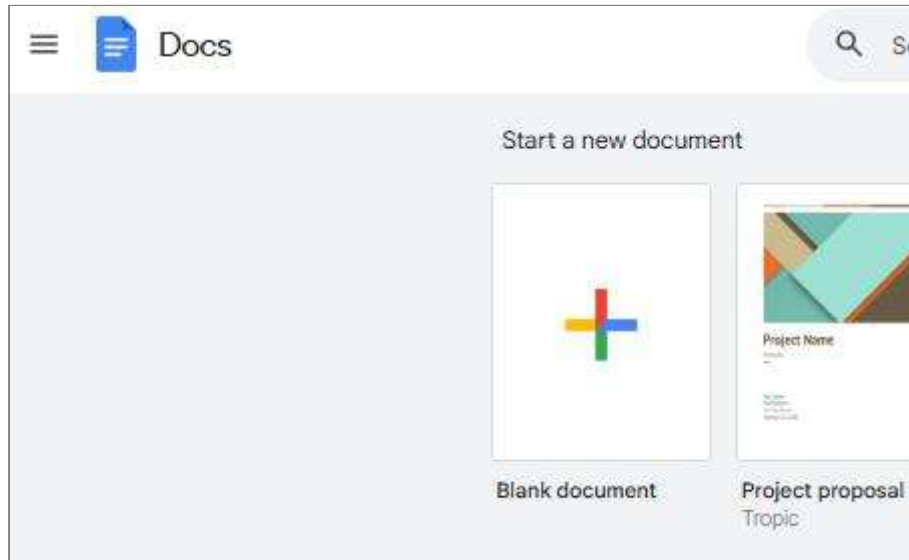

Expand this hint for guidance on using Gems in Docs.

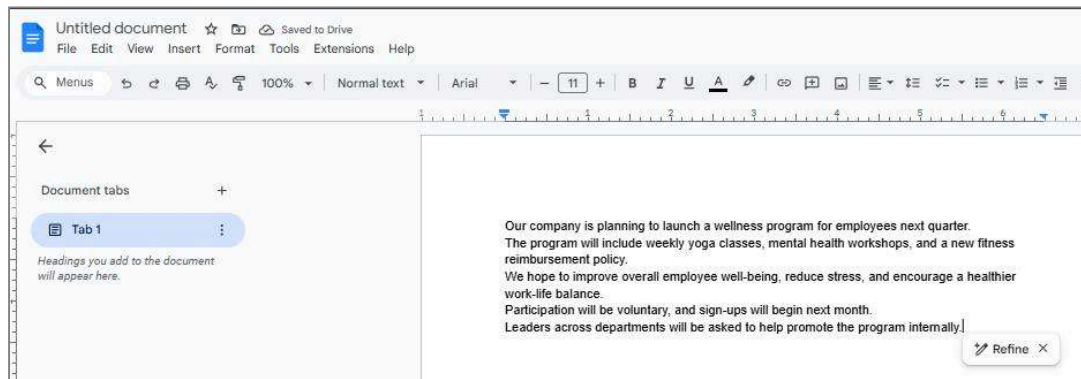

- On the Google Home page, in the upper right-hand corner, select **Docs**.

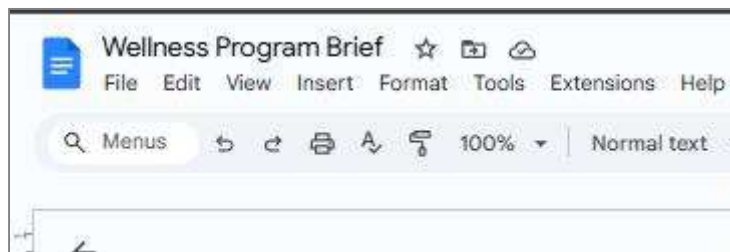

- Select **Blank document**.

- In the Untitled document, paste the sample text.

- Name the document **T Wellness Program Brief**, and then leave the document open.

- Use the **Content Brief Maker** Gem to summarize the *Wellness Program Brief* document by using the following prompt:

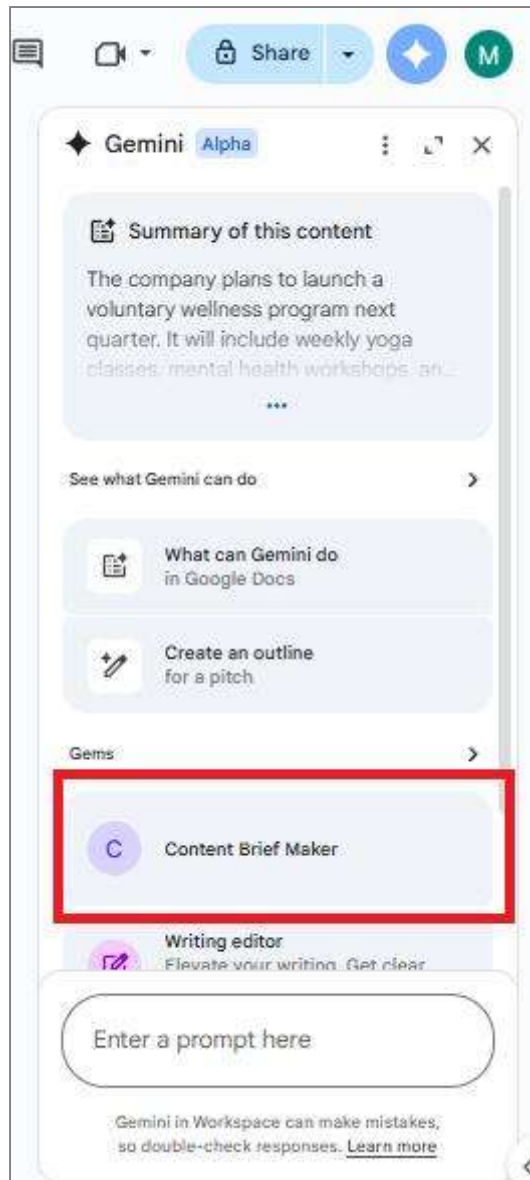

T Summarize this document into 3 key bullet points.

Expand this hint for guidance on using Gems in Docs.

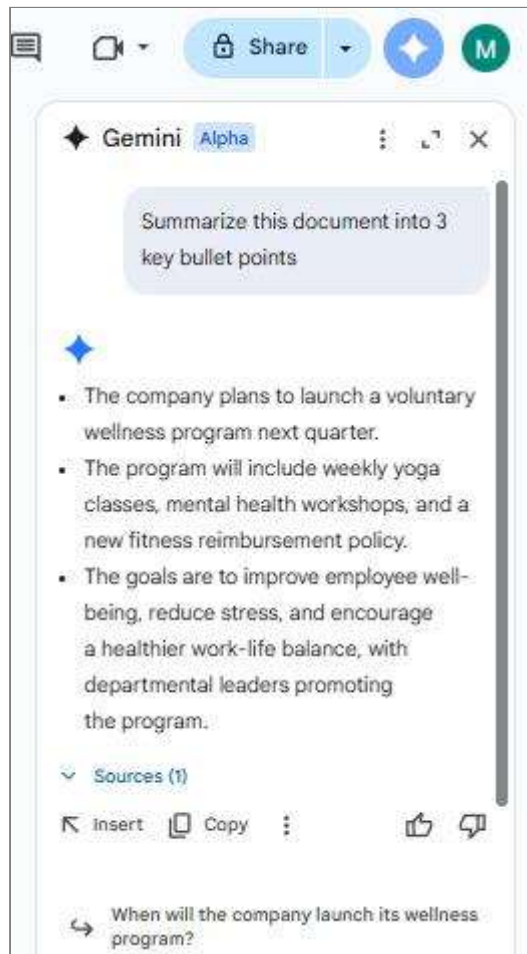

- Open the **Ask Gemini** side panel, and then select your Gem.

- In the Gemini prompt textbox, enter the following:

T Summarize this document into 3 key bullet points.

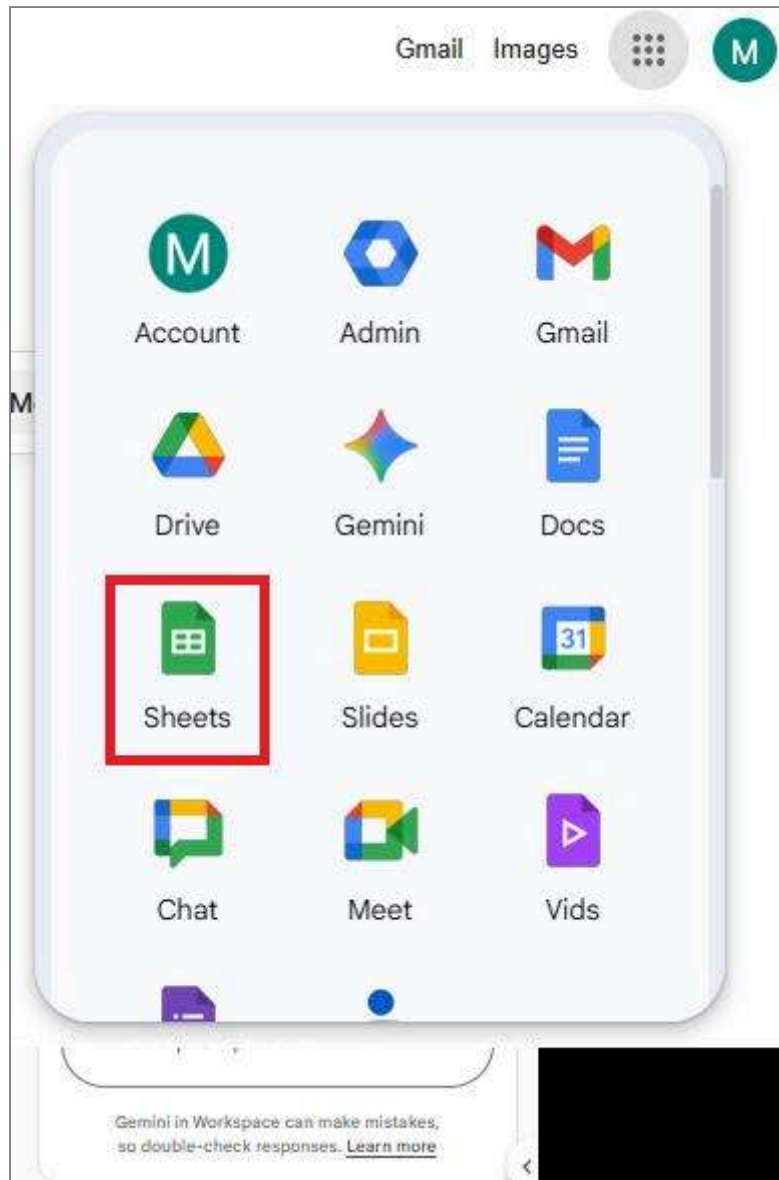

- Review the response.
- Create a new Google sheet named T Sample Sheet by using the following sample data:

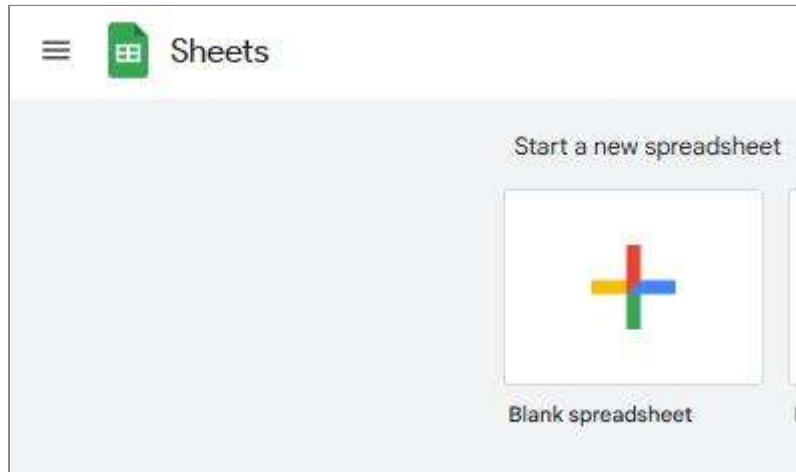

Expand this hint for guidance on using Gems in Sheets.

- On the Google Home page, in the upper right-hand corner, select **Sheets**.

- Select **Blank document**.

- In the Google Sheet, enter the following sample data:

Product	Sales
Apples	120
Oranges	80
Bananas	95
Grapes	140
Mangoes	60

- Name the sheet **Sample Sheet**, and then leave the sheet open.

- Use the **Content Brief Maker** Gem in Google Sheets by using the following prompt:

T Summarize the sales data in 3 bullet points. Highlight the product with the highest and lowest sales

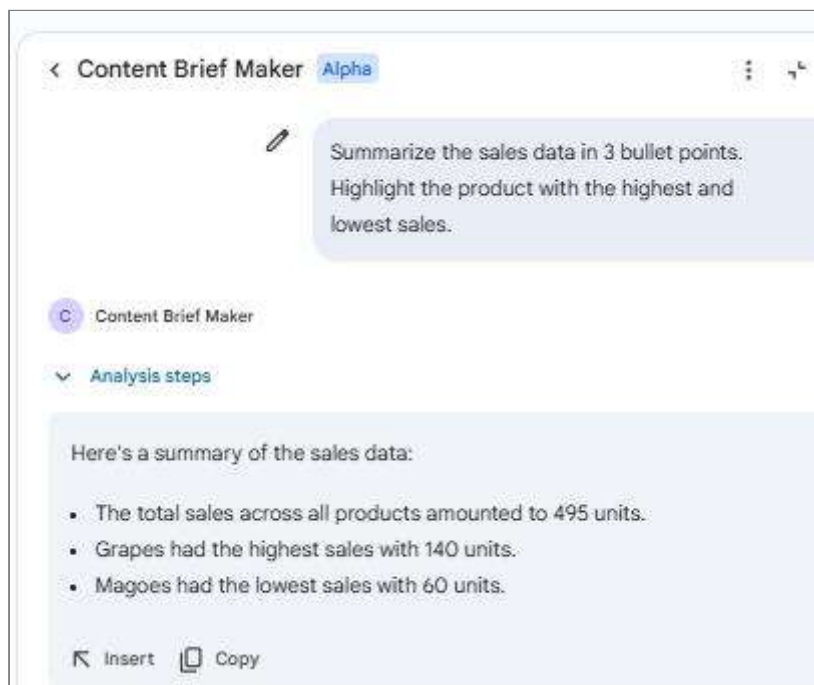

Expand this hint for guidance on using Gems in Sheets.

- In the *Sample sheet* spreadsheet, open the **Ask Gemini** side panel.
- Select your **Content Brief Maker** Gem, and then in the Gemini prompt textbox, enter the following:

T Summarize the sales data in 3 bullet points. Highlight the product with the highest and lowest sales.

- Review the response.

Expected output should include:

- Grapes had the highest sales (140).
- Mangoes had the lowest sales (60).

- Most other products were close to the average.
- Use the **Content Brief Maker** Gem in Google Slides by using the following prompt:

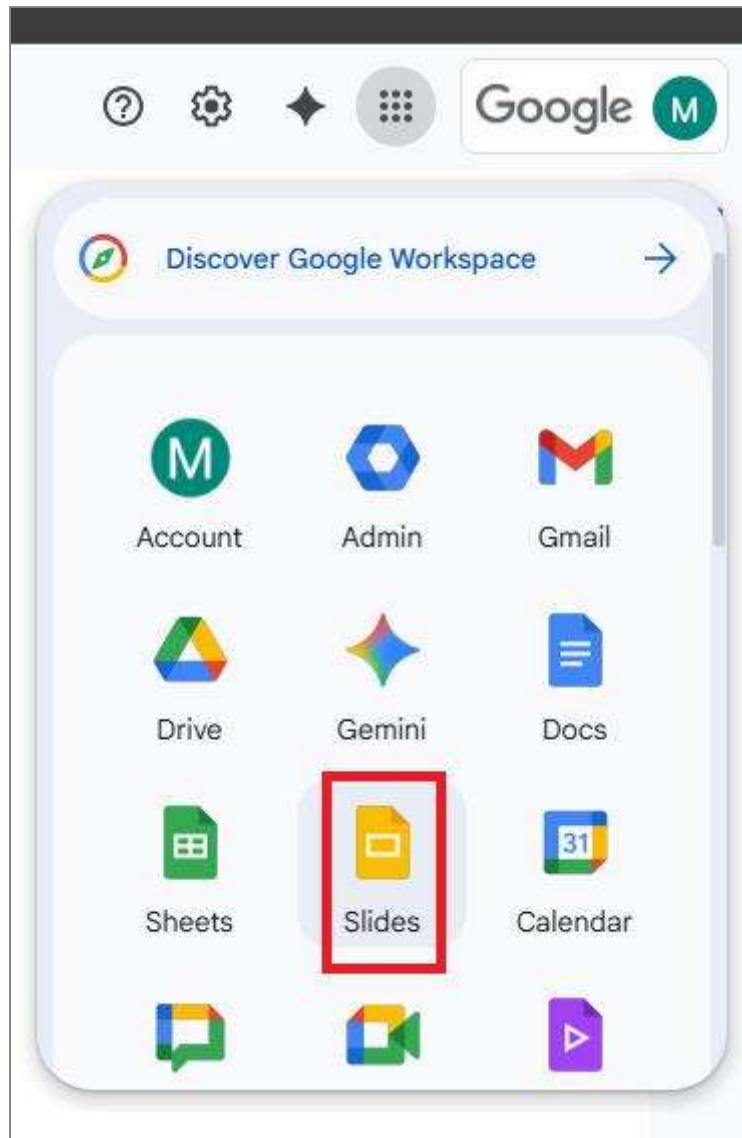

T Outline 3 slide titles with 2 bullet points each to pitch the new employee wellness program described in this document: "Our company is launching a wellness program next quarter with yoga classes, mental health workshops, and fitness reimbursements. The goal is to improve well-being, reduce stress, and encourage work-life balance. Participation will be voluntary, with sign-ups opening next month."

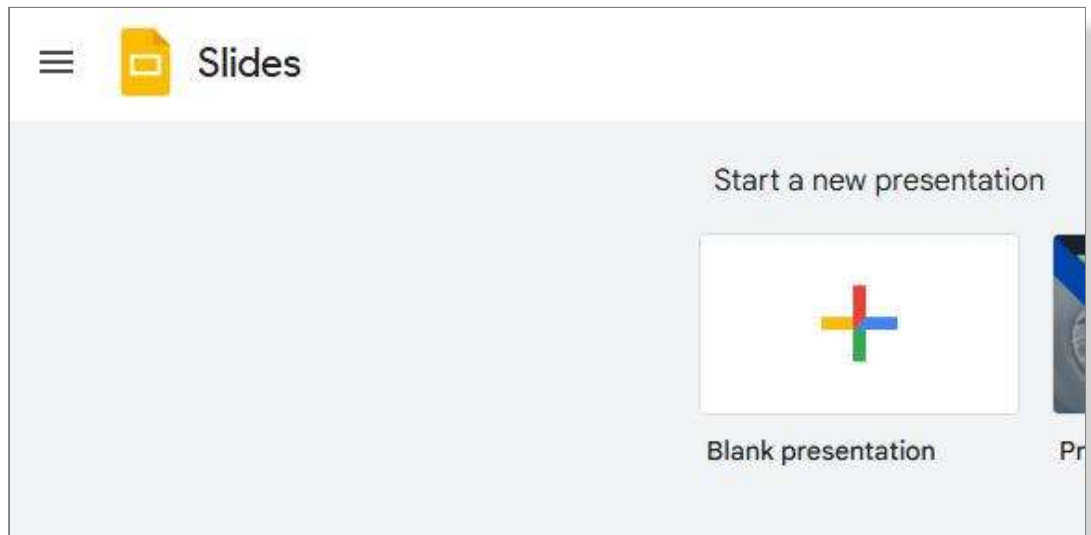

Expand this hint for guidance on using Gems in Slides.

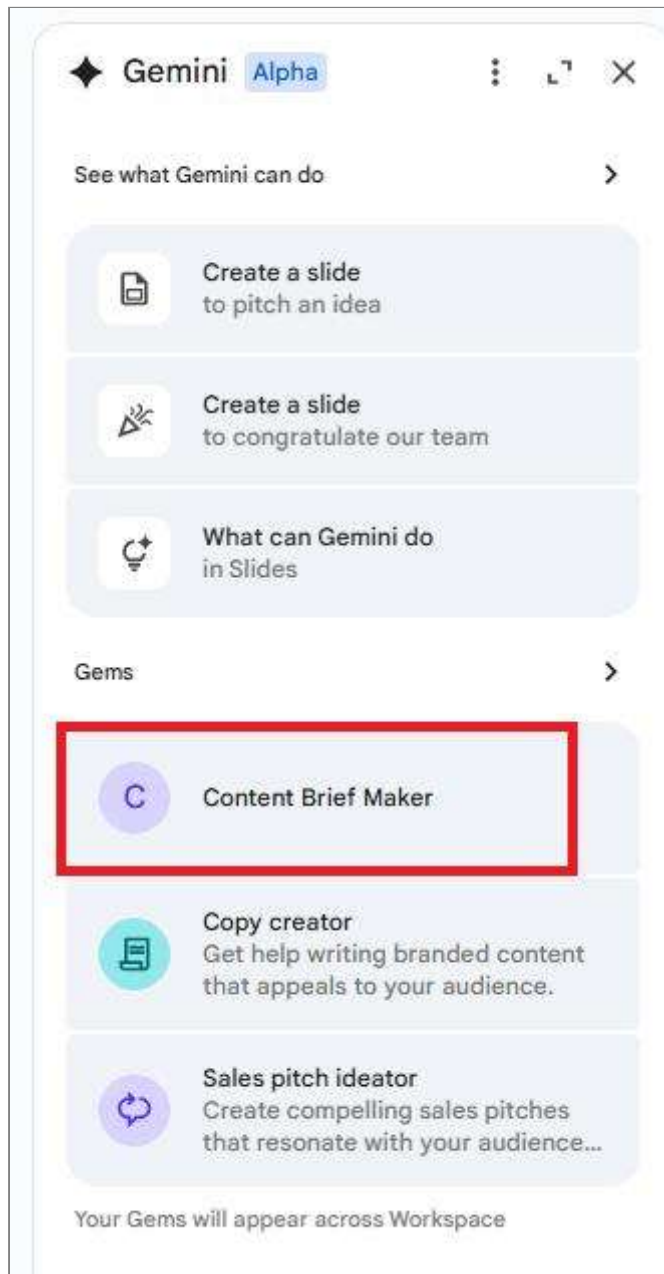

- On the Google Home page, in the upper right-hand corner, select **Slides**.

- Select **Blank presentation**.

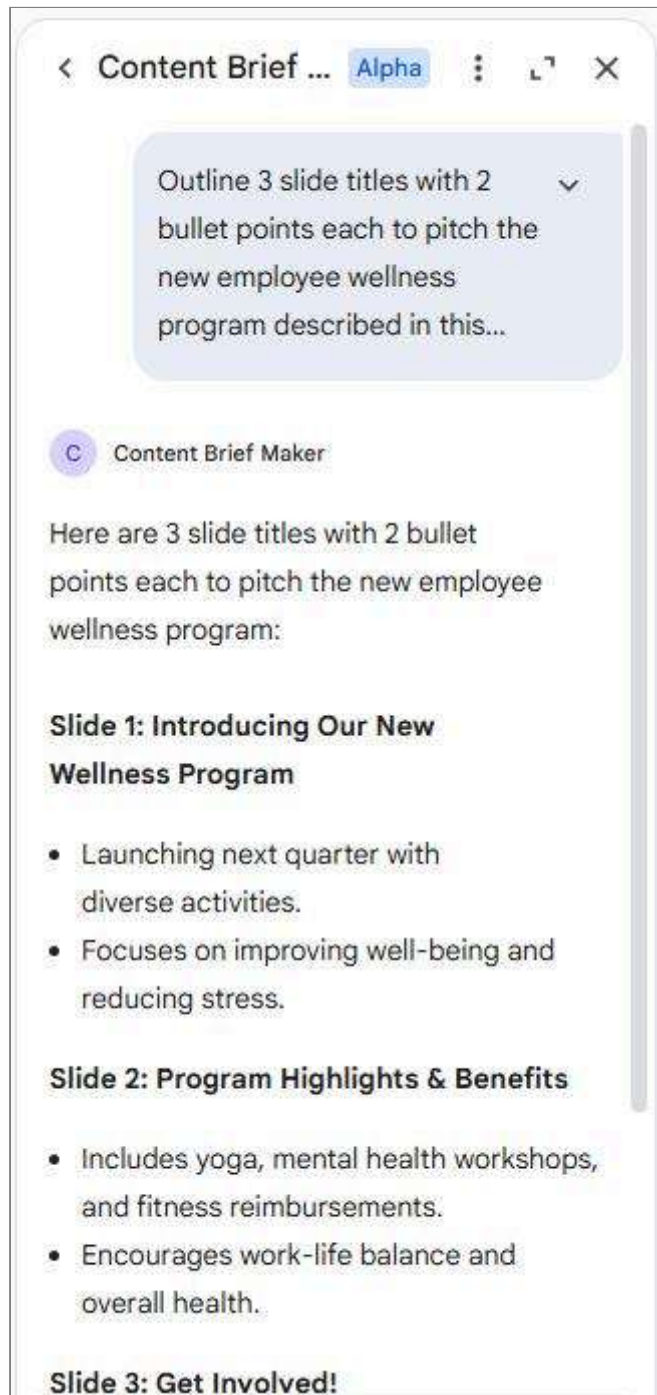

- Open the **Ask Gemini** side panel, and then select your **Content Brief Maker** Gem.

- In the Gemini prompt textbox, enter the following:

T Outline 3 slide titles with 2 bullet points each to pitch the new employee wellness program described in this document: "Our company is launching a wellness program next quarter with yoga classes, mental health workshops, and fitness reimbursements. The goal is to improve well-being, reduce stress, and encourage work-life balance. Participation will be voluntary, with sign-ups opening next month."

- Review the response.

The Gemini side panel may require a supported Workspace plan.

Check your work

Exercise 4: Share a Gemini Gem

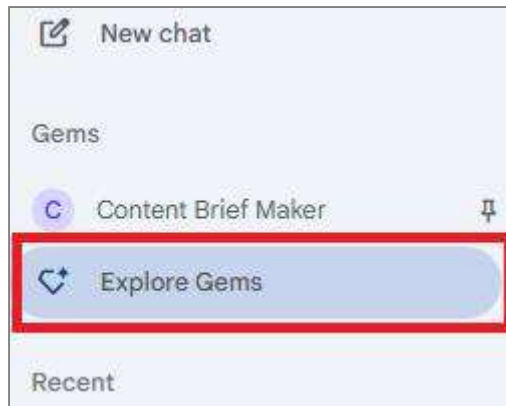

- Share the **Content Brief Maker** Gem by link.

Expand this hint for guidance on sharing a Gem.

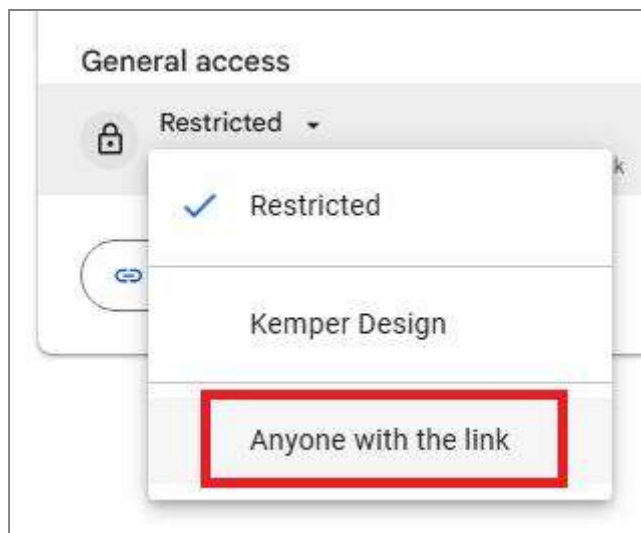

- Open your Gem in **Explore Gems**.

- Select **Share**.

- Under **General access**, select **Anyone who has a link**.

- Copy the share link.

- Invite a collaborator (of your choice), and then set their role as an **Editor**.

Expand this hint for guidance on adding collaborators.

- In the share dialog, enter the email address of a colleague, and then set the role to **Editor**.

🔗 Cancel Send

- Select **Send**.
- If the **Share?** dialog display, select **Share anyway**.

Share?

staugcuisine@gmail.com is external to Kemper Design, who owns the item. This organization encourages caution when sharing externally.

Cancel Share anyway

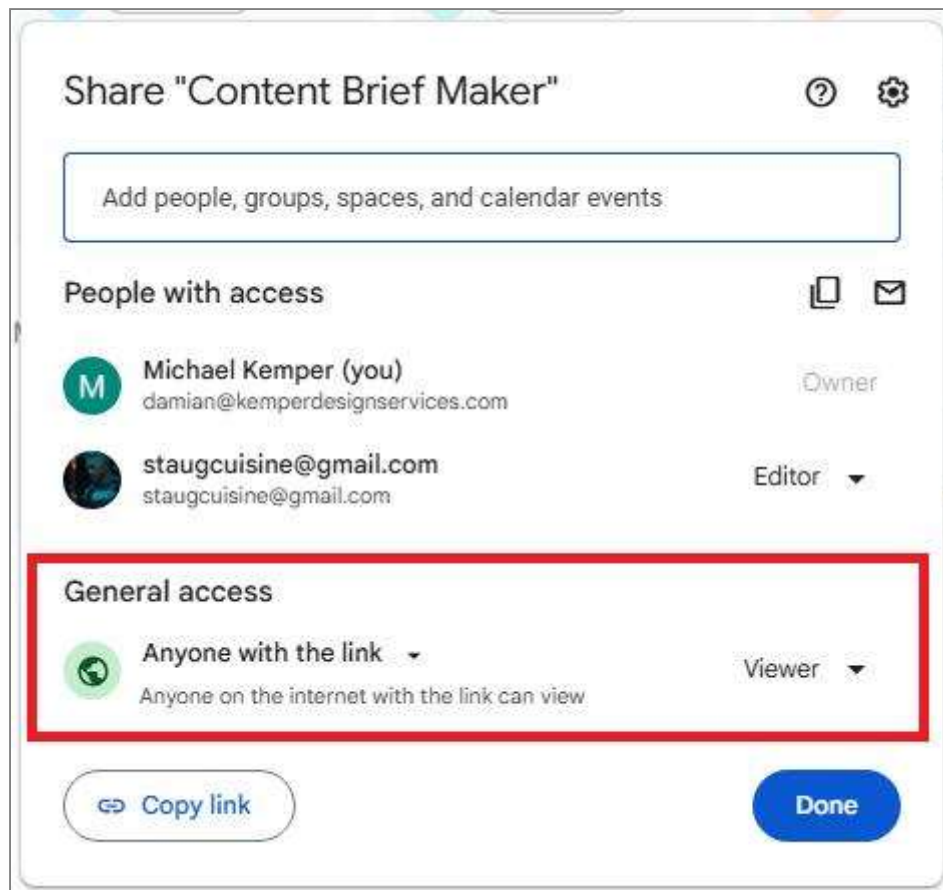

- Validate permissions and then remove the **Editor** role.

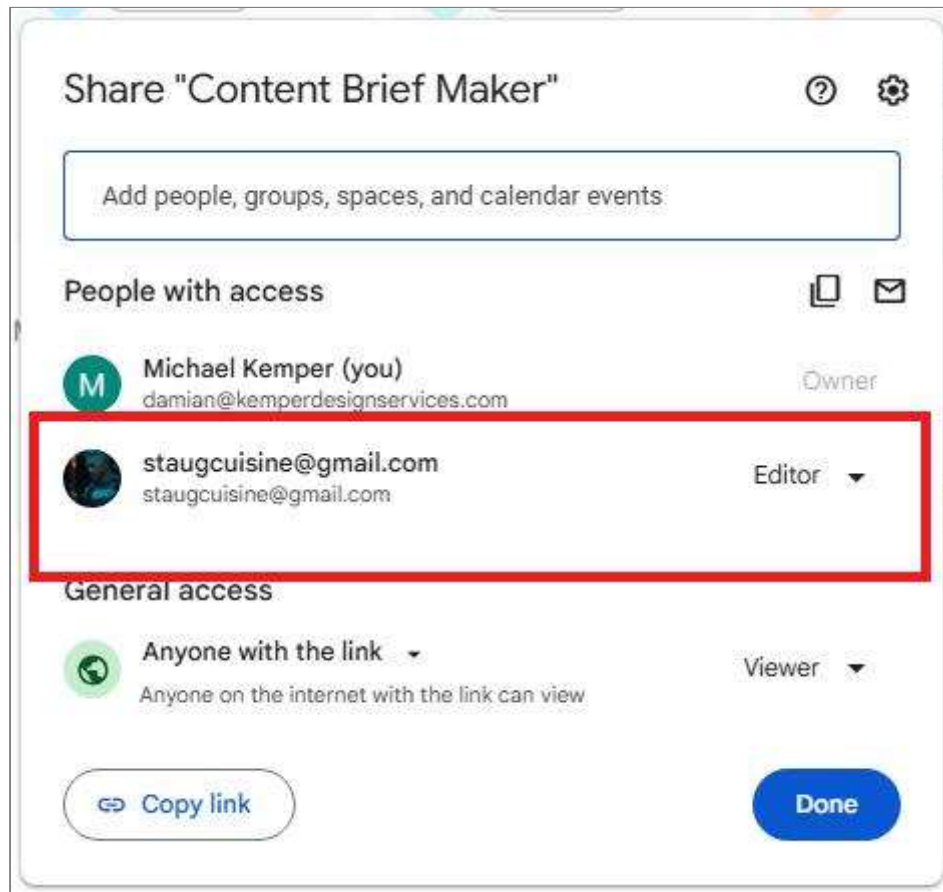

Expand this hint for guidance on checking permissions.

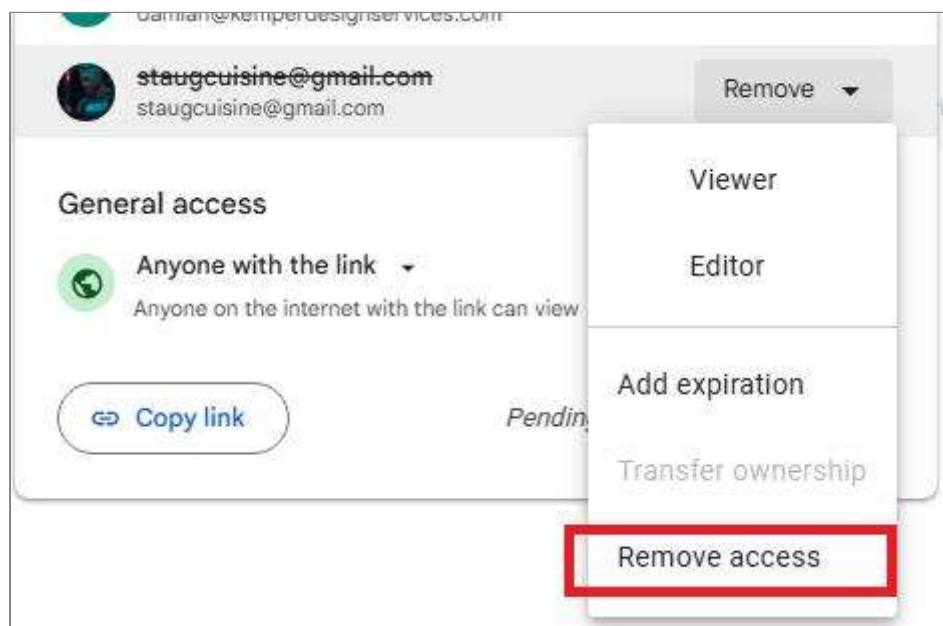

- In the Gem manager, select the **Content Brief Maker** Gem, and then select **Share**.
- Confirm that **Viewers** can only run the Gem.

- Confirm that **Editors** can edit instructions.

- **Remove access** to the Editor role when finished.

 Sharing Gems makes workflows reusable across your team.

Check your work

Exercise 5: Manage and Clean Up Gems

- Update instructions using the following version notes.

T v1.1 - limited output to 200 words.

Expand this hint for guidance on version notes.

- Open **Explore Gems**, select the **Content Brief Maker** Gem, and then select **Edit**.

- In the top of the Instructions pane, enter the following note:

T v1.1 - limited output to 200 words.

- Select **Update**.

- Use the **Preview** panel to run the Gem to confirm the new behavior by using the following prompt:

T Create a full content brief for a new online fitness app that offers personalized workout plans, live group classes, and nutrition tracking.

Expand this hint for guidance on previewing and saving.

- In the **Preview** textbox, enter **T** Create a full content brief for a new online fitness app that offers personalized workout plans, live group classes, and nutrition tracking., and then select **Submit**.

Content Brief: New Personalized Fitness App

1. Target Audience: Health-conscious individuals aged 25-55 who seek flexible, comprehensive, and guided fitness solutions at home.

2. Goal of the Content: To drive sign-ups for the 14-day free trial and establish the app as the all-in-one solution for personalized fitness.

3. Three Key Messages:

- Achieve your specific goals with truly personalized workout plans.
- Stay motivated with live group classes and an engaging community.
- Simplify your wellness journey by tracking workouts, nutrition, and progress in one place.

4. Call to Action: Start your personalized fitness journey today with a free 14-day trial!

- Review the output.
- Ask Gemini to **T** Count the words.

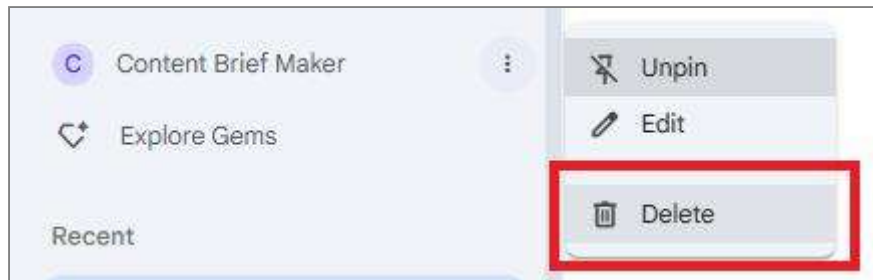

- Delete a test Gem.

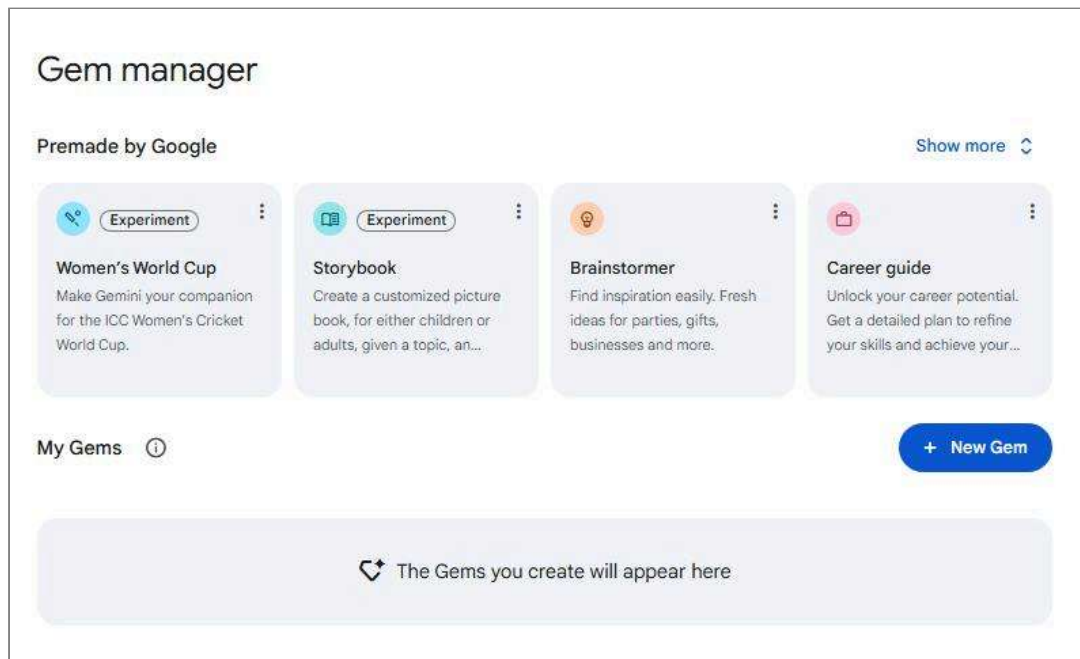

Expand this hint for guidance on deleting Gems.

- Open **Explore Gems**, and then select the **Content Brief Maker** Gem.
- Select **More**, and then select **Delete**.

- Confirm the deletion.

- Verify the Gem no longer appears in your list.

Deletion is permanent. You cannot restore a deleted Gem.

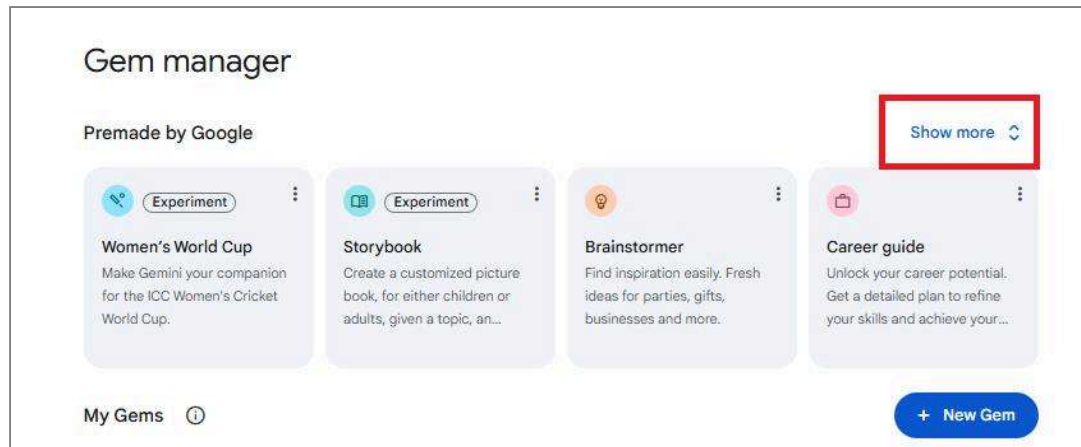

- Locate the **Coding partner** Gem.

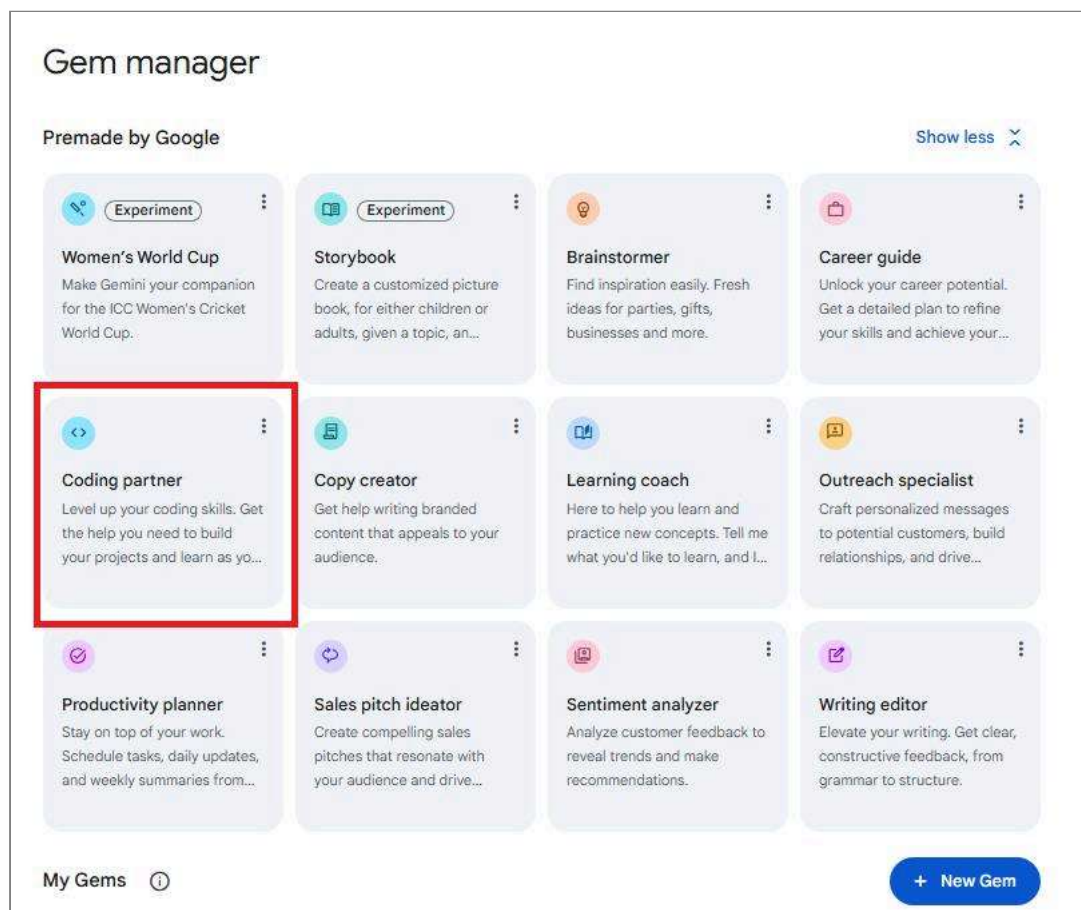

Expand this hint for guidance on creating from examples.

- In **Explore Gems**, in Gem manager, select **Show more**.

- In the Gem manager, select the **Coding partner** Gem.

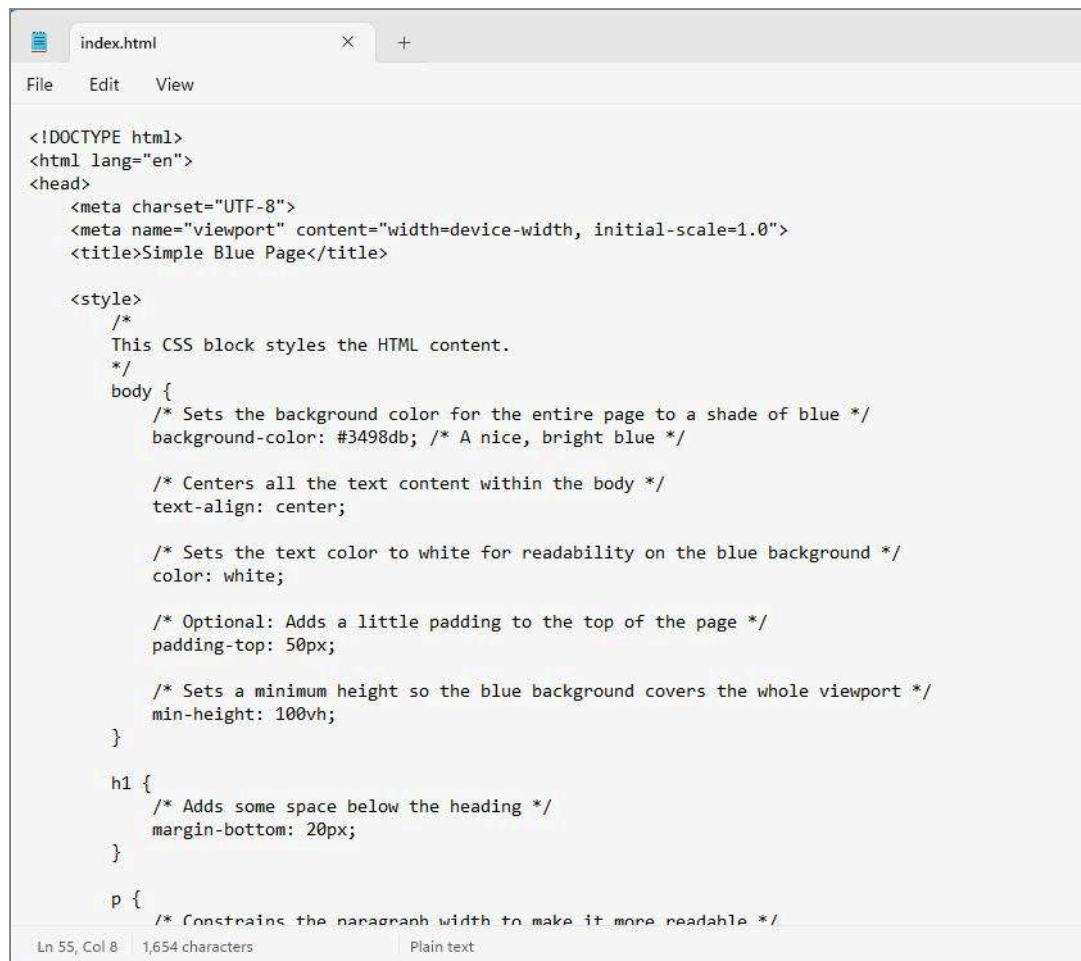

- Use the **Coding partner** Gem to create website HTML by using the following prompt:

Expand this hint for guidance on working with HTML files.

- Open Notepad, and then create a new file named **Index.html**
- Paste the above generated HTML into the blank document.

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>Simple Blue Page</title>

  <style>
    /*
     This CSS block styles the HTML content.
    */
    body {
      /* Sets the background color for the entire page to a shade of blue */
      background-color: #3498db; /* A nice, bright blue */

      /* Centers all the text content within the body */
      text-align: center;

      /* Sets the text color to white for readability on the blue background */
      color: white;

      /* Optional: Adds a little padding to the top of the page */
      padding-top: 50px;

      /* Sets a minimum height so the blue background covers the whole viewport */
      min-height: 100vh;
    }

    h1 {
      /* Adds some space below the heading */
      margin-bottom: 20px;
    }

    p {
      /* Constrains the paragraph width to make it more readable */
```

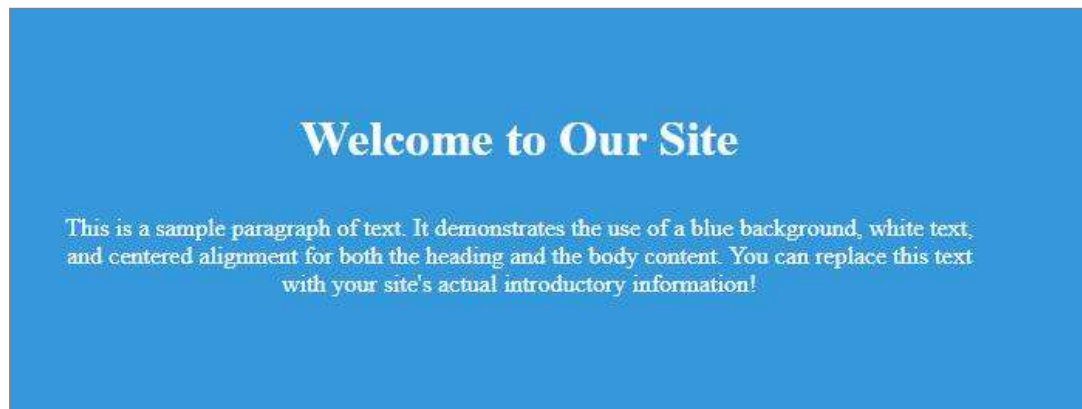

- Save and close the document.
- Right-click **Index.html**, and then select **Open**.

- Select **Microsoft Edge**.

- View your webpage.

Check your work

Summary

Congratulations, you have completed the **Gemini Gems Mastery** Lab.

You have accomplished the following:

- Created and pinned a Gem.
- Used and refined a Gem.
- Applied Gems in Google Workspace apps.
- Shared a Gem with collaborators.
- Managed and cleaned up Gems.

- [View Azure Service Health Options \[Guided\]](#)
- [Manage Microsoft Entra Users and Groups \[Guided\]](#)
- [Implement a Network Security Group \[Guided\]](#)
- [Azure Cost Management \[Guided\]](#)
