 Gemini

Using Google Gemini in Google Docs (G Suite Workspace)

Understand the scenario

You are a New Employee for Worx1, an organization that needs to write, edit, and collaborate more efficiently in Google Docs using Gemini, Google's AI assistant for Workspace. In this Lab, you will use Google Gemini in Google Docs. First, you will generate reports, proposals, and meeting notes, and then you will rewrite, summarize, expand, and change tone. Next, you will insert relevant context or citations, and then you will proofread for grammar, spelling, and clarity. Next, you will generate job descriptions, policies, and training materials, and then you will draft sales emails, onboarding guides, and reports. Finally, you will turn outlines into full document scripts.

Getting Started (Before You Begin)

Before beginning this lab, make sure:

- You are signed into your Google Workspace (work or school) Gmail account.
- Access to Google Docs in a desktop browser.
- Your administrator has enabled Gemini (formerly Duet AI).
- You are using the Google Chrome browser for best compatibility.

Exercise 1: Generate Text (Reports, Proposals, Meeting Notes)

- Enter your Gmail Username and Password into the following textboxes:

Gmail Username

Gmail Password

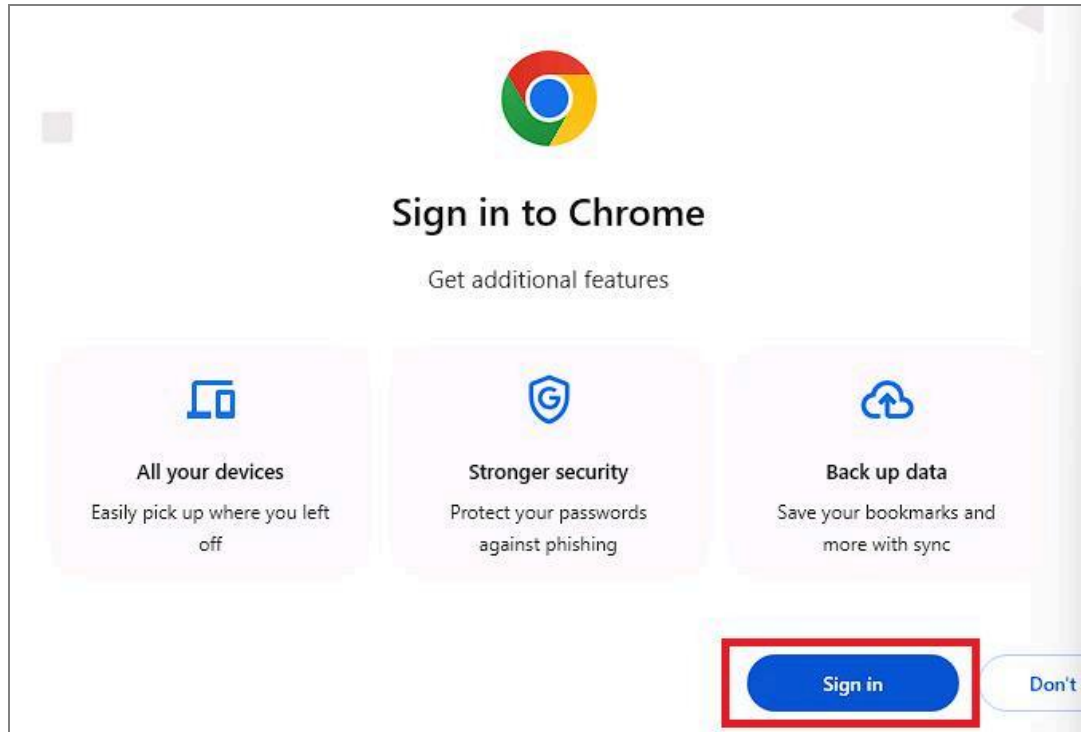

- Sign into Chrome as T <Name> by using T <PW> as the password.

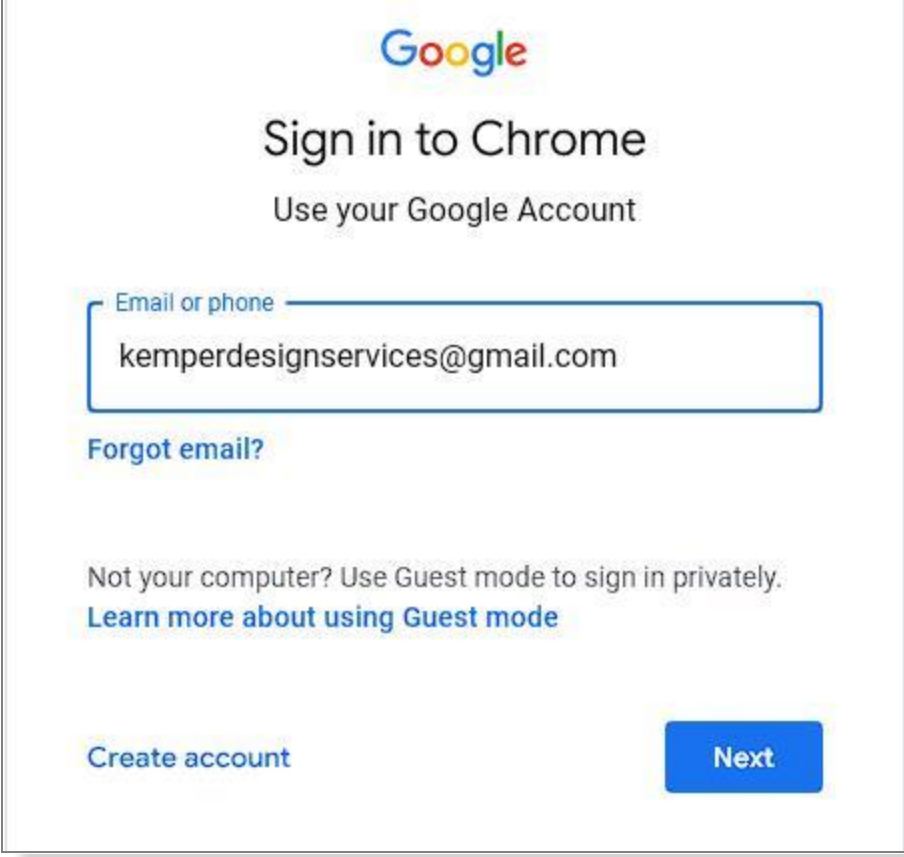

Expand this hint for guidance on signing into Google Chrome.

- On the *Sign in to Chrome* page, select **Sign in**.

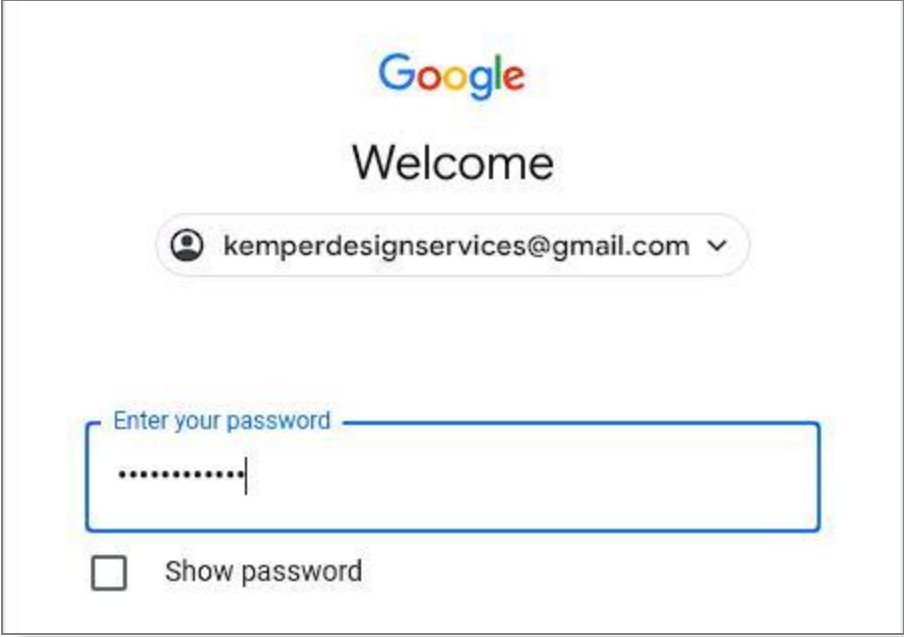

- On the *Sign in to Chrome | Use your Google Account* page, in email or phone, enter T <Name>, and then select **Next**

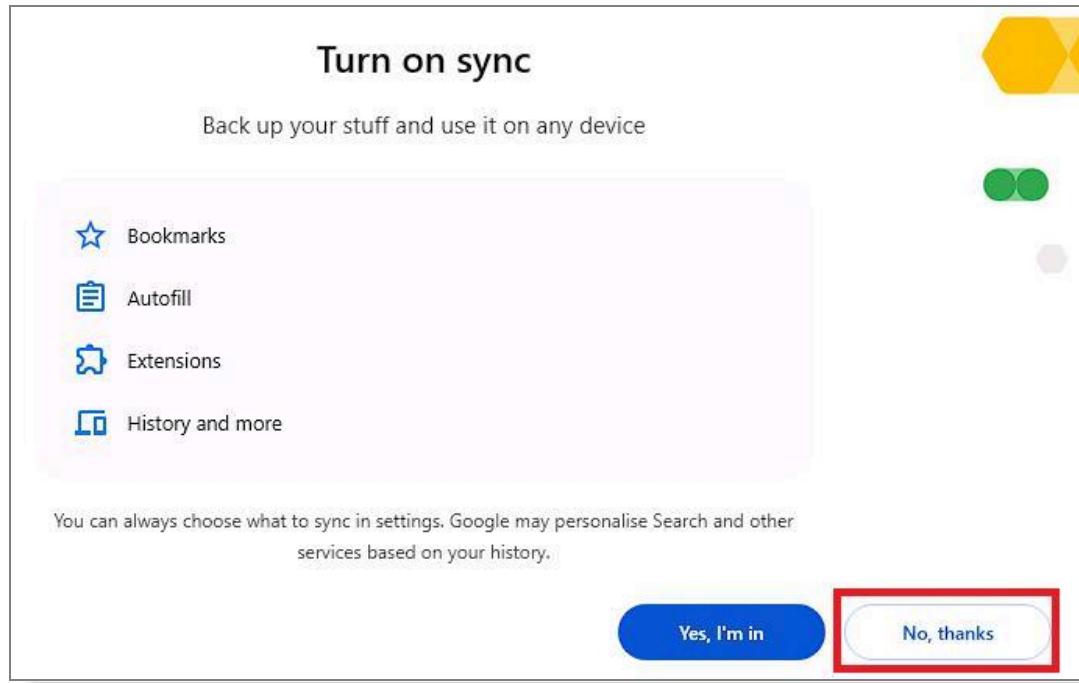

The image shows the 'Sign in to Chrome' screen. At the top is the Google logo. Below it, the text 'Sign in to Chrome' is centered, followed by 'Use your Google Account'. There is a text input field with the placeholder 'Email or phone' and the email address 'kemperdesignservices@gmail.com' entered. Below the input field is a link 'Forgot email?'. Further down, it says 'Not your computer? Use Guest mode to sign in privately.' with a link 'Learn more about using Guest mode'. At the bottom left is a link 'Create account', and at the bottom right is a blue button labeled 'Next'.

On the *Google | Welcome* page, in Enter your password, enter T <PW>, and then select **Next**.

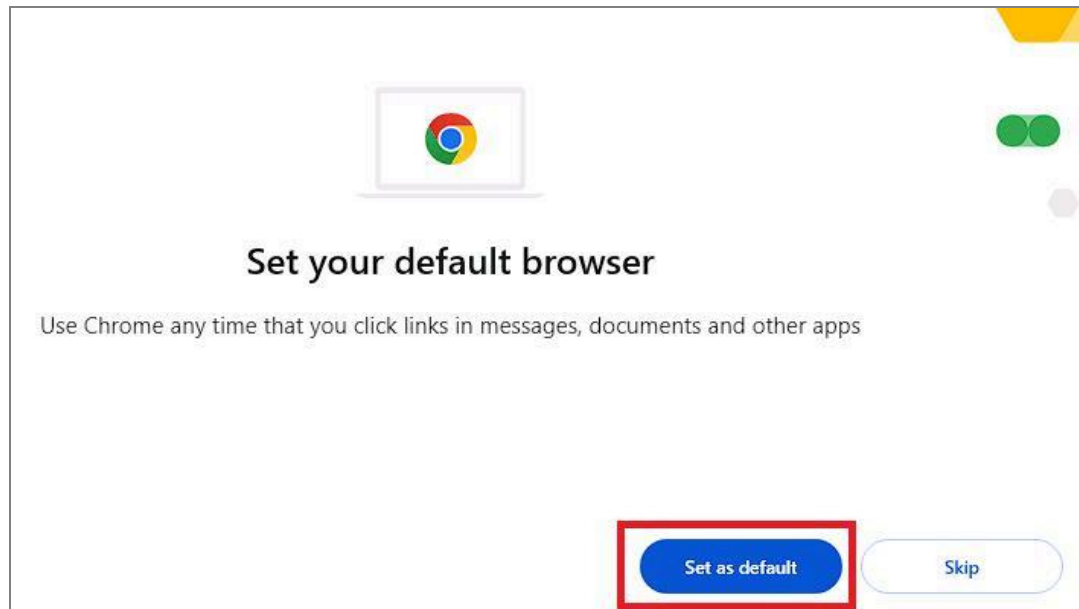

The image shows the 'Welcome' screen. At the top is the Google logo. Below it, the text 'Welcome' is centered. There is a user profile section showing a person icon, the email address 'kemperdesignservices@gmail.com', and a dropdown arrow. Below this is a text input field with the placeholder 'Enter your password' and a password of dots entered. At the bottom left is a checkbox labeled 'Show password'.

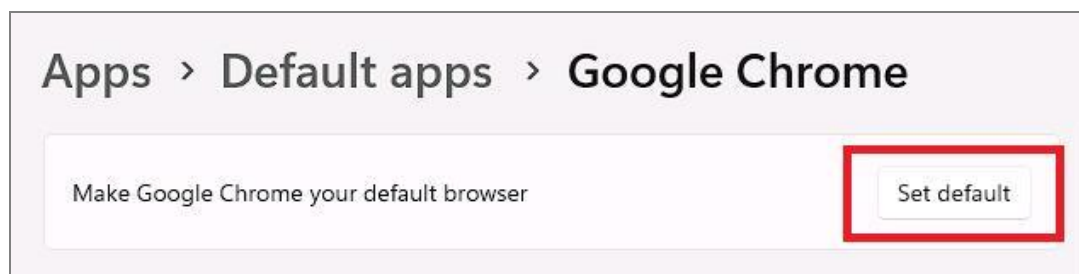

- On the *Turn on Sync* page, select **No, thanks**.

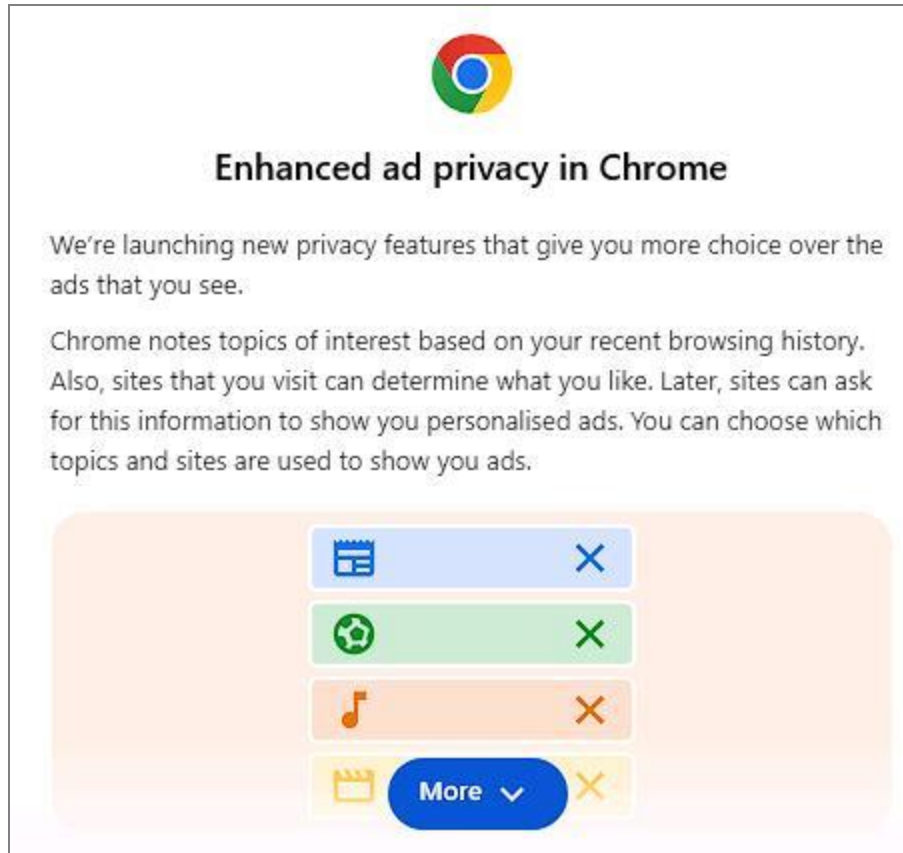

- On the *Set your default browser* page, select **Set as default**.

- On the *Settings | Apps > Default apps > Google Chrome* page, in *Make Google Chrome your default browser*, select **Set default**.

- On the *Enhanced ad privacy in Chrome* page, select **More**, and then select **Got it**.

- Open Google Docs, and then ask Google Gemini to generate a **Project Proposal** based on the following prompt:

Open to view the Sample prompt:

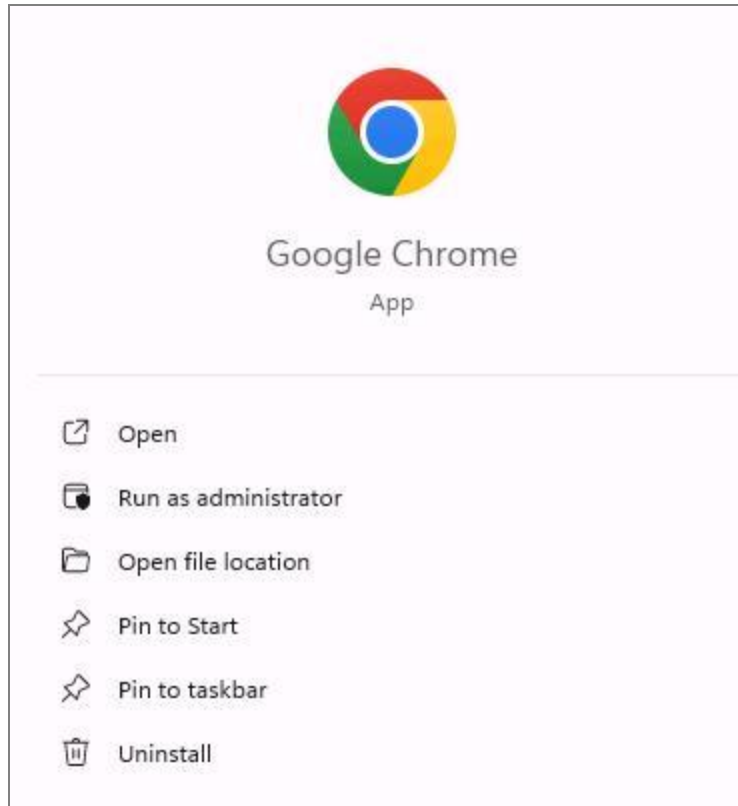

T Create a project proposal for a new mobile app that tracks daily fitness habits.

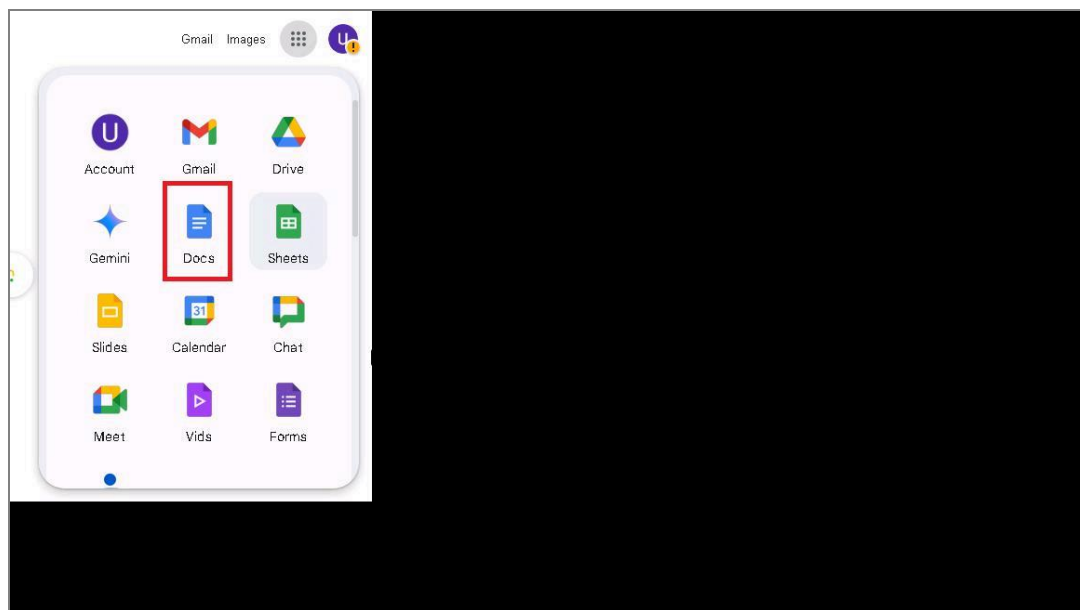

Expand this hint for guidance on generating text documents using Google Gemini. ^

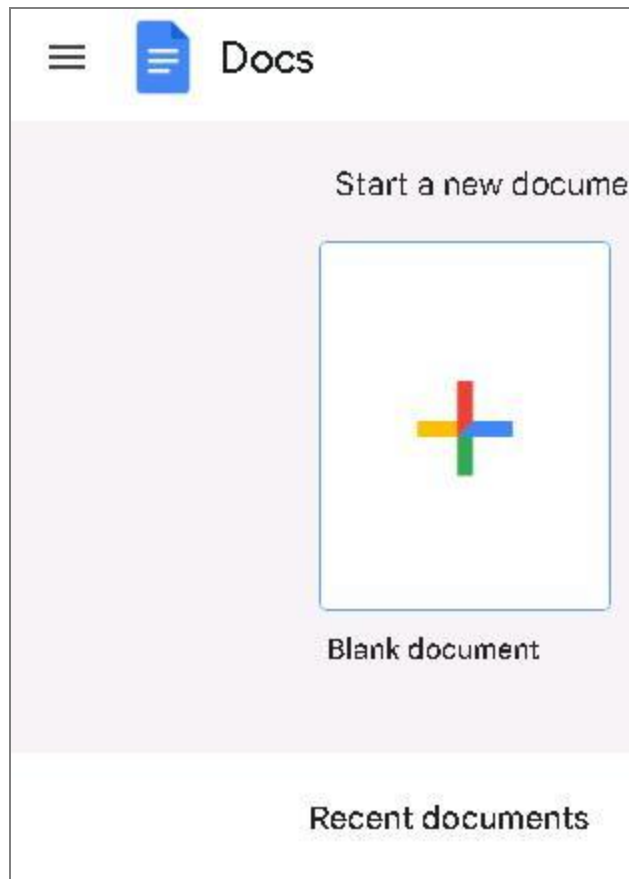

- In Search, enter **T Chrome**, and then select **Google Chrome**.

- In the upper right-hand corner, select the **Google apps** icon, and then select **Docs**.

- On the Docs page, in *Start a new document*, select **Blank document**.

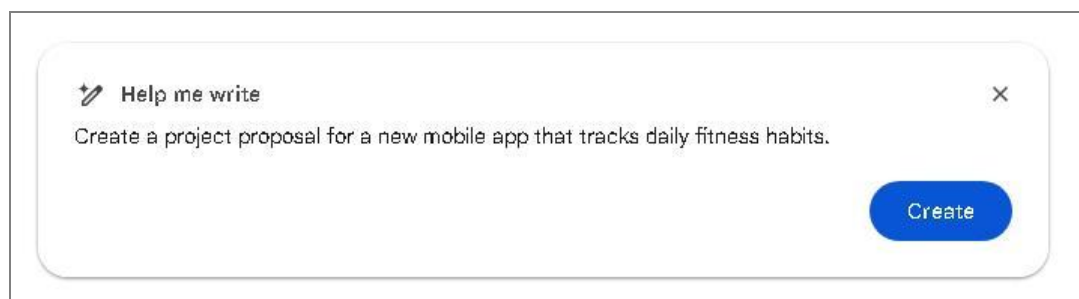

- Dismiss any popups.
- In *Untitled document*, select **Help me write**.

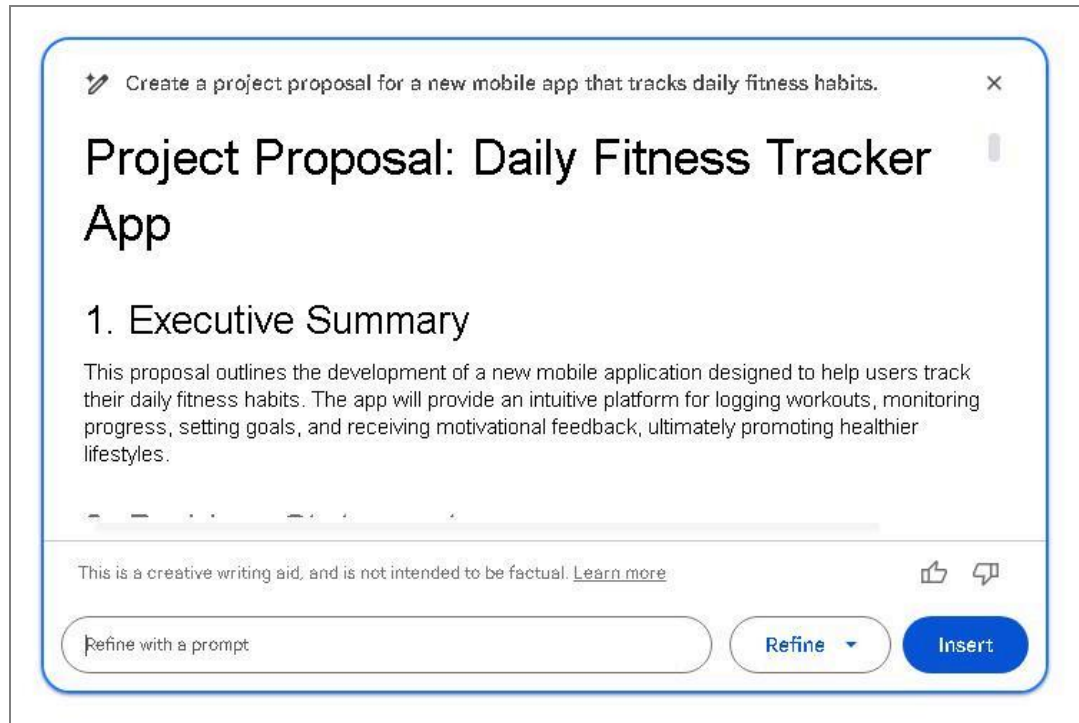

- In the prompt textbox, enter the following, and then select **Create**:

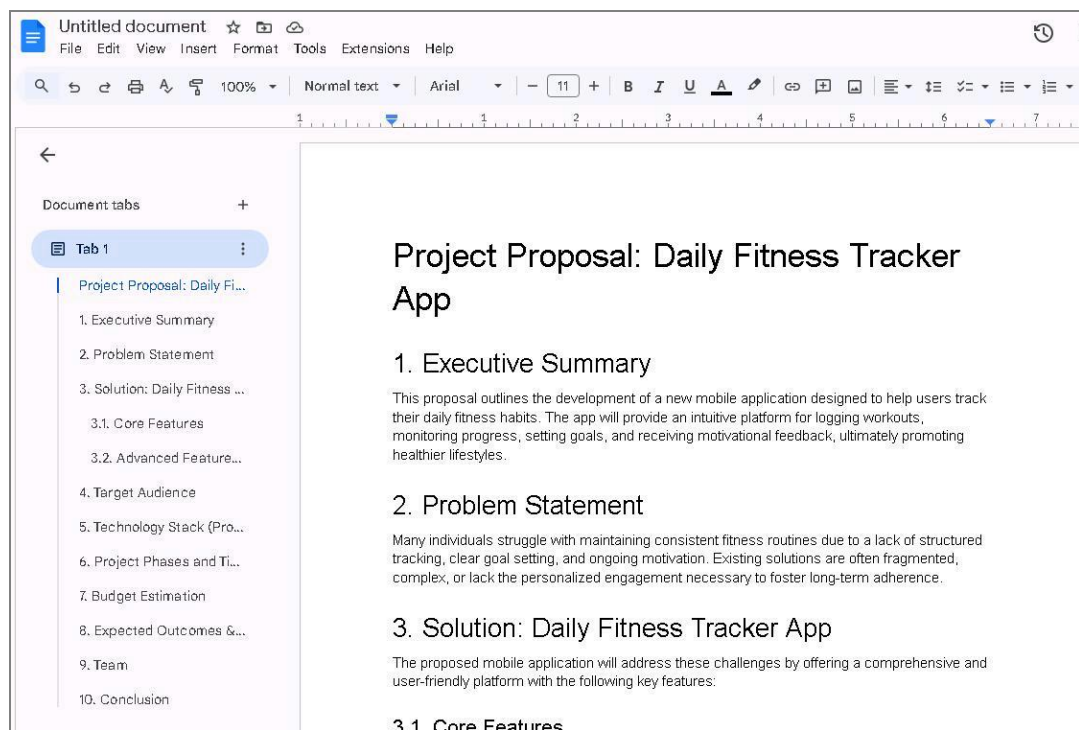

T Create a project proposal for a new mobile app that tracks daily fitness habits.

- Gemini will generate a document. Review it.

- Select **Insert**.

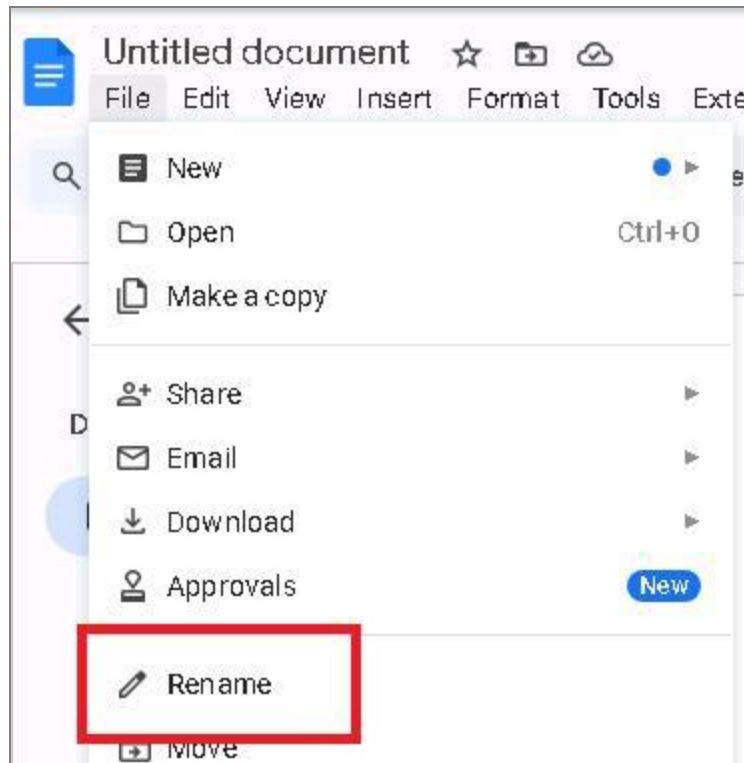

- Rename **Untitled document** to **Gemini Proposal**.

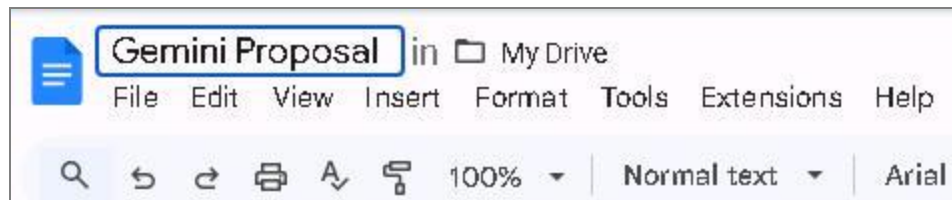

Expand this hint for guidance on renaming text documents.

- On the *Untitled document* menu bar, select **File**, and then select **Rename**.

- Enter **T** Gemini Proposal, and then select **Enter**.

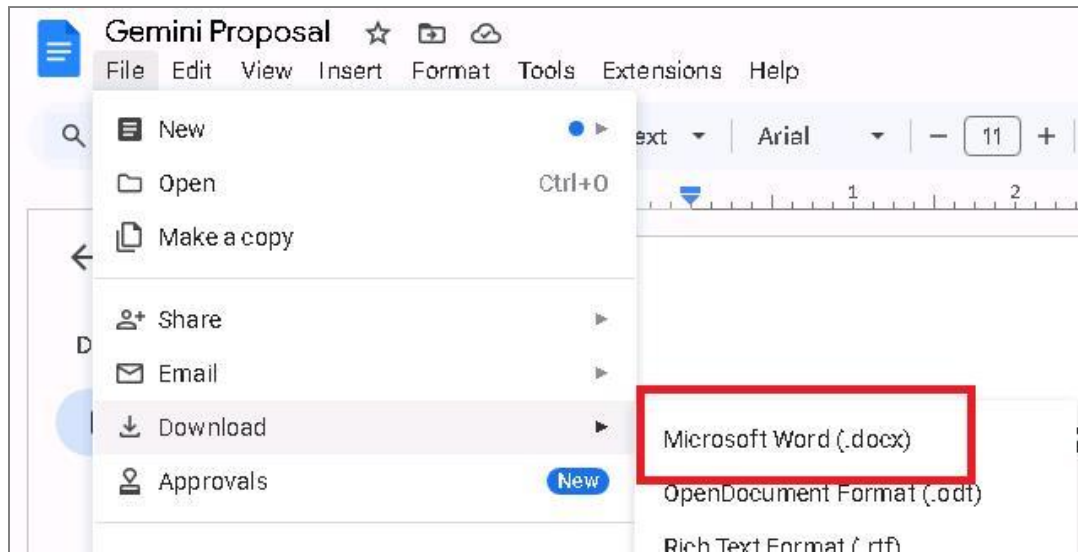

- Download **Gemini Proposal** to your Desktop as a **Microsoft Word** file.

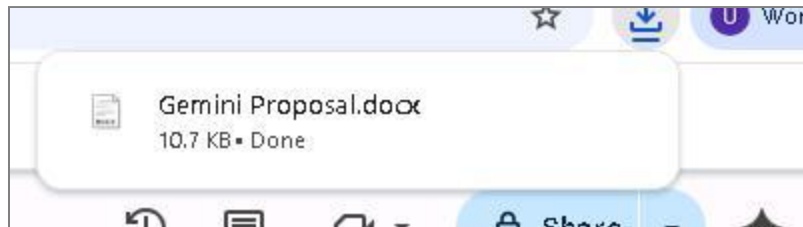

Expand this hint for guidance on downloading text documents. ^

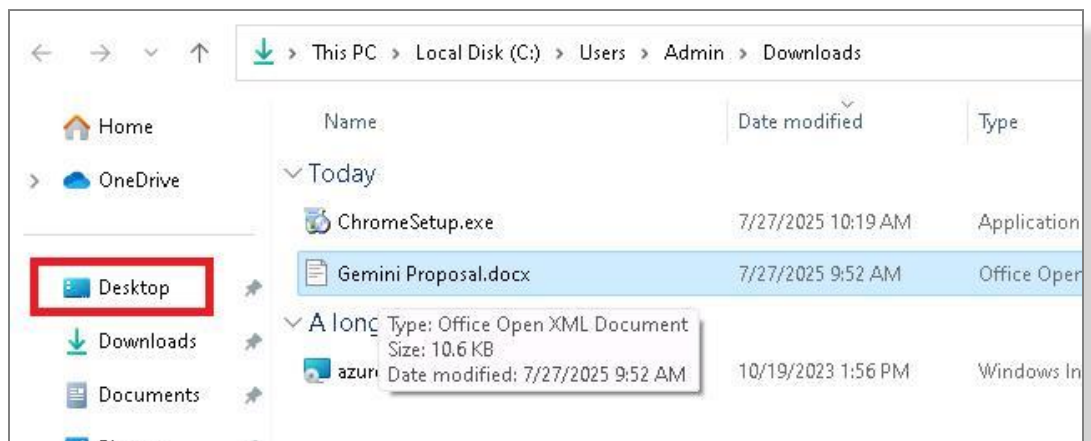

- On the *Gemini Proposal* menu bar, select **File**, select **Download**, and then select **Microsoft Word (.docx)**.

- Navigate to the **Downloads** folder.

- Locate *Gemini Proposal.docx*, and then drag it to your Desktop.

- In Google Docs, ask Google Gemini to generate the **Meeting Notes** for a project proposal, based on the following prompt:

Open to view the Sample prompt:

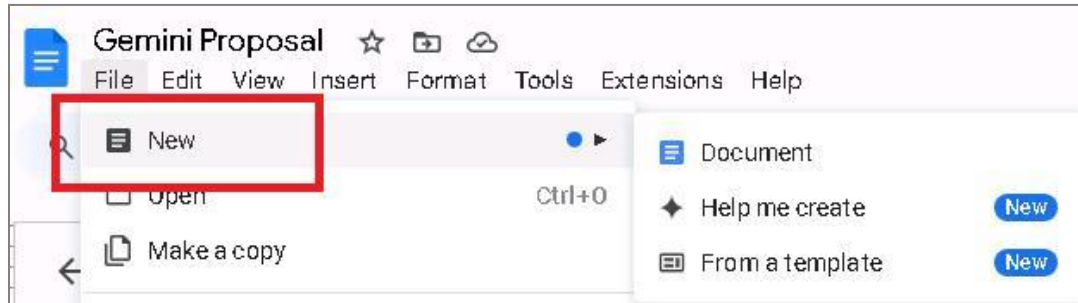

T Create the Meeting Notes for a project proposal for a new mobile app that tracks daily fitness habits.

Expand this hint for guidance on generating text documents using Google Gemini. ^

- In the open *Gemini Proposal* page, in **File**, select **New**, and then select **Document**.

- In *Untitled document*, select **Help me write**.

- In the prompt textbox, enter the following, and then select **Create**:

T Create the Meeting Notes for a project proposal for a new mobile app that tracks daily fitness habits.

- Gemini will generate a document. Review it.

Create the Meeting Notes for a project proposal for a new mobile app that tracks

Meeting Notes: Project Proposal - Daily Fitness Habits Tracking App

Date: 28 July 2025
Time: [Insert Time]
Attendees: [List Attendees]
Meeting Lead: [Insert Meeting Lead]
Note Taker: [Insert Note Taker]

I. Meeting Objective

To present and discuss the project proposal for a new mobile application designed to help users track and maintain daily fitness habits. The goal is to gain alignment on the project scope, target audience, key features, and next steps.

This is a creative writing aid, and is not intended to be factual. [Learn more](#)

I. Meeting Objective

To present and discuss the project proposal for a new mobile application designed to help users track and maintain daily fitness habits. The goal is to gain alignment on the project scope, target audience, key features, and next steps.

II. Project Overview

Project Title

Daily Fitness Habits Tracker App

Project Goal

To provide users with an intuitive and engaging platform to monitor their daily fitness activities, set personal goals, and encourage consistent healthy habits.

- Rename **Untitled document** to **T Gemini Proposal Meeting Notes**.

Expand this hint for guidance on renaming text documents. ^

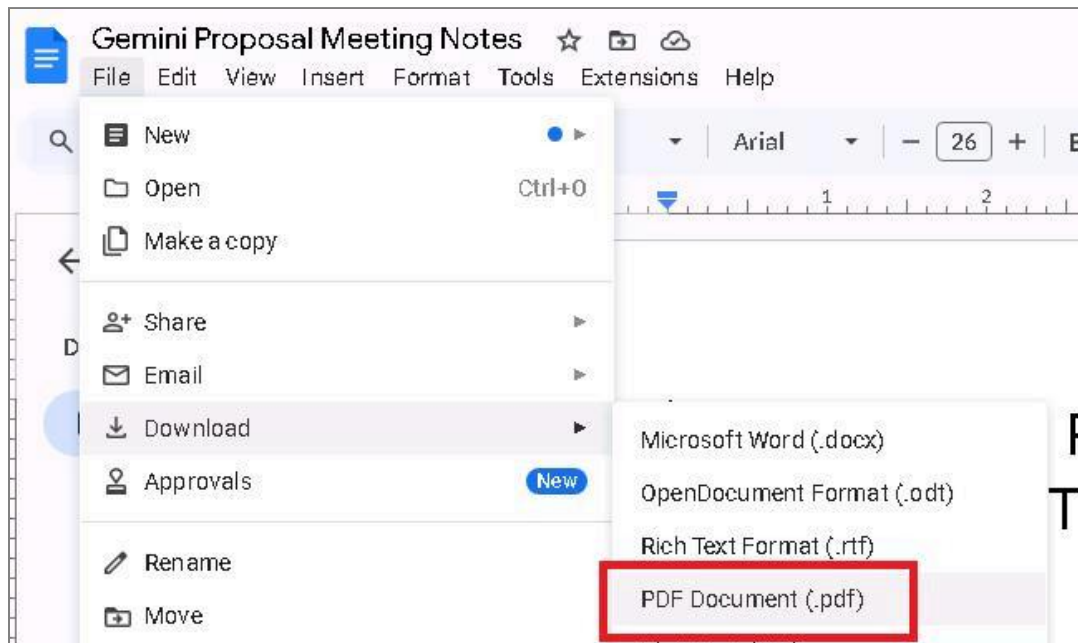

- On the *Untitled document* menu bar, select **File**, and then select **Rename**.
- Enter **T** Gemini Proposal Meeting Notes, and then select **Enter**.

- Download **Gemini Proposal Meeting Notes** to your Desktop as a **pdf** file.

Expand this hint for guidance on downloading text documents. ^

- On the *Gemini Proposal* menu bar, select **File**, select **Download**, and then select **pdf**.

- Navigate to the **Downloads** folder.
 - Locate *Gemini Proposal Meeting Notes.pdf*, and then drag it to your Desktop.
- In Google Docs, ask Google Gemini to generate a **Progress Report**, based on the following prompt:

Open to view the Sample prompt: ^

T Create a Report to track the progress of a new mobile app that tracks daily fitness habits.

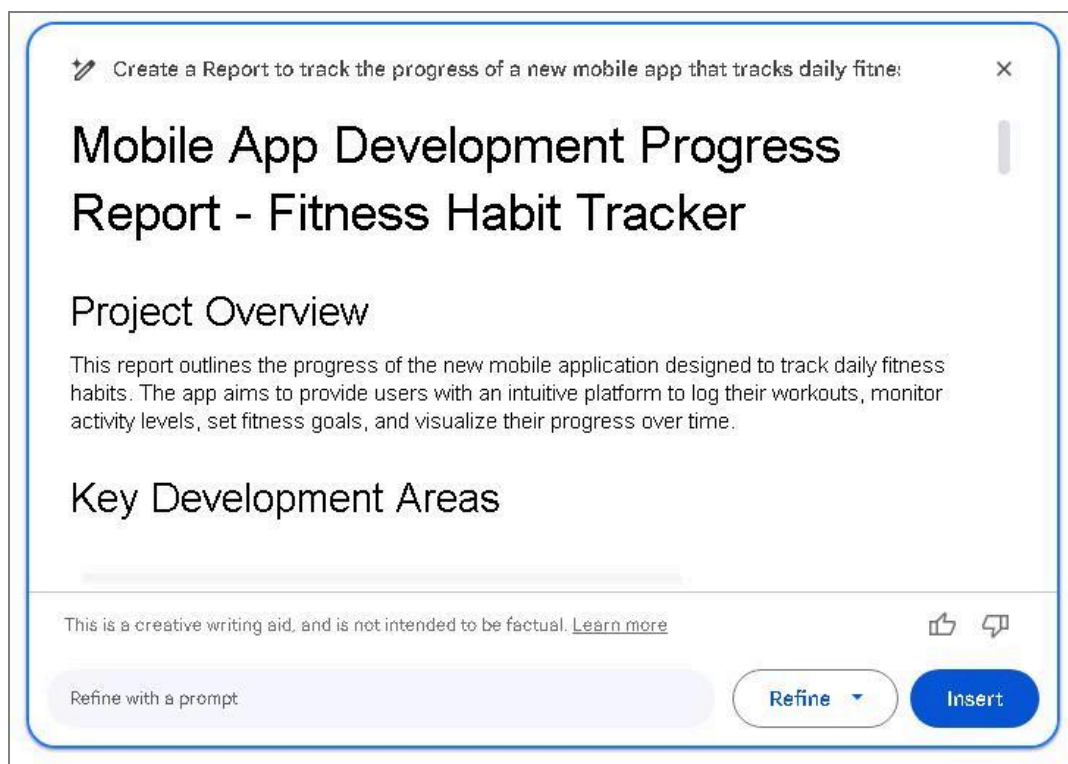

Expand this hint for guidance on generating text documents using Google Gemini. ^

- In the open *Gemini Proposal Meeting Notes* page, in **File**, select **New**, and then select **Document**.
- In *Untitled document*, select **Help me write**.
- In the prompt textbox, enter the following, and then select **Create**:

T Create a Report to track the progress of a new mobile app that tracks daily fitness habits.

- Gemini will generate a document. Review it.

- Select **Insert**.

Mobile App Development Progress Report - Fitness Habit Tracker

Project Overview

This report outlines the progress of the new mobile application designed to track daily fitness habits. The app aims to provide users with an intuitive platform to log their workouts, monitor activity levels, set fitness goals, and visualize their progress over time.

Key Development Areas

User Interface (UI) Design

- **Status:** In Progress
- **Details:** Core screens (dashboard, workout logging, progress charts) are in the wireframing and mock-up phase. Focus is on creating a clean, user-friendly interface that encourages daily engagement.
- **Upcoming:** Finalize UI mock-ups and begin high-fidelity prototyping.

User Experience (UX) Flow

- **Status:** In Progress
- **Details:** User journey mapping for key interactions (onboarding, habit creation, data entry, goal setting) is being refined. Emphasis on minimizing friction and providing clear guidance.

- Rename **Untitled document** to **T Gemini Progress Report**.

Expand this hint for guidance on renaming text documents.

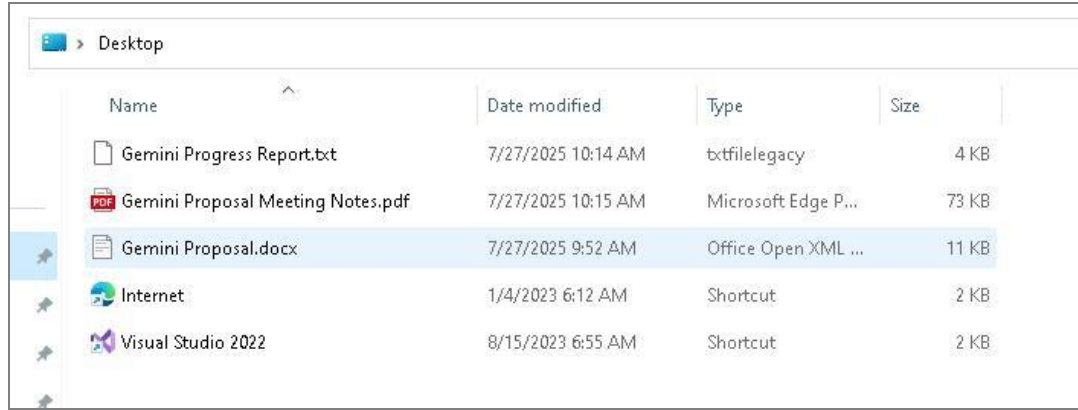

- On the *Untitled document* menu bar, select **File**, and then select **Rename**.
- Enter **T Gemini Progress Report**, and then select **Enter**.
- Download **Gemini Progress Report** to your Desktop as a **txt** file.

Expand this hint for guidance on downloading text documents.

- On the *Gemini Proposal* menu bar, select **File**, select **Download**, and then select **txt**.
- Navigate to the **Downloads** folder.
- Locate *Gemini Progress Report.txt*, and then drag it to your Desktop.

Exercise 2: Rewrite, Summarize, Expand, or Change Tone

- In Google Docs, use Google Gemini to  Rewrite the following text:

Open to view the Sample prompt:

 We finished the Q3 rollout. All teams met deadlines.

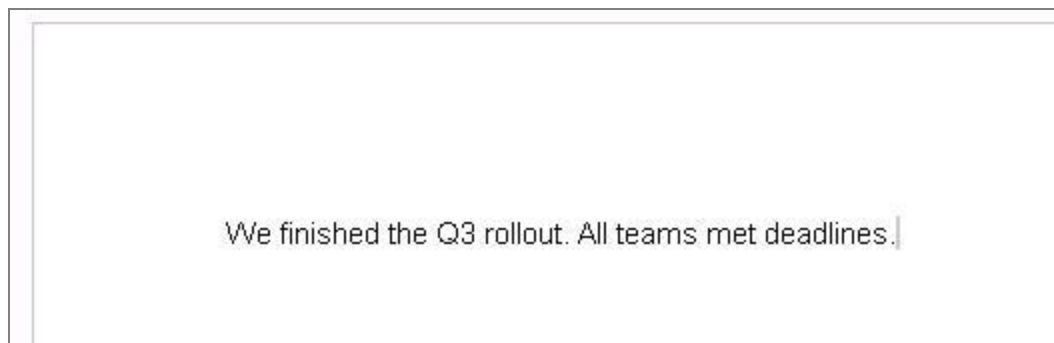

Expand this hint for guidance on rewriting text using Google Gemini.

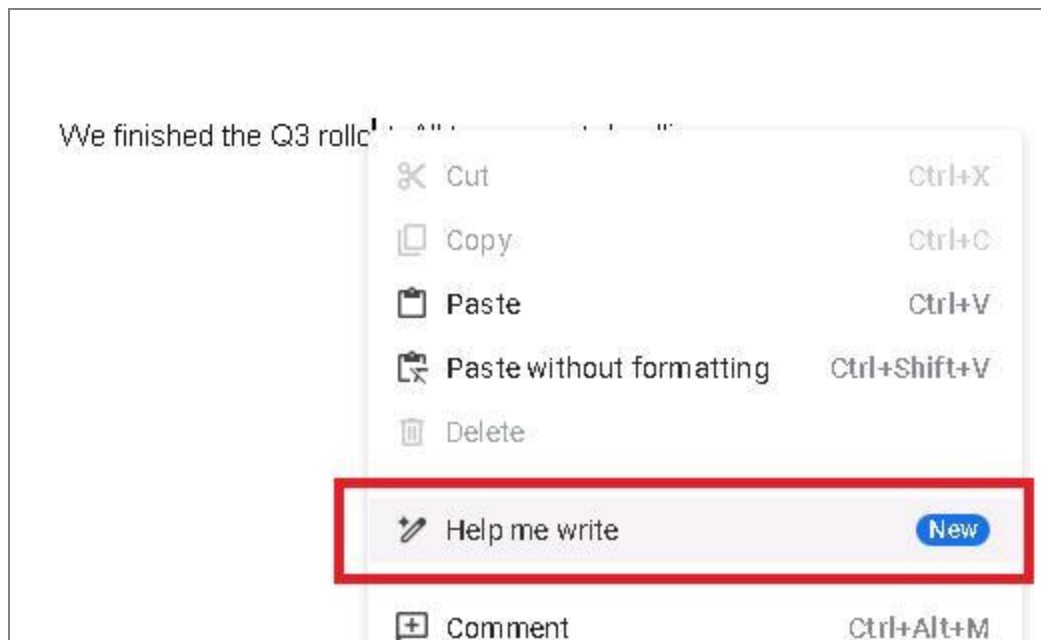

- In the open *Gemini Progress Report* page, in **File**, select **New**, and then select **Document**.
- In *Untitled document*, enter the following text:

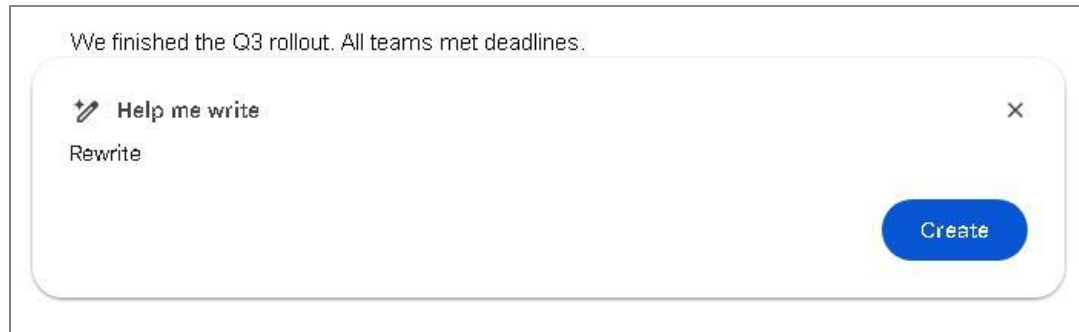

T We finished the Q3 rollout. All teams met deadlines.

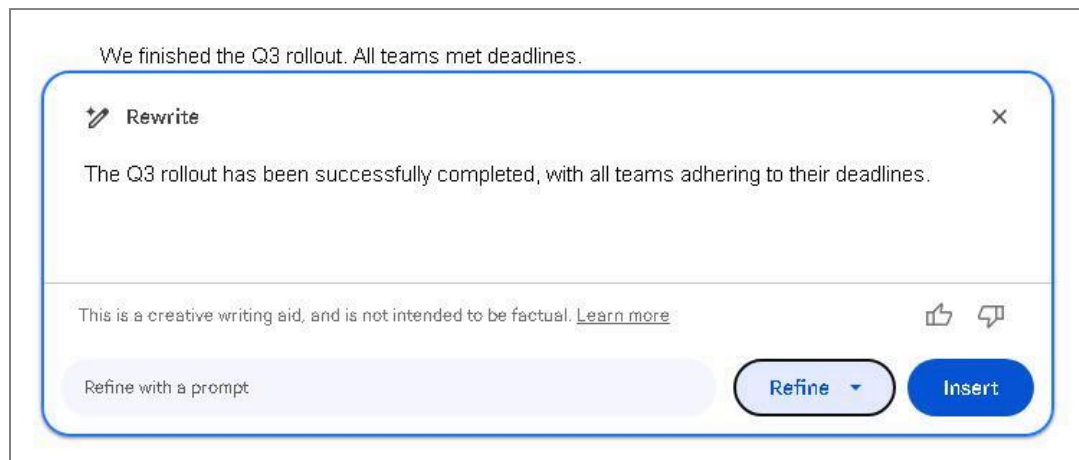

- Right-click at the end of the text, and then select **Help me write**.

- In the *Help me write* prompt textbox, enter **T Rewrite**, and then select **Create**.

- Review Google Gemini's suggested rewrite, and then select **Insert**.

We finished the Q3 rollout. All teams met deadlines. The Q3 rollout has been successfully completed, with all teams meeting their respective deadlines.

- In Google Docs, use Google Gemini to **T** Expand the following text:

Open to view the Sample prompt:

T We finished the Q3 rollout. All teams met deadlines. The Q3 rollout has been successfully completed, with all teams meeting their respective deadlines.

Expand this hint for guidance on expanding text using Google Gemini.

- In the open *Untitled document* page, place your cursor at the end of the following text:

We finished the Q3 rollout. All teams met deadlines. The Q3 rollout has been successfully completed, with all teams meeting their respective deadlines.

- Right-click at the end of the text, and then select **Help me write**.
- In the *Help me write* prompt textbox, enter **T Expand**, and then select **Create**.

We finished the Q3 rollout. All teams met deadlines. The Q3 rollout has been successfully completed, with all teams meeting their respective deadlines.

Exercise 3: Insert Relevant Context or Citations

- In Google Docs, use Google Gemini to **Insert relevant context or citations** using the following text:

Open to view the Sample prompt:

T Write one paragraph about the importance of workplace flexibility and include two external citations.

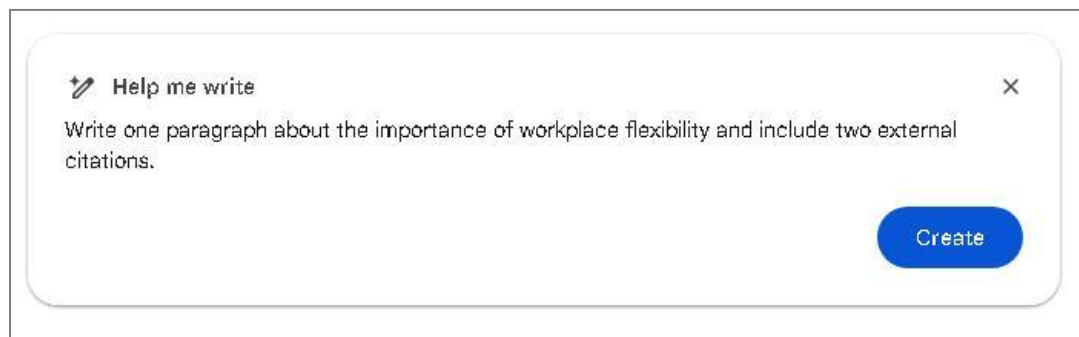

Expand this hint for guidance on inserting relevant context or citations using Google Gemini. ^

- In the open *Gemini Q3 Rollout* page, in **File**, select **New**, and then select **Document**.
- In *Untitled document*, select **Help me write**.

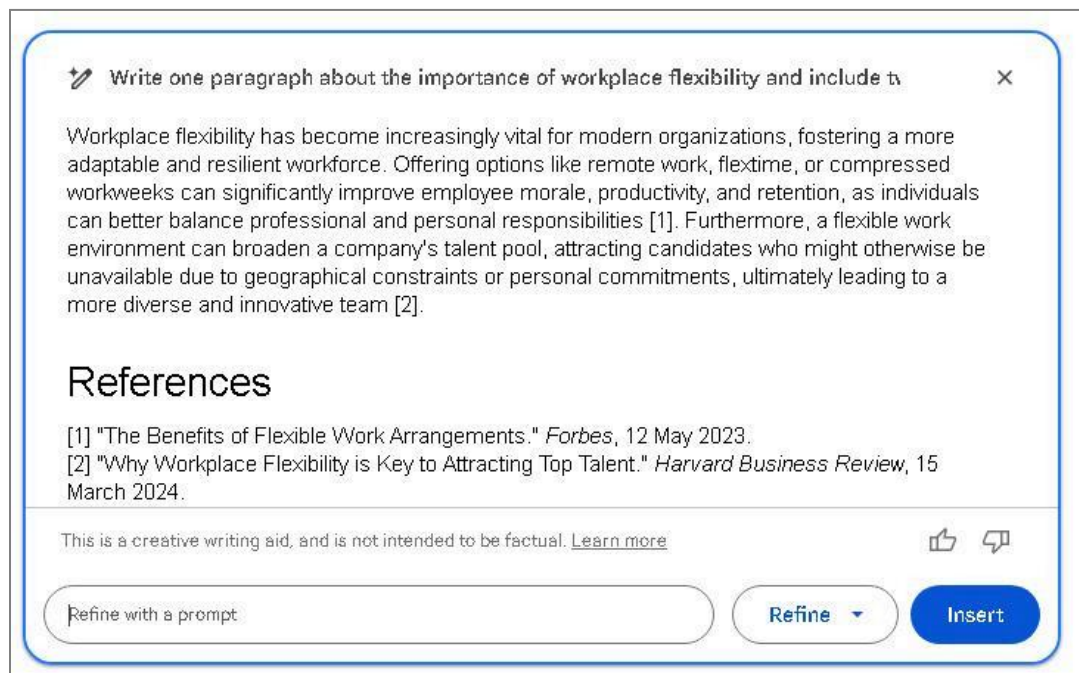

- In the prompt textbox, enter the following, and then select **Create**:

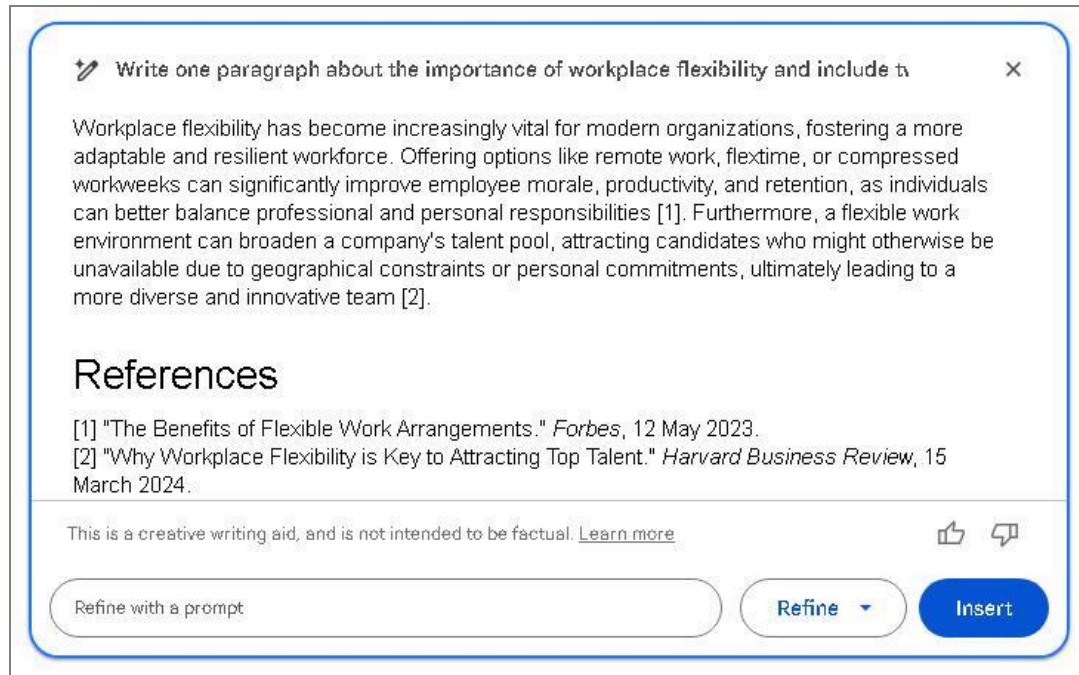

T Write one paragraph about the importance of workplace flexibility and include two external citations.

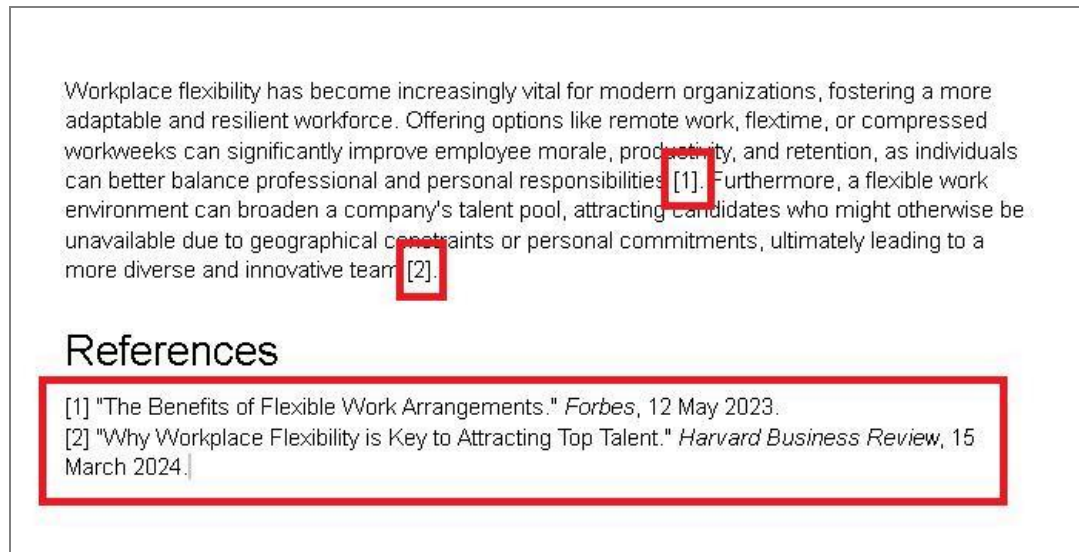

- Gemini will generate a document. Review it.

- Select **Insert**.

- Review your citations.

- Rename **Untitled document** to **T Gemini Citations**.

Expand this hint for guidance on renaming text documents.

- On the *Untitled document* menu bar, select the text **Untitled document**, enter **T Gemini Citations**, and then select **Enter**.
- Download **Gemini Citations** to your Desktop as a **pdf** file.

Expand this hint for guidance on downloading text documents.

- On the *Gemini Proposal* menu bar, select **File**, select **Download**, and then select **pdf**.
- Navigate to the **Downloads** folder.
- Locate *Gemini Citations.pdf*, and then drag it to your Desktop.

Check your work

Exercise 4: Proofread for Grammar, Spelling, and Clarity

- In Google Docs, use Google Gemini to **Proofread** the following text for **Grammar, Spelling, and Clarity**:

Open to view the Sample prompt:

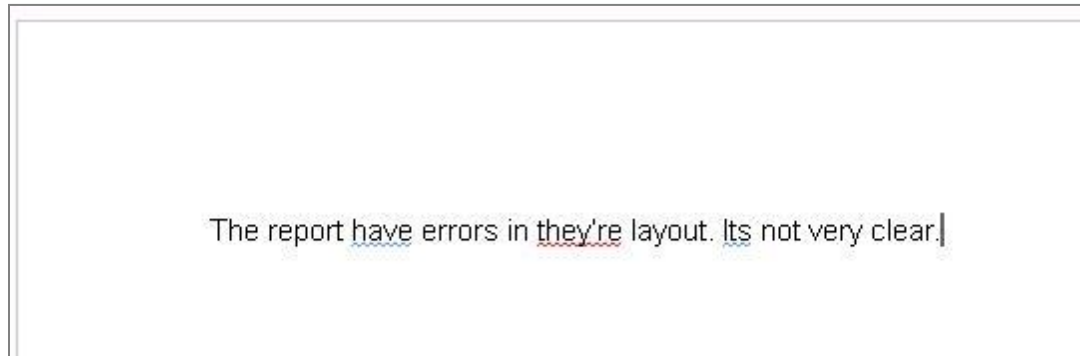

T The report have errors in they're layout. Its not very clear.

Expand this hint for guidance on proofreading for grammar, spelling, and clarity by using Google Gemini.

- In the open *Gemini Q3 Rollout* page, in **File**, select **New**, and then select **Document**.
- In *Untitled document*, enter the following:

T The report have errors in they're layout. Its not very clear.

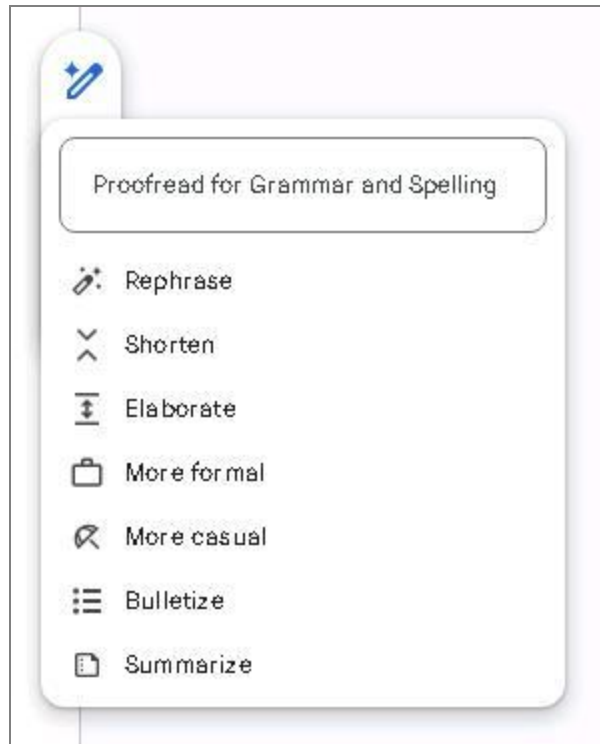

- Select all of the text, right-click, and then select **Refine the selected text**, and then select **Custom**.

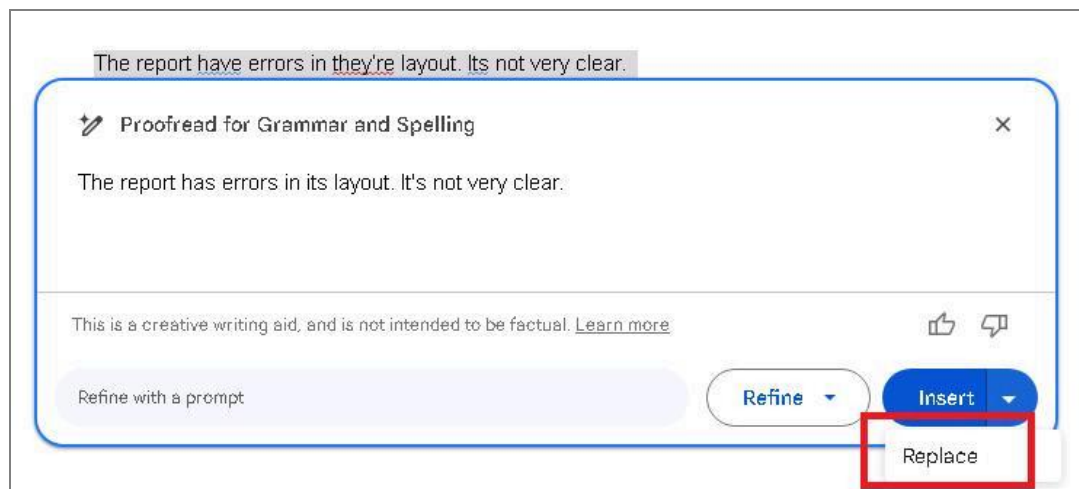

- In the *Modify with a prompt* prompt textbox, enter the following, and then select **Enter**:

T Proofread for Grammar and Spelling

- Gemini will generate an edited version. Review it, select **Insert** , and then select **Replace**.

The report has errors in its layout. It's not very clear.

- Rename **Untitled document** to **T Gemini Proofreading**.

Expand this hint for guidance on renaming text documents.

- On the *Untitled document* menu bar, select the text **Untitled document**, enter T **Gemini Proofreading**, and then select **Enter**.
- Download **Gemini Proofreading** to your Desktop as a **txt** file.

Expand this hint for guidance on downloading text documents.

- On the *Gemini Proposal* menu bar, select **File**, select **Download**, and then select **txt**.
- Navigate to the **Downloads** folder.
- Locate *Gemini Proofreading.txt*, and then drag it to your Desktop.

You can also run Tools > Spelling & Grammar and Gemini will enhance it with AI suggestions for clarity and tone.

Check your work

Exercise 5: Generate Job Descriptions, Policies, or Training Materials

- In Google Docs, use Google Gemini to **Create a job description** by using the following prompt:

Open to view the Sample prompt:

T Create a job description for a remote customer support specialist with 2+ years of experience.

Expand this hint for guidance on using Google Gemini to generate a job description.

- In the open *Gemini Proofreading* page, in **File**, select **New**, and then select **Document**.
- In *Untitled document*, select **Help me write**.
- In the prompt textbox, enter the following, and then select **Create**:

T Create a job description for a remote customer support specialist with 2+ years of experience.

 Write one paragraph about the importance of workplace flexibility and include two references. ✕

Workplace flexibility has become increasingly vital for modern organizations, fostering a more adaptable and resilient workforce. Offering options like remote work, flextime, or compressed workweeks can significantly improve employee morale, productivity, and retention, as individuals can better balance professional and personal responsibilities [1]. Furthermore, a flexible work environment can broaden a company's talent pool, attracting candidates who might otherwise be unavailable due to geographical constraints or personal commitments, ultimately leading to a more diverse and innovative team [2].

Exercise 7: Turn Outlines into Full Documents or Scripts

- In Google Docs, use Google Gemini to **turn an outline into a full document** by using the following text:

Open to view the Sample prompt:

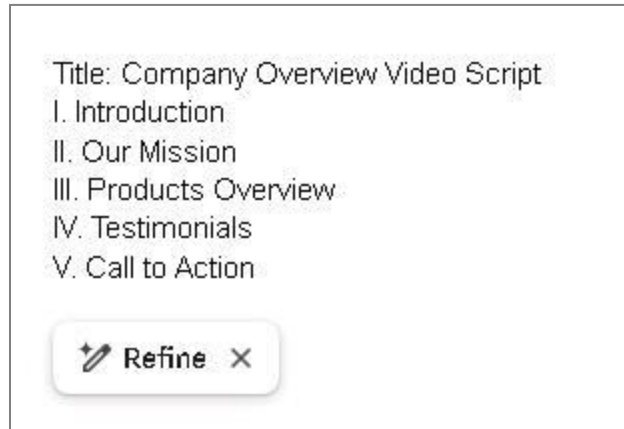

Title: Company Overview Video Script I. Introduction II. Our Mission III. Products Overview IV. Testimonials V. Call to Action

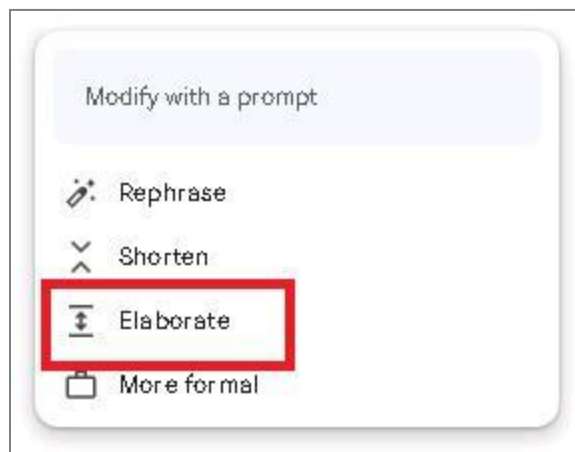

Expand this hint for guidance on expanding an outline using Google Gemini. ^

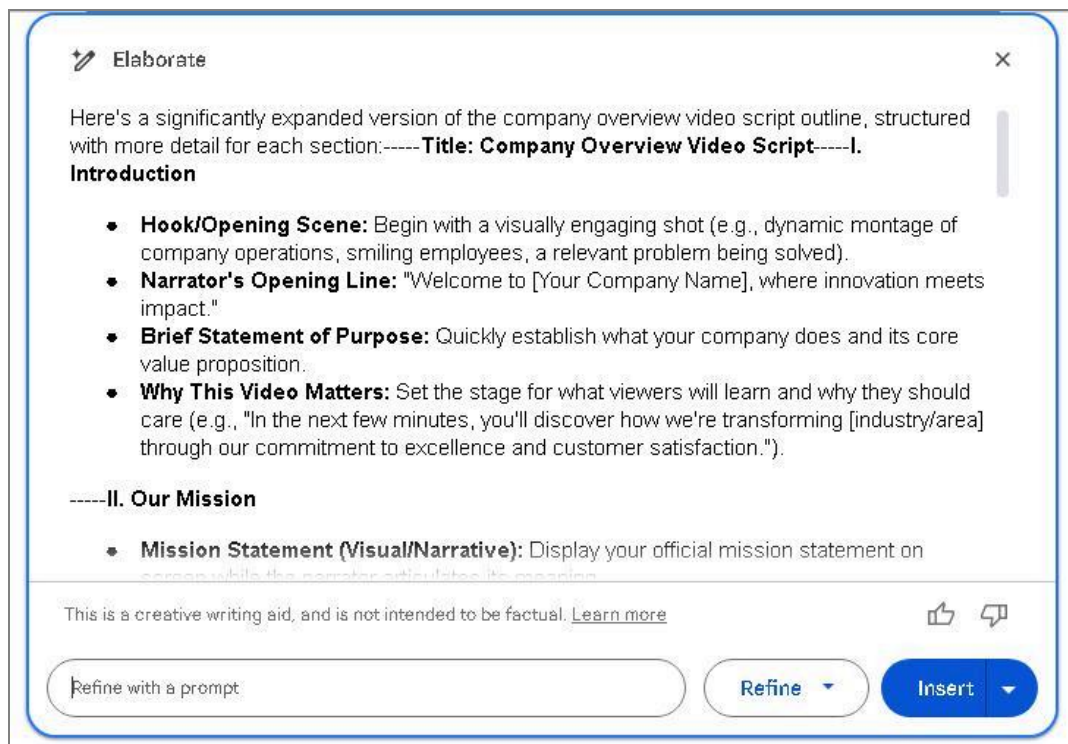

- In the open *Untitled document* page, in **File**, select **New**, and then select **Document**.
- In *Untitled document*, enter the above supplied text:
- Select all of the text, and then select **Refine**.

- Select **Elaborate**.

- Review Google Gemini's suggested rewrite, and then select **Insert**.

- Rename **Untitled document** to **T Gemini Expanded**.

Expand this hint for guidance on renaming text documents.

- On the *Gemini Training Materials* menu bar, select the text **Untitled document**, enter **T Gemini Expanded**, and then select **Enter**.
- Download **Gemini Expanded** to your Desktop as a **docx** file.

Expand this hint for guidance on downloading text documents.

- On the *Gemini Expanded* menu bar, select **File**, select **Download**, and then select **docx**.
- Navigate to the **Downloads** folder.
- Locate *Expanded.docx*, and then drag it to your Desktop.

Check your work

Summary

Congratulations, you have completed the **Using Google Gemini in Google Docs (G Suite Workspace)** Lab.

You have accomplished the following:

- Generated reports, proposals, and meeting notes.
- Rewrote, summarized, expanded, and changed tone.
- Inserted relevant context or citations.
- Proofread for grammar, spelling, and clarity.
- Generated job descriptions, policies, and training materials.
- Drafted sales emails, onboarding guides, and reports.
-

Congratulations

ON COMPLETING THE

Using Google Gemini in Google Docs lab
