Using Google Gemini in Google Drive & Keep (Search & Summarization)

Understand the scenario

You are a New Employee at Worx1. You need to use Google Gemini to summarize, search, and organize project content across Google Drive and Keep. First, you will summarize documents using Gemini, and then you will use context-aware search in Drive. Next, you will organize files using Gemini suggestions, and then you will pull Drive content into Gmail and Docs. Finally, you will add notes and tasks in Keep using Gemini.

Getting Started (Before You Begin)

Before beginning this lab, make sure:

- You are signed into your Google Workspace (work or school) Gmail account.
- Your administrator has enabled Gemini (formerly Duet AI).
- You are using the Google Chrome browser for best compatibility.

Exercise 1: Summarize Documents with Gemini

- Enter your Gmail Username and Password into the following textboxes:

Gmail Username

Gmail Password

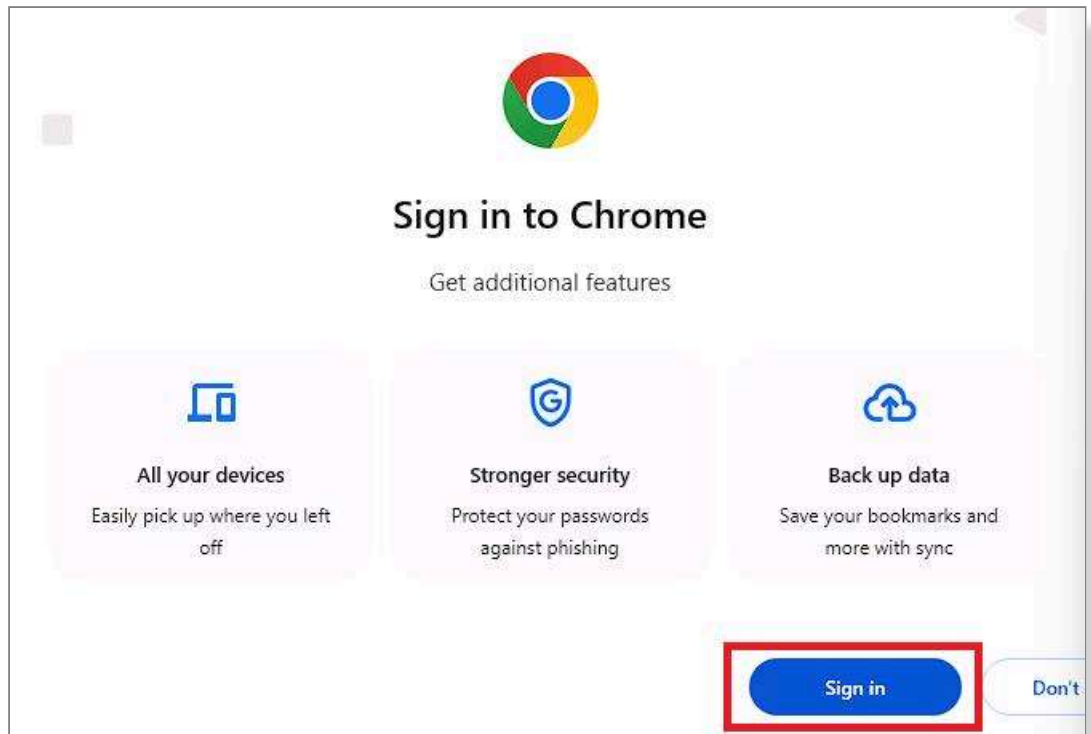

- Sign into Chrome as T <Name> by using T <PW> as the password.

Expand this hint for guidance on signing into Google Chrome.

- On the *Sign in to Chrome* page, select **Sign in**.

- On the *Sign in to Chrome | Use your Google Account* page, in email or phone, enter T <Name>, and then select **Next**
