SALES LEVEL STAFFING

Level I (Up to \$5,000)/Week

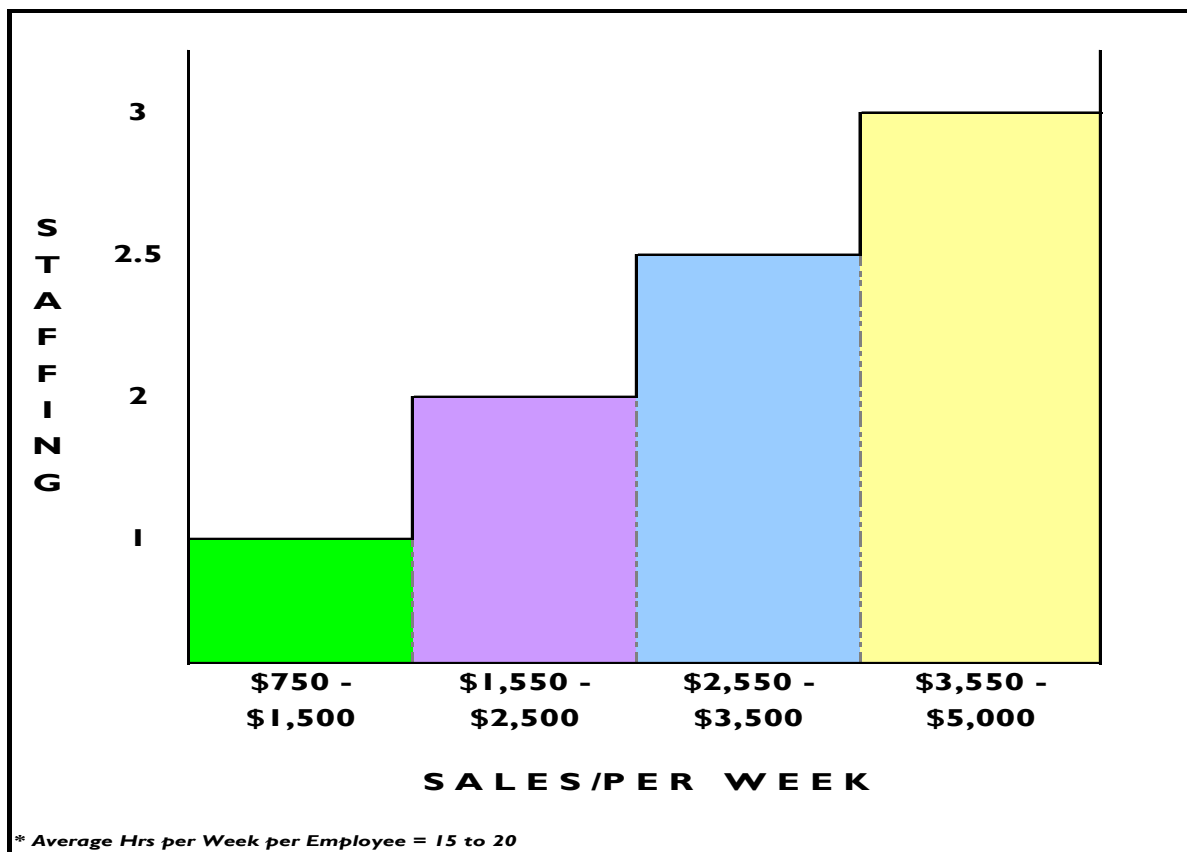

Catering Staff

I Delivery, I Production, I Order Taker

In Sales Level I, the **first** employee should be hired into the **delivery** position. As defined in the Catering Positions overview, the delivery position is required to work in catering production, answer phones, take all catering orders and facilitate catering deliveries. This employee should be hired knowing that as catering sales increase they will become the Catering Supervisor.

The **second** employee should be hired into the **production** position. This employee takes away some of the production responsibilities from the **first** employee and allows the delivery position to concentrate more on taking catering orders and facilitating delivery. As sales get to the final stage of this sales level, the **first** employee begins to move into an **order taker** position in preparation to support continued sales growth.

The **third** employee should be hired into the **delivery** position. This employee will take away the remainder of the production responsibilities from the first employee and will support production and delivery needs into the next sales level.

SALES LEVEL STAFFING

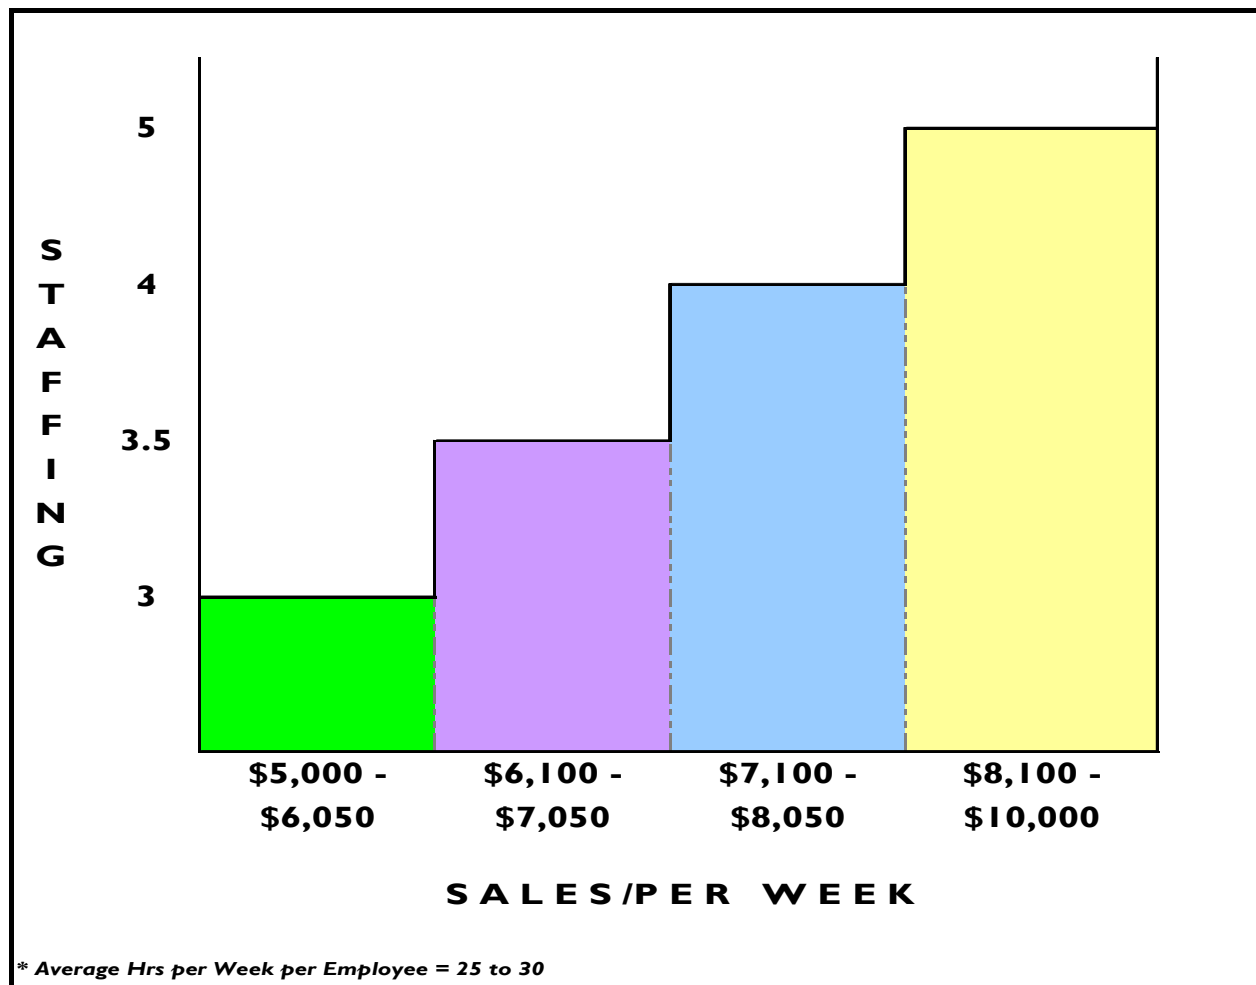

Level 2 (\$5,000 - \$10,000)/Week

Catering Staff 2 Delivery, 2 Production, 1 Catering Supervisor

At Sales Level 2, you will carry over the three catering positions filled in the previous sales level. Upon reaching the mid-point of Sales Level 2, the **fourth** catering employee should be hired into the **delivery** position.

This employee should be able to take away the remaining delivery and production responsibilities of the first employee, who should now be elevated into the **Catering Supervisor** role. When needed the **Catering Supervisor** can be the last employee to go on deliveries.

At the top of Sales Level 2, the **fifth** employee should be hired into the **production** position to help support continued sales growth.

SALES LEVEL STAFFING

Level 3 (\$10,000 – \$15,000)/Week

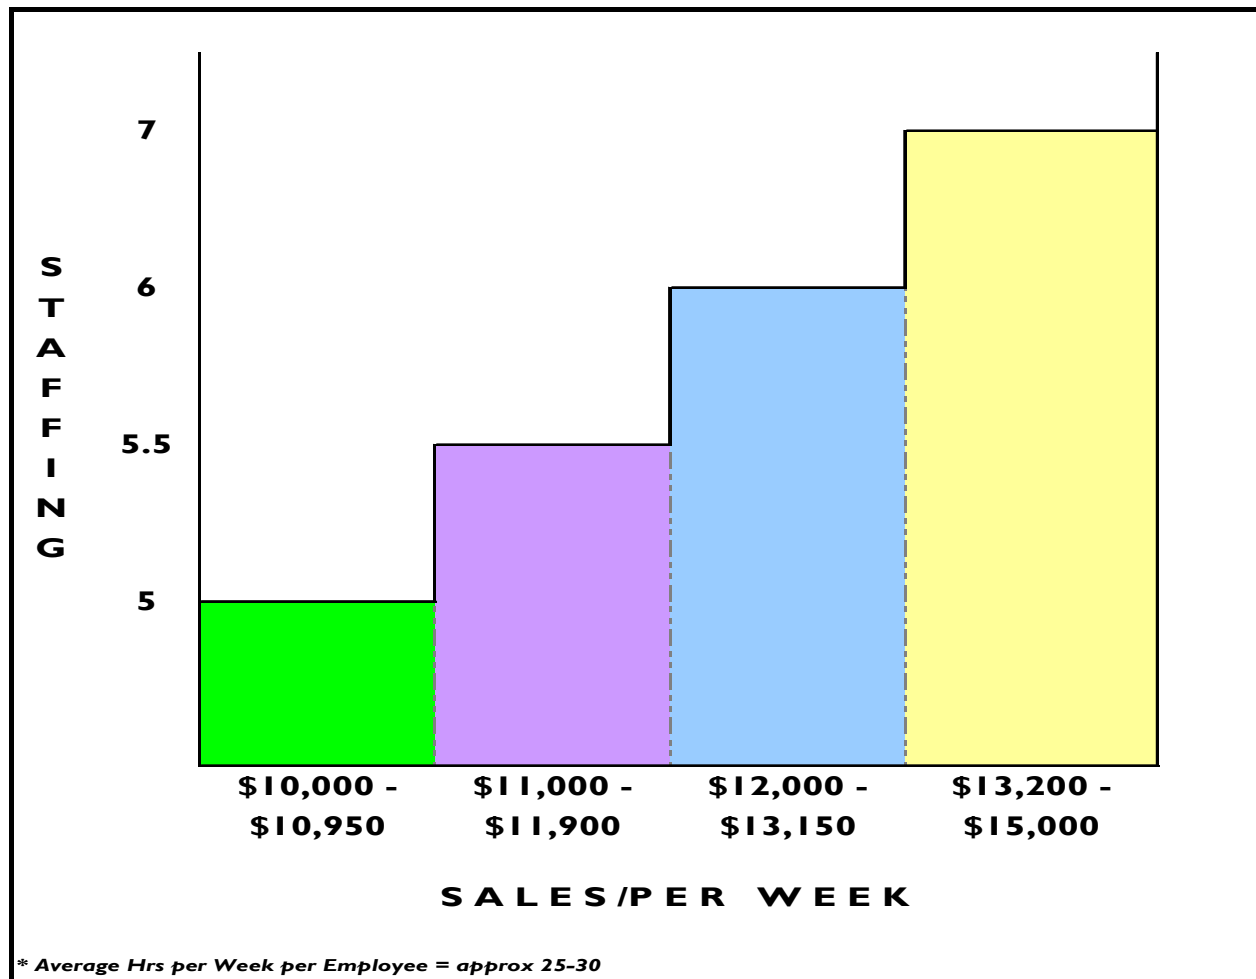

Catering Staff

3 Delivery, 2 Production, 1 Order Taker, 1 Catering Supervisor

At Sales Level 3, you will carry over the five catering positions filled in the previous sales level. Upon reaching the mid-point of Sales Level 3, the **sixth** catering employee should be hired into the **delivery** position.

This employee should be able to take away the remaining delivery and production responsibilities of the third employee, who should now be elevated into the **order taker** role and when needed, the order taker (third employee) can help support deliveries.

At the top of Sales Level 3, the **seventh** employee should be hired into the **delivery** position. This employee should be able to support additional production and delivery needs.

SALES LEVEL STAFFING

Level 4 (\$15,000 - \$20,000) /Week

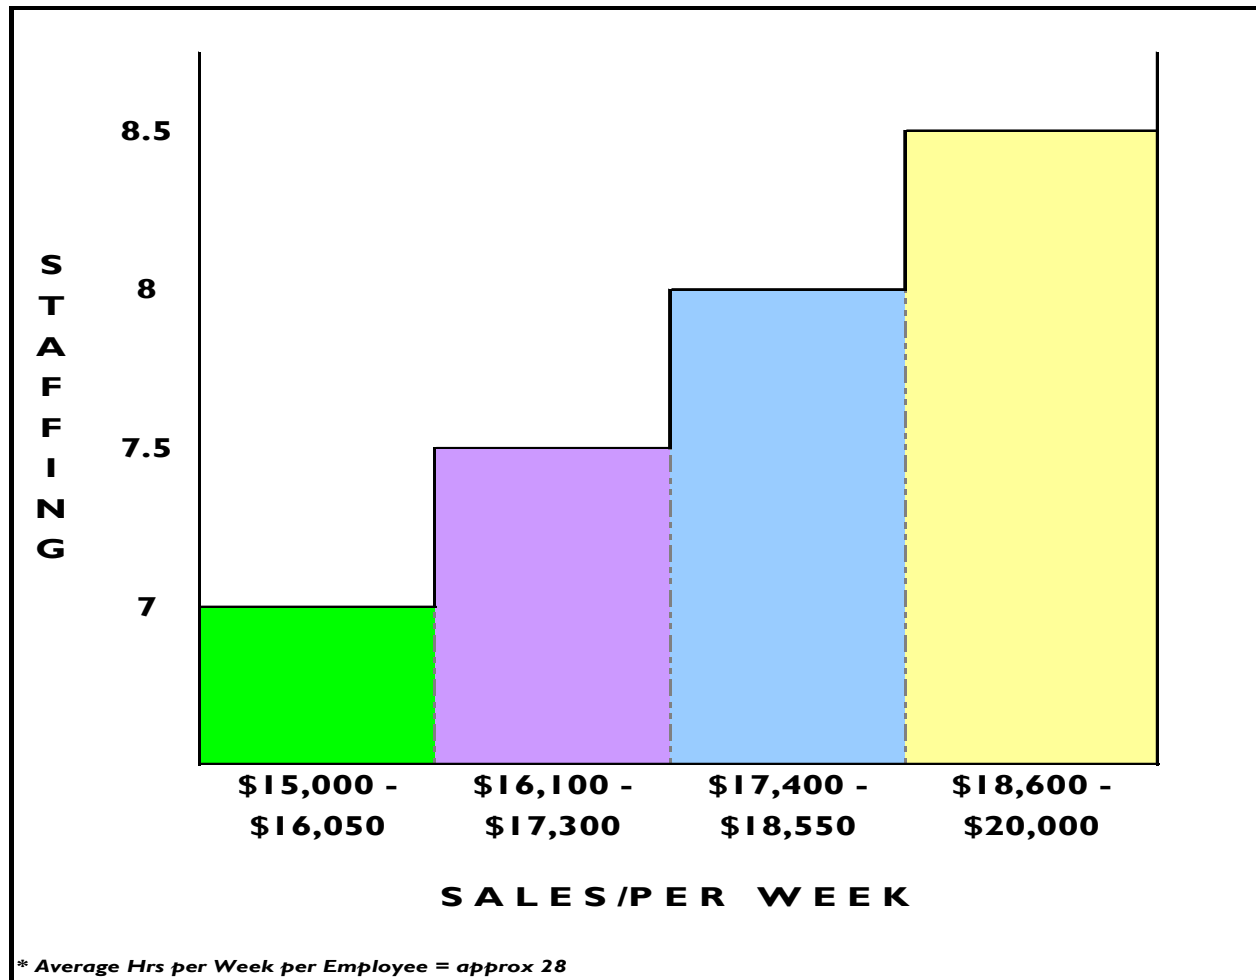

Catering Staff

3.5 Delivery, 2 Production, 2 Order Taker, 1 Catering Supervisor

Upon reaching Sales Level 4, you will carry over the seven catering positions and prepare to add another employee. As you reach the mid-point of this level, the **eighth** catering employee should be hired into the **delivery** position.

This employee should be able to take away the remaining delivery and production responsibilities of the fourth employee, who should now be elevated into the **order taker** role and when needed, the order taker (third employee) can help support deliveries.

At the top of Sales Level 4, prepare to hire the **ninth** employee into **production**. This employee should be able to support additional production and delivery needs as sales continue to grow.

SALES LEVEL STAFFING

Level 5 (\$20,000 - \$25,000) Week

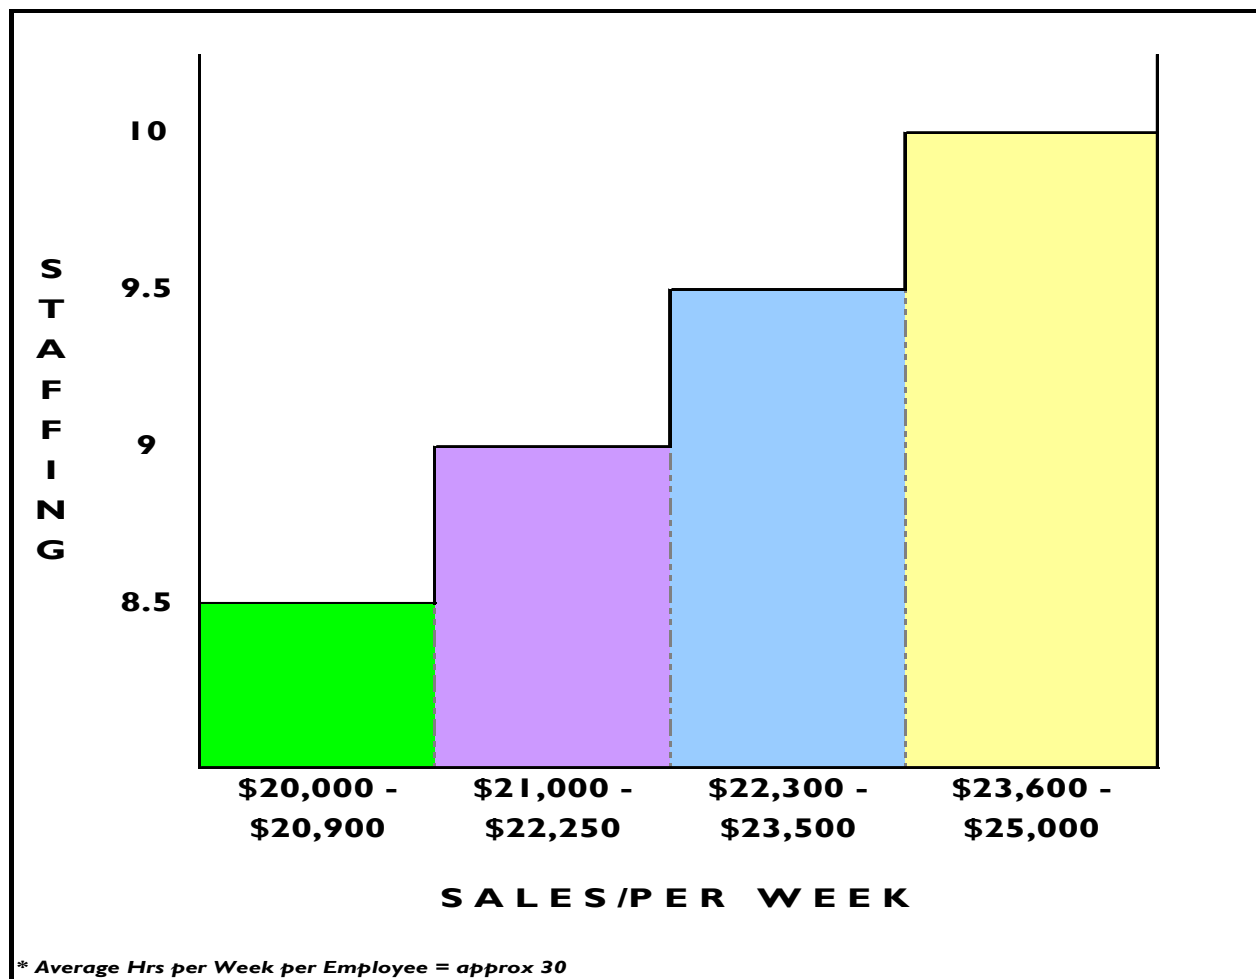

Catering Staff

4 Delivery, 3 Production, 1 Order Taker, 2 Catering Supervisor

Through the mid-point of Sales Level 5, you will carry over the nine catering positions filled in the previous sales level. At the top of Sales Level 5, the **tenth** catering employee should be hired into the **delivery** position.

This employee should be able to take away the remaining delivery and production responsibilities of the third employee, who should now be elevated into the **Catering Supervisor** role.

To maximize catering sales support, one **Catering Supervisor** should open catering and the other one should close catering.

SALES AND OPERATING SYSTEMS

SALES LEVEL STAFFING

Level 6 (\$25,000 and above) / Week

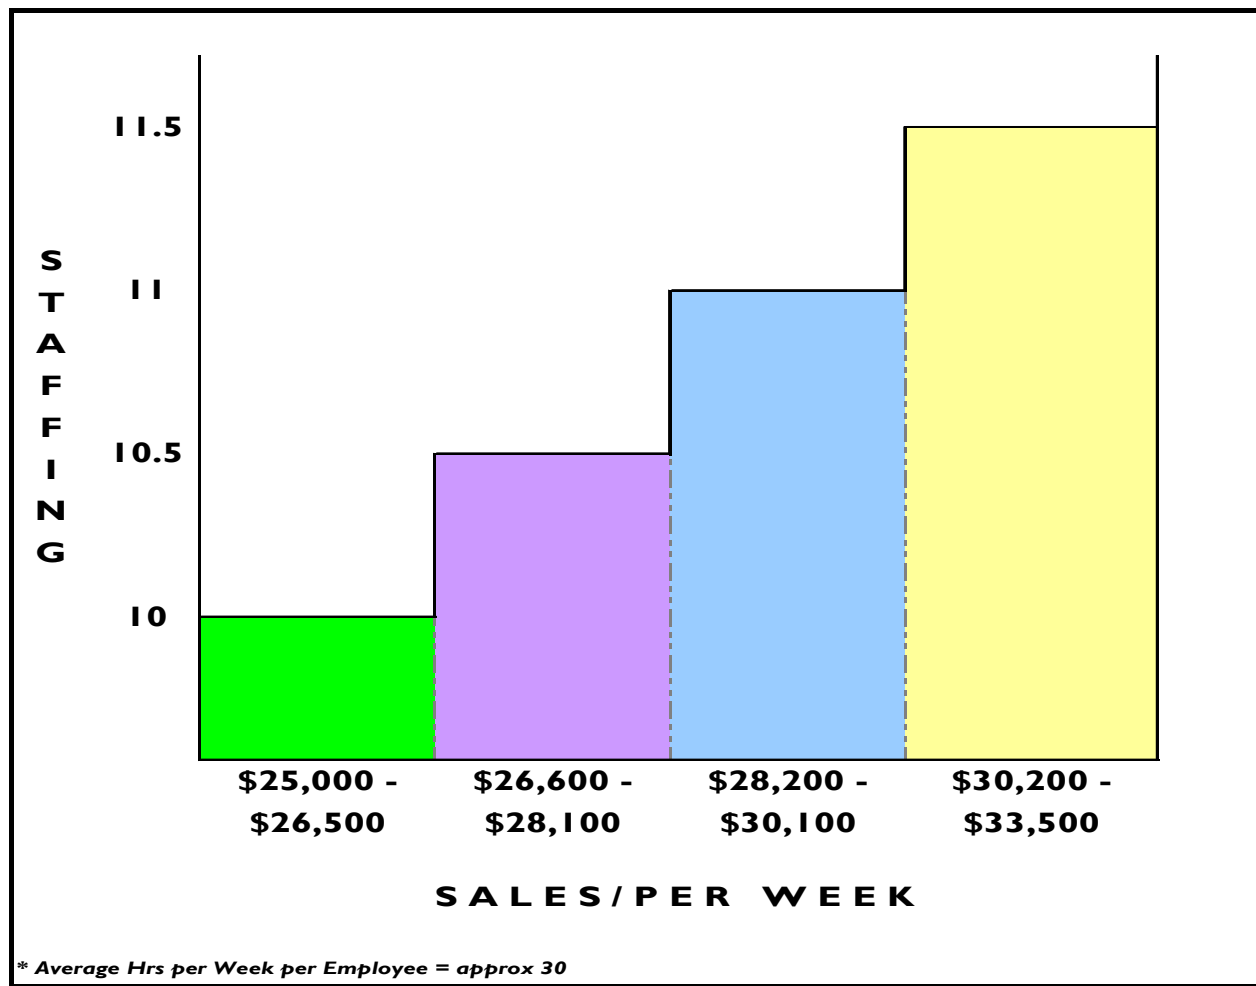

Catering Staff

4.5 Delivery, 3 Production, 2 Order Taker, 2 Catering Supervisor

Upon reaching Sales Level 6, you will carry over the ten catering positions and prepare to add another employee. At the mid-point of this level, the **eleventh** catering employee should be hired into the **delivery** position.

This employee should be able to take away the remaining delivery and production responsibilities of the sixth employee, who should now be elevated into the **order taker** role and when needed, the order taker (sixth employee) can help support deliveries.

At the top of the Sales Level 6, the **twelfth** employee should be hired into the **delivery** position.

STANDARD CATERING EQUIPMENT PACKAGE

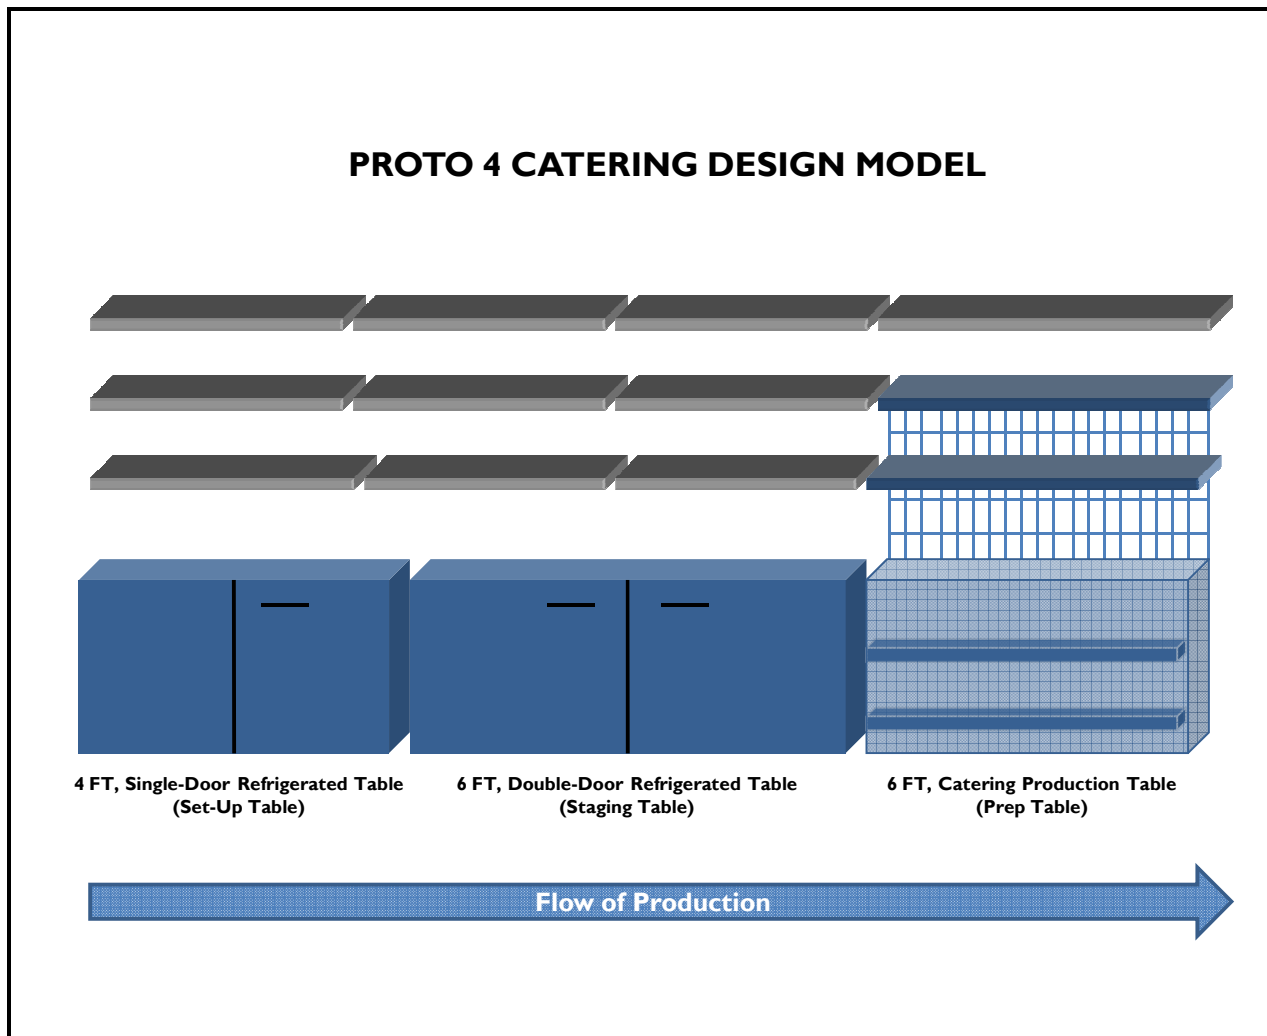

The standard catering equipment package listed below is reflective of a typical store based on the Proto 4 design model. The equipment package can be modified depending on store size and building structure.

EQUIPMENT
(1) 4' Single Door Refrigeration Table (Set-Up Table)
(1) 6' Double Door Refrigeration Table (Staging Table)
(1) 6' Catering Production Table (Prep Table)
(10) Metro Shelves – Shelves over the production tables
(1) Ambient Metro Shelving Rack with 8 Shelves
(1) Refrigerated Metro Shelving Rack with 6 Shelves
(1) Upright Refrigeration with Dedicated Rolling Rack

CATERING AREA

The illustration below shows the primary catering equipment set-up. This alignment of equipment is designed to flow on one wall in the catering production area. If this equipment needs to be separate, the prep and staging tables should be placed side by side to allow for production flow. The set-up table can be placed on an adjacent wall but it should still be within reach of the ambient shelves.

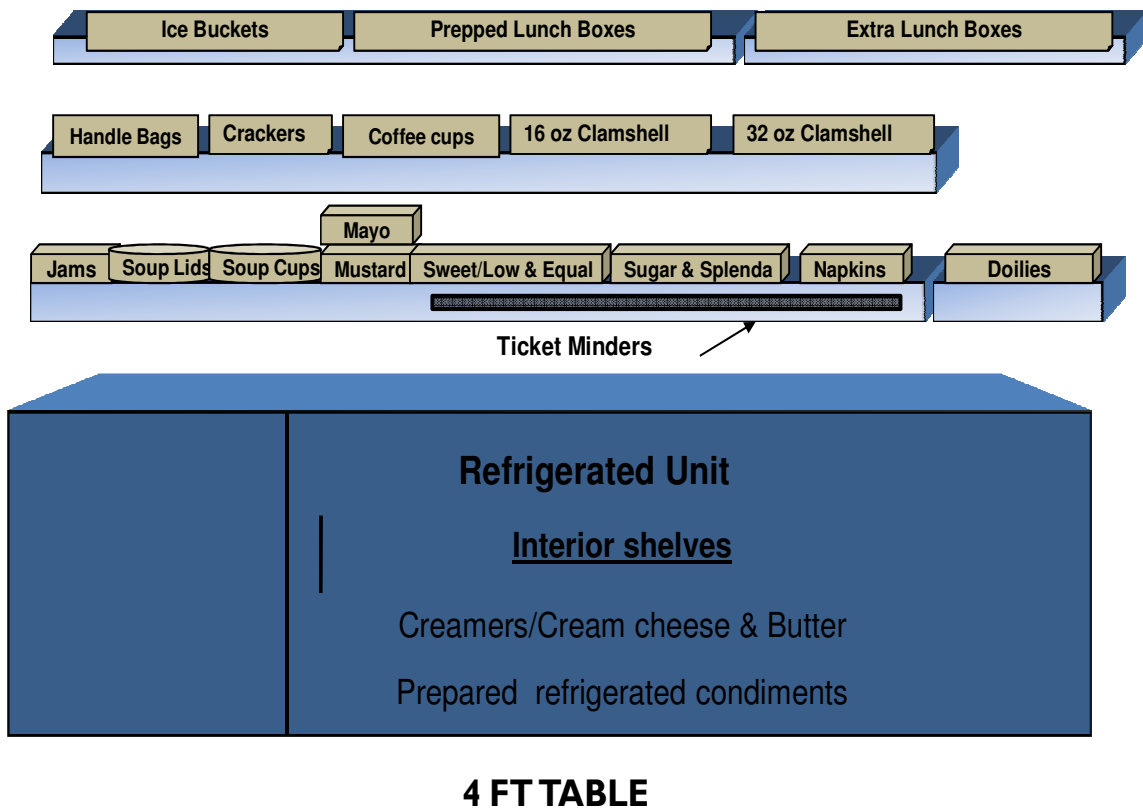

CATERING AREA

Set-Up Table Diagram

The Set-up Table should be used to produce catering items. The shelves above and the refrigerated unit below should have items that will be used in condiment set-ups.

SET-UP TABLE

CATERING AREA

Set Up Table Photos

Depending on the store set up this table should be against the wall or next to the Staging Table.

TOP SHELF

INTERIOR SHELVES

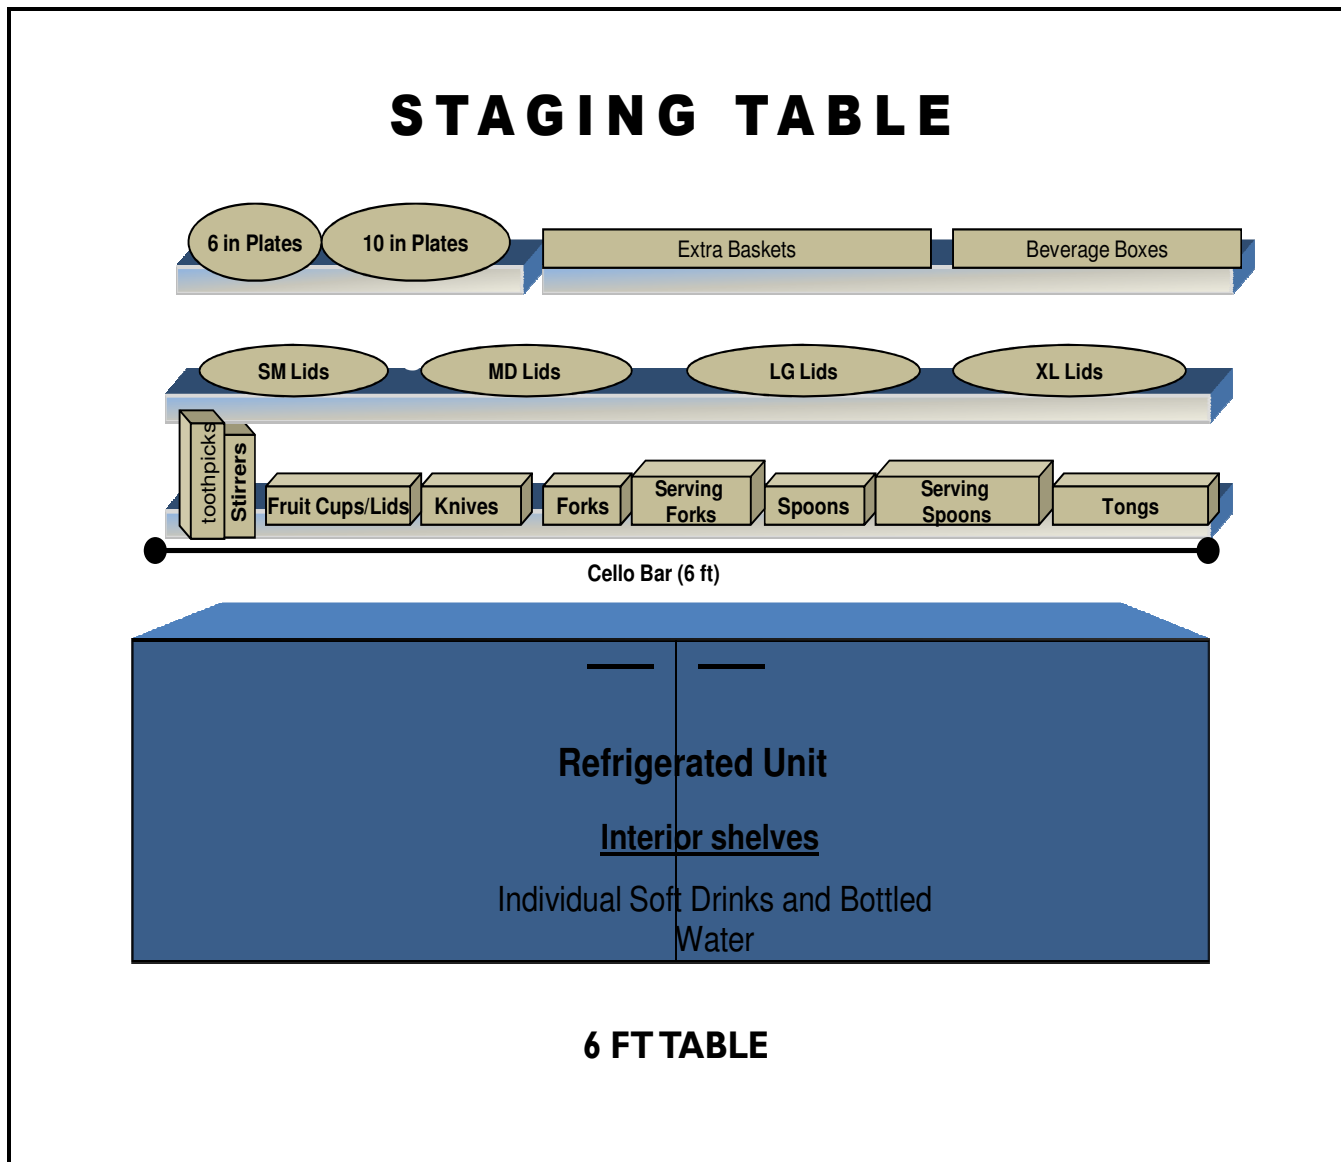

CATERING AREA

Staging Table Diagram

The Staging Table should be used to produce, label and wrap catering items. The shelves above the table should have items that will be used in set-ups and production. Individual catering beverages should be stored in the refrigerated cabinet.

CATERING AREA

Staging Table Photos

TOP SHELF

STATION SHELVES

INTERIOR SHELVES

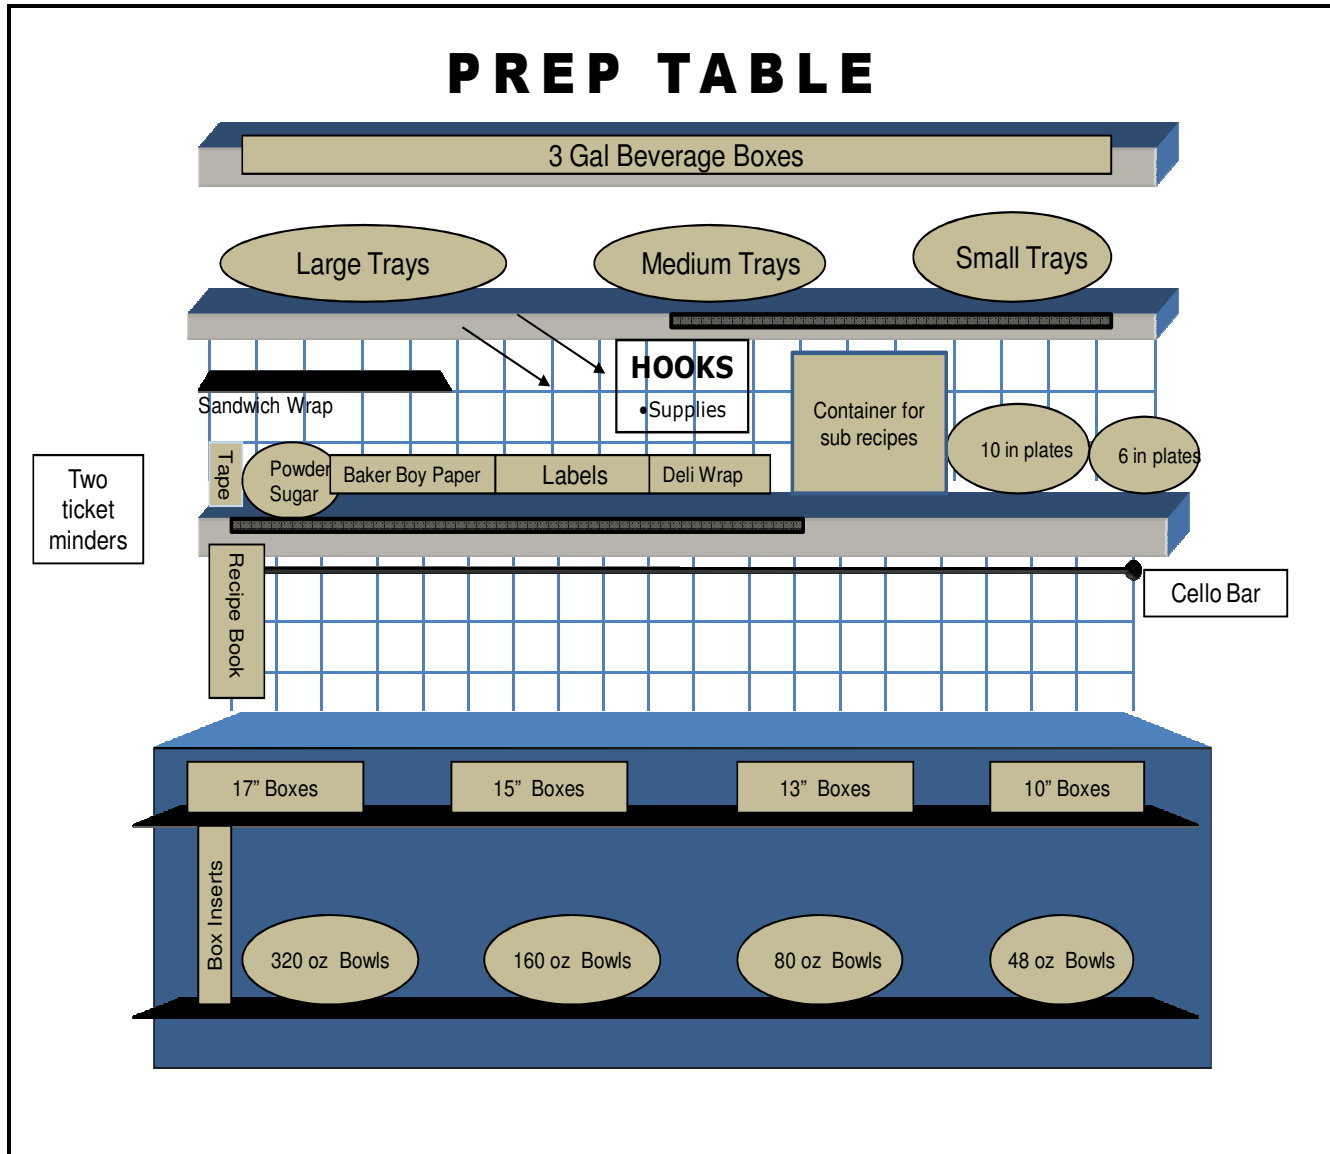

CATERING AREA

Prep Table Diagram

The Prep Table should be used as the primary station to produce and wrap catering items utilizing the space for baskets, trays and bowls.

TOP SHELVES

CATERING AREA

Ambient Rack Set-up

As part of the Standard Catering Equipment Package, you will have **one** ambient metro rack which should be set up as listed below.

Start with the empty Metro shelf that measures 84" high and 18" deep with 8 shelves

Place shelves starting from the bottom:

- Base shelf at wheels
- 1st shelf – 12 inches
- 2nd shelf – 12 inches
- 3rd – 8th – 6 ½ inches apart

When measuring the shelf spaces use the gridlines on the metro unit to get the correct measurements. Standard gridline spacing is one inch.

CATERING AREA

Ambient Rack Zoning

Use two colors of P-Touch tape and shelf clips to **zone** each ambient shelf.

Starting at the top, use **yellow** for **breakfast items** and **white** for **lunch** as listed below:

ASSEMBLED BASKETS/TRAYS

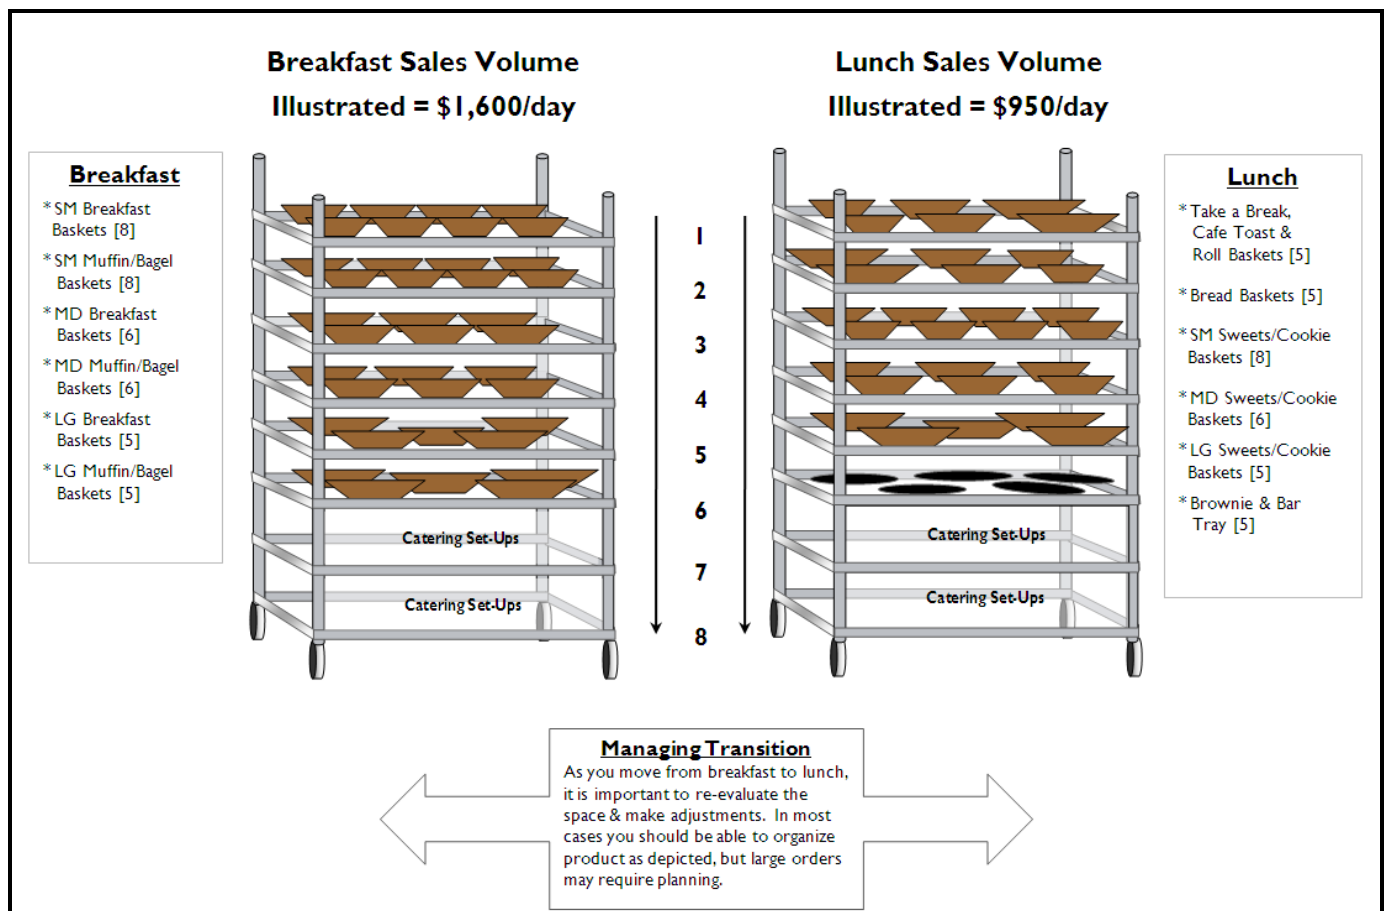

Shelf	Breakfast (yellow)		Shelf	Lunch (white)
1st	SM Breakfast Basket		1st	Take A Break, Cafe Toast, Roll Basket
2nd	SM Muffin/Bagel		2nd	Bread Baskets
3rd	MD Breakfast Basket		3rd	SM Sweets/Cookie Baskets
4th	MD Muffin/Bagel		4th	MD Sweets/Cookie Basket
5th	LG Breakfast Basket		5th	LG Sweets/Cookie Basket
6th	LG Muffin/Bagel		6th	Brownie/Bar Tray
7th	Set-ups		7th	Set-ups
8th	Set-ups		8th	Set-ups

CATERING AREA

Using your Ambient Rack

As outlined in the Standard Catering Equipment Package, there should be one (1) dedicated metro rack in the catering production area. This rack is used to store assembled baskets and trays prior to delivery staging that do not require refrigeration. Our menu sizing platform allows us to organize our assembled baskets and trays the same way a grocery store organizes their shelves. Keeping like items and like sizes together will allow you to simply pull from your "stock" of assembled baskets and trays. Additionally, by maximizing your storage space you keep your food prep areas clutter-free and available to continue assembling more baskets & trays.

CATERING AREA

Refrigerated Rack Set-up

The Standard Catering Equipment Package will also include **one** refrigerated metro rack that should be set up as listed below.

Start with the empty Metro shelf that measures 48" high and 24" deep with 6 shelves

Place shelves starting from the bottom:

- Base shelf at wheels
- 2nd & 3rd shelf - 8 ½ inches apart
- 4th & 5th shelf – 11 ½ inches apart
- Top shelf at the top notch

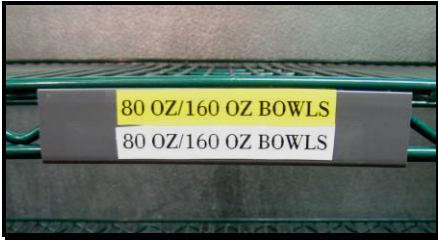

When measuring the shelf spaces use the gridlines on the metro unit to get the correct measurements. Standard gridline spacing is one inch.

CATERING AREA

Refrigerated Rack Zoning

Use two colors of P-Touch tape and shelf clips to zone each ambient shelf.

Starting at the top, use **yellow** for **breakfast** items and **white** for **lunch** as listed below:

ASSEMBLED BASKETS & BOWLS

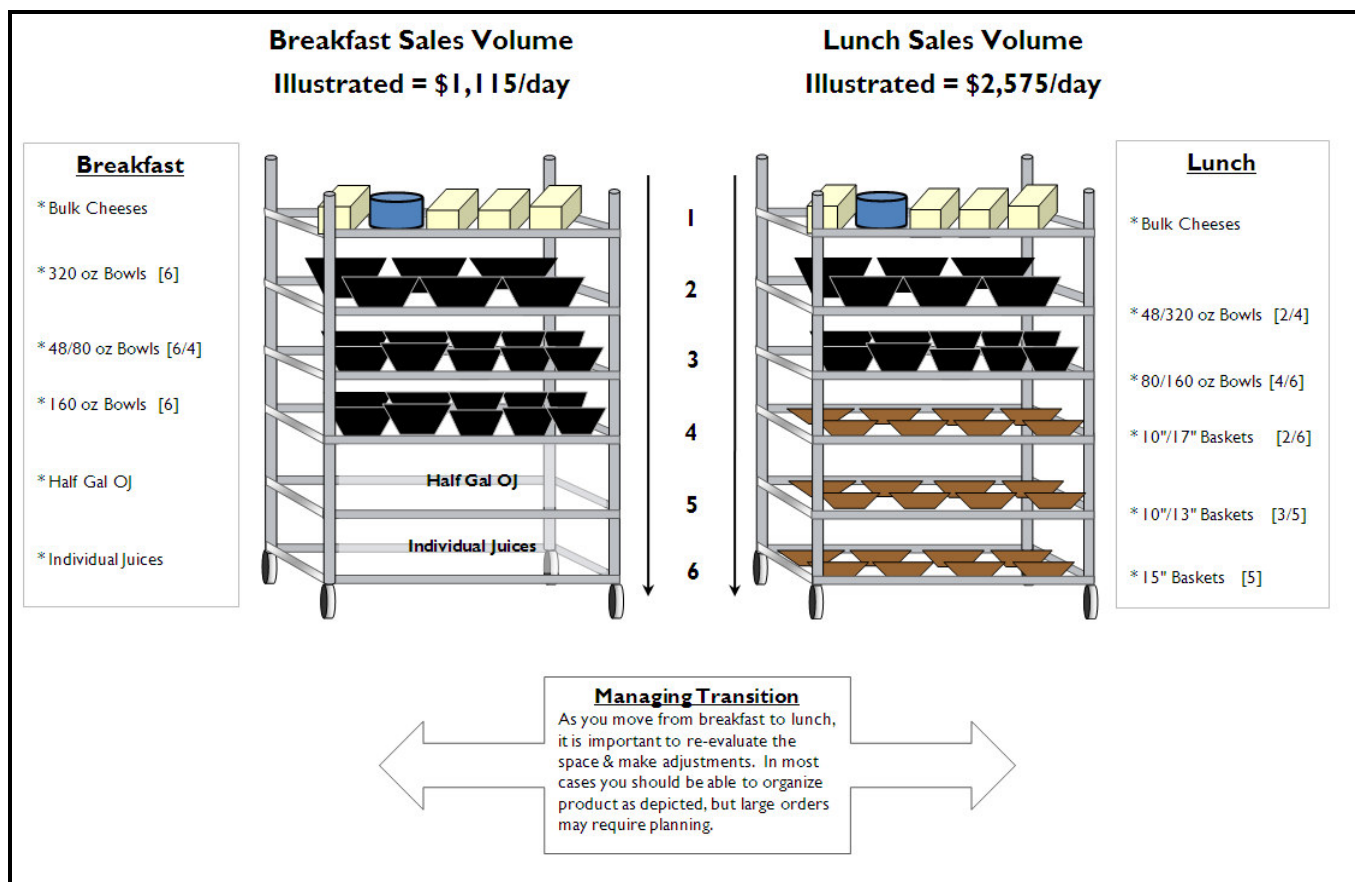

Shelf	Breakfast (yellow)		Shelf	Lunch (white)
1st	Catering cheeses and misc catering supplies		1st	Catering cheeses and misc catering supplies
2nd	320 oz bowls Fruit Medley		2nd	48 oz/ 320 oz bowls Salads
3rd	80 oz/ 48 oz bowls Fruit Medley		3rd	80 oz/ 160 oz bowls Salads
4th	160 oz bowls Fruit Medley		4th	10"/17" baskets Sandwiches/Veggie
5th	Prepped OJ - half gal		5th	10"/13" baskets Sandwiches/Veggie
6th	Prepped Individual Juices – super wave bag		6th	15" baskets Sandwiches/Veggie

CATERING AREA

Using your Refrigerated Rack

As outlined in the Standard Catering Equipment Package, there should be one (1) dedicated metro rack in the walk-in cooler. This rack is used to store bulk cheeses, assembled baskets and bowls prior to delivery staging that requires refrigeration. Our menu sizing platform allows us to organize our assembled baskets and bowls the same way a grocery store organizes their shelves. Keeping like items and like sizes together will allow you to simply pull from your "stock" of assembled baskets and bowls. Additionally, by maximizing your storage space you keep your food prep areas clutter-free and available to continue assembling more baskets & trays.

CATERING AREA

Upright Cooler Zoning

Use two colors of P-Touch tape **zone** inside of the unit on the door.

Starting at the top, use **yellow** for **breakfast** items and **white** for **lunch** as listed below:

ASSEMBLED TRAYS

The **top half** of the rolling rack is dedicated to **prepared sandwiches** ready to be wrapped for basket assembly. The **bottom 5 sheet pans** on the rolling rack are dedicated to **prepared catering trays**. Starting at the bottom, place sheet pans on every other insert as shown below.

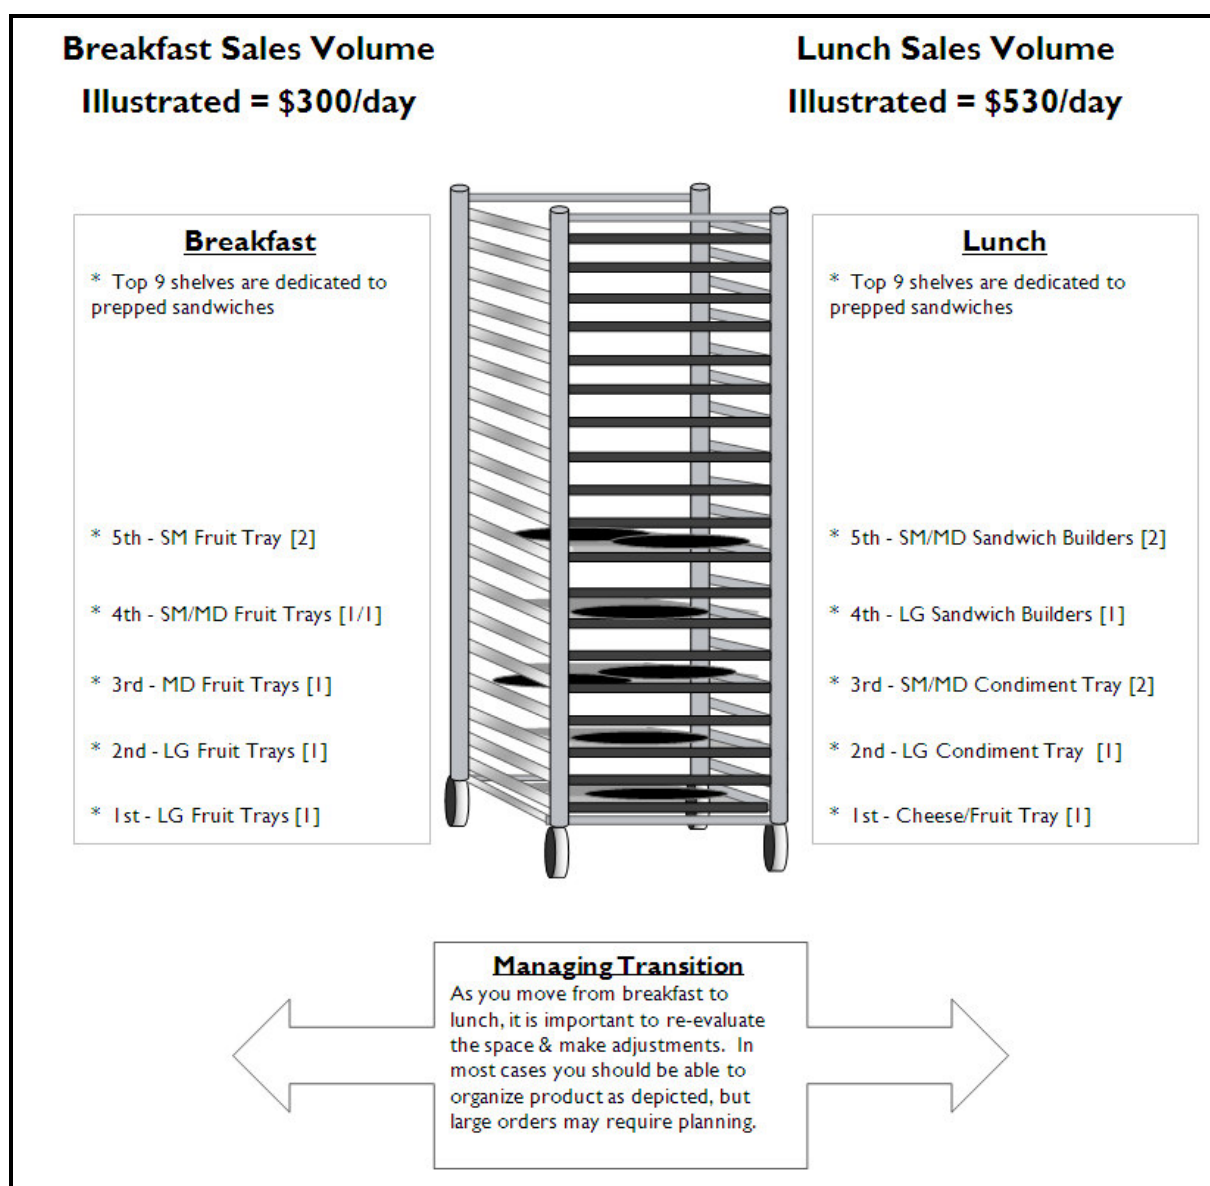

Insert	Breakfast (yellow)		Insert	Lunch (white)
	Prepared Sandwiches (For lunch assembly)			Prepared Sandwiches (For lunch assembly)
5	SM Fruit Trays		5	SM/MD Sandwich Builders
4	SM/MD Fruit Trays		4	LG Sandwich Builders
3	MD Fruit Trays		3	SM/MD Condiment Trays
2	LG Fruit Trays		2	LG Condiment Trays
1	LG Fruit Trays		1	Cheese/Fruit Trays

Note: Depending on sales volume the area dedicated to prepared sandwiches and prepared catering trays may vary.

CATERING AREA

Using your Upright Refrigeration/Rolling Rack

As outlined in the Standard Catering Equipment Package, there should be one (1) upright cooler with a dedicated rolling rack near the catering production area. This unit is used to store assembled trays prior to delivery staging that require refrigeration. Our menu sizing platform allows us to organize our assembled trays the same way a grocery store organizes their shelves. Keeping like items and like sizes together will allow you to simply pull from your "stock" of assembled trays. Additionally, by maximizing your storage space you keep your food prep areas clutter-free and available to continue assembling more baskets & trays.

JOB AID SET-UP

Using the guide below post all job aids in the area they will be used to support execution of catering. All job aids are available for reprint on the CBC Net/Catering/Catering Job Aids or Catering Forms. Laminated job aids can be ordered from the Color Place website.

PHONE SCRIPT

The Catering Phone Script should be used when taking catering orders. This tool ensures all important information is obtained to set the proper expectation of how the order will be handled. Additionally, the Suggestive Selling tool should also be used when taking a customer's catering order. Refer to the Suggestive Selling tool to compliment the order taking process.

*Catering Operations Manual*
EXECUTING THE 4 P'S OF CATERING — *Personalized Service*

PHONE SCRIPT

"Corner Bakery Cafe (your cafe name), how may I direct your call?"
(wait for customer response) – If customer is looking to have an order catered, begin script

TAKING THE ORDER

- May I have the phone number of the person receiving the order?
 - This is the number we will use to build your profile that will be used each time you call to place an order. Also, if you have an alternate number that you can be reached at in case you're away from your desk that would be helpful.
- If new customer – enter customer information into member profile.
 - First Name & Full Last Name - ask the guest for the spelling of their first and last name.
 - Complete Address - include the following: floor, suite, room number, zip code etc. (verify that customer is within your delivery area).
 - E-Mail Address – ask the guest for the email address that they would like us when receiving an order confirmation.
 - Member Group – ask customer what industry they would like to be associated with and then select that group within the member group section.
 - Special Instructions - Insert any special directions in [direction box] such as loading dock or security information.
- If existing customer - member profile will appear (verify all information including the email address where they would like the order confirmation sent).
- Ask - Would you like this for DELIVERY OR PICK UP
- When would you like to have your order DELIVERED/PICKED UP? Ask for day, date and time (verify A.M. or P.M.)
 - Remind customer about our delivery window (Our delivery window states we may arrive as early as 15 minutes before or up to 15 minutes after your scheduled delivery time)
 - Re-confirm the time of the delivery request
- Ask - What would you like to order? (Use the Suggestive Selling tool to complete order)

CONFIRMING THE ORDER

- Say - We provide plates, napkins, and utensils as part of your catering order. How many people will you be serving?
- Say - Let me repeat your order (recap items ordered, day, date and time of order and total)
- Payment -
 - If paying by Credit/Debit Card - within 3 days of the order, take credit card information now. If paying by credit card more than 3 days out, "we can take your card information now and preauthorize your funds until the time of your order or we would be happy to call you a few days prior to your order to get your payment information at that time."
 - If paying by House Account - validate the customer has an active House Account, or if paying by 3rd party payment, confirm the paying customer has an account. Then process as usual.
- Say - Would you like to receive your email confirmation to the address we have on file?
- Say - Thank you for ordering from Corner Bakery Cafe®. Please feel free to call us at any time, should you have any questions or need anything additional for your order.

Catering Operations Manual/Phone Script
January 2009

NOTE: Refer to Job Aid set-up for information on where to post job aid.

SUGGESTIVE SELLING

The Suggestive Selling tool is way to offer the customer options that will compliment the meal. This is also a great opportunity to introduce menu items that customers may not be familiar with.

SUGGESTIVE SELLING		
REQUESTS	MAY I SUGGEST...	ALWAYS UPSELL...

NOTE: Refer to Job Aid set-up for information on where to post job aid.

CATERING UNIFORM STANDARD

All catering employees should adhere to the Catering Uniform Standard at all times while clocked in. All employees working with food are required to wear a hat.

Catering Operations Manual
EXECUTING THE 4 P'S OF CATERING — *Personalized Service*

CATERING UNIFORM STANDARD

The Corner Bakery Cafe® strives to present a clean, crisp, neat, and professional appearance, appropriate for a retailer of high-quality production. The following is intended as a definitive policy relating to Catering dress code standards at the Corner Bakery Cafe®.

REGULAR UNIFORM

- Issued by the Corner Bakery Cafe®: 1 hat, 2 Corner Bakery Cafe® logo shirts, 1 nametag, & daily apron.
- Corner Bakery Cafe® logo shirt: clean and tucked into pants. If maternity shirt is worn, it may be worn untucked.
- Nametag must be worn at all times on the left-hand side of the shirt.
- Pants — dark black jeans or pants, no tears, cuts or frayed hems, sized to fit and on the waist. No stretch-style leggings, or parachute-style materials. A plain black belt must be worn if the pants have belt-loops.
- Shoes — mostly black, closed-toe, laced-up, flat shoes with non-slip soles. Tasteful, matching socks must be worn at all times.
- During cold weather, solid black or white turtlenecks may be worn under Corner Bakery Cafe® shirt.
- White or black T-shirts may be worn under Corner Bakery Cafe® shirts at any time.
- Delivery personnel may only wear Corner Bakery Cafe® jackets.
- All delivery personnel must have current insurance and valid driver's license on them at all times.

PERSONAL GROOMING

- Hair must be clean, professional, entirely off the face, including bangs, and tied back if it touches the shoulders. Very long hair should be braided or worn in a bun. Corner Bakery Cafe® baseball caps must be worn at all times and must be worn brim forward and fit securely on the head.
- Gentlemen must be clean-shaven, with beards and mustaches trimmed and neat. New beards and mustaches may only be grown while on vacation.
- Shaving lotions, perfumes and fragrances must be minimal as they interfere with the Bakery aromas.
- Chewing gum is not allowed on the shift or on break in customer areas.
- Personal hygiene standards must be followed, including bathing and using a deodorant.
- Fingernails must be well-manicured and of moderate length. Nail polish may be worn, but must be of one solid color (no designs permitted) and not chipped.
- Makeup for ladies is optional, but should be natural looking and discreet.
- No visible tattoos are permissible.

JEWELRY

- Earrings are permissible if they are not dangling. Hoops must be no larger than a quarter. No other form of body piercing is permitted.
- All neckwear such as chains must be worn underneath the CB Cafe logo shirt for safety reasons.
- One watch and one single wedding band are permitted, but otherwise no bracelets or other visible jewelry are allowed, including non-company authorized pins and other adornments.

PLEASE NOTE:
Individual grooming and appearance may be at the discretion of your direct supervisor (your GM, AD, or RD).

CATERING CODE OF CONDUCT

The Catering Code of Conduct guidelines are in place to give catering employees direction on how to conduct themselves when using company cell phones, company vehicles and interacting with customers outside of the restaurant. The Catering Code of Conduct acknowledgement should be signed as part of the new hire process and placed in the employee's file. If the Catering Code of Conduct is updated, the new policy should be reviewed and a new acknowledgement should be completed and retained in the employee's file.

Catering Operations Manual

EXECUTING THE 4 P'S OF CATERING — *Personalized Service*

CATERING CODE OF CONDUCT

CELL PHONE GUIDELINES

- Drivers must use approved Corner Bakery Cafe® issued cell phones when on duty. This phone is only to be used to communicate with the cafe and a customer in the event that:
 - The driver cannot locate an address or client, or an unforeseen traffic situation is preventing on time delivery
 - Delivery vehicle is immobile due to a mechanical problem
 - An auto accident has occurred
- **All calls must be made when the vehicle is in a secured, parked or non-moving position** so that phones are not in use while actively driving (this includes but not limited to: reading a map, clarifying delivery address or confirming an order)
- Corner Bakery Cafe® cell phones have limited minutes allocated to each phone within a limited calling area, therefore, they are to be used for **business purposes only**. Personal usage of a company phone is prohibited.
- All cell phones are to be checked out at the beginning of the shift and checked in at the end of the shift. **No cell phones may leave the premises** with an employee without authorization from the cafe management team.
- All **personal** cell phones must be in the off position while employees are clocked in for their shift.
- When utilizing **GPS**, addresses should be programmed before leaving the cafe and activated/set before leaving each delivery.
- All state and local laws regarding the use of cell phones should be obeyed at all times.

DELIVERY VEHICLE GUIDELINES

- Company owned vehicles should **only** be used for business purposes.
- If you become lost or cannot locate delivery in **within 5 minutes** of searching, **secure delivery vehicle in a parked or non-moving position** and contact cafe.
- Absolutely **NO** smoking is allowed in any vehicle while delivering catering orders.
- **No eating** is allowed in any vehicle while delivering catering orders.
- Only clocked in employees, a manager or Area Director/Field Support may be in the delivery vehicle. No other passengers are allowed.
- The van is used **only** from delivery sites only. No additional stops are to be made unless specified by a manager for business purposes only.
- Drivers are to follow all traffic laws while driving their delivery vehicle. (Seatbelts, speed limits, parking specifications) Any moving violations that occur by the driver during the Driver's shift are the driver's responsibility. (i.e. a speeding ticket or running a red light)
- Employees should **always** be in Corner Bakery Cafe® uniform while delivering catering orders.

Catering Operations Manual/Catering Code of Conduct

January 2009

Catering Operations Manual

EXECUTING THE 4 P'S OF CATERING — *Personalized Service*

CATERING CODE OF CONDUCT

DELIVERY VEHICLE GUIDELINES cont'd

- Delivery vehicles are to be kept maintained:
 - Should damage occur to the van while on deliveries – report it immediately
 - Should the driver note any wear and tear while on delivery (i.e. brakes or horn) – **report it immediately**
- Delivery vehicles should be cleaned regularly, inside/out; if vehicle needs to be cleaned report immediately
- If a vehicle is unsafe to drive for any reason, **report it immediately** so that **alternative** delivery arrangements can be made

ON SITE / CLIENT INTERACTION GUIDELINES

- Follow **building entry/access protocol** with vehicle parking and food delivery
- Always present a professional image using the CBC driver script at all times
- Use name of **customer**
- Review the order with the customer
- Employees **MAY NOT**, at any time, ask for a tip/gratuity from a customer per the CBC cash handling guidelines

CLIENT PRIVACY GUIDELINES

- **No employee** of the Corner Bakery Cafe® is ever to **contact** a customer with any intent other than catering business
- Any **personal information** obtained regarding a customer (i.e. addresses, phone numbers, and confidential account records) are considered confidential and private by Corner Bakery Cafe®. Any **attempt** to use personal information for anything other than CBC business purposes is **strictly prohibited**

MANAGER, CUSTOMER AND CATERING TEAM INTERACTION		
SITUATION	RESPONSE	NEXT STEPS
Rude Service (Unfriendly, not helpful)	• Please describe the interaction you had today. • Thank you for taking the time to let us know. We are sorry you had that experience. Our relationship with you, the customer, is very important to everyone at Corner Bakery Cafe®	1. Review service expectations with employee named by customer 2. Follow-up with all employees regarding customer service expectations
Order Accuracy	• Please describe what your experience was like today. • Thanks you for taking the time to let us know so that we have the opportunity to maintain your business. How can we fix that to your satisfaction?	1. Stress to all employees the importance of accuracy to our customers
Order Taker Efficiency	• Please tell me what happened • Thank you for sharing that information so that we can improve our training and customer service	1. Review Order taker scripts with all employees that could take customer orders
Unsafe Driving	• What behaviors did you observe? • Did you get a license plate number or can you describe the driver? • Thank you for sharing that information with me. I will speak to the driver about the situation. Safety is very important to us	1. First offense-Review driver habits/safety with named employee (Document conversation) 2. Second offense-Give employee a written warning
Late Delivery	• See Late Delivery Policy	1. Stress with catering employees the importance of on-time delivery 2. Review delivery scheduling with employee that is in charge of routing orders
Score Comp Guidelines	• Cafe can comp an order up to \$500 with Area Director in the communication loop	1. Input reason for comp into order for future reference

CATERING EXECUTION

All catering systems impact the customer's experience. Using Catering Execution as a guideline will focus on executing the systems that impact product.

CLOSING MANAGER RESPONSIBILITY	
VERIFY ALL CATERING ORDERS ARE IN POS SYSTEM	• NO orders should be posted on manual forms for Catering Supervisor or opening manager to input before open on the current business day
RE-RUN CATERING REPORTS	• Check Catering Summary to make sure all next day orders have been input into the POS • Using the Future Order Prep Products report, make sure all items that need to be pre-prepped are complete (i.e. Pulled Cinnamon rolls, scones, sweets pulled for thawing and scooped muffins)
CATERING AREA SET-UP FOR NEXT DAYS BUSINESS	• All reports needed for next day are posted in appropriate area (i.e. driver clipboards and assembly area) • Deliveries are scheduled according to the delivery locations and delivery employee's availability
PRODUCT AVAILABILITY	• All items that are needed for the next day's production should be available (i.e. veggies, cheeses and sub recipes)
STAFFING	• Is the store staffed for next day's business? • If not, call in employees or Catering Supervisor early
OPENING MANAGER (CATERING SUPERVISOR) RESPONSIBILITY	
STAFFING	• Verify roster has adequate staffing for today's business
CATERING FIRST BAKE	• All items that are needed for breakfast deliveries should be baked first • Items needed to make catering sandwiches should be baked after retail breakfast pastry bake and before retail bread
PRODUCTION	• Items built to spec • No frozen or refrigerated sweets • Completed items stored according to holding guidelines
STAGING	• All catering items are staged in crates • Held in designated area using the ambient and refrigerated guidelines
VAN LOADING	• Items should be staged in crates and loaded into van according to last delivery first, first delivery last method based on delivery times and location
CALL-BACKS	• All orders should be called back by the end of the catering business day • Check for product quality issues that can be resolved for the next day's business

PREP GUIDELINES

All catering items should be prepared as close to the delivery time as possible. Based on sales volume specific items can be prepped the day before as long as they are prepped and stored according to CBC standards.

For example, a breakfast order delivered at 6:00 a.m. or an extremely large order that requires an early delivery can be prepped the day before using the guidelines listed below. No items are approved to be assembled until day of order.

Day Before Prep Items

NOTE: Only items listed below can be prepped, no exceptions.

ITEM	PROCESS	SHELF LIFE
Muffins	Bake – 1 hour before cafe close. Cool and cover in bun bag, label with date. Store at room temperature	8 hours
Scones	Bake – 1 hour before cafe close. Cool and cover in bun bag, label with date. Store at room temperature	8 hours
Cinnamon Rolls	Bake – 1 hour before cafe close. Cool and cover with a bun bag, label and date. Store at room temperature Icing – Do Not apply icing to Cinnamon rolls until morning of delivery	8 hours
Rugalach	Bake and cool. Cover with a bun bag, label and date. Store at room temperature	Room temp – 48 hours
Baby bundt bites -All flavors	Scoop, bake and cool. Place on a sheet pan, cover with a bun bag and date and label. Store at room temperature Baby bundt bites can be frozen - use same procedure. Store in freezer	Room temp – 48 hours Frozen – 7 days
Regular/Mini Cookies -All flavors	Bake – 1 hour before cafe close. Cool and cover in bun bag, label and date. Store at room temperature	24 hours
Fruit Trays (Sm, Md, Lg)	Only cut pineapple, cantaloupe and honeydew. Place cut items on a lined sheet pan, cover with a bun bag, label and date. Store in walk-in cooler or upright cooler. All extra pieces can be used in fruit medley	12 hours
Fruit Medley (complete)	Prepare as usual, label and date. Store in walk-in cooler	24 hours
Prepared Salads (complete)	Prepare as usual, label and date. Store in walk-in cooler	24 hours
Salad Dressings (No oily dressings – i.e. house dressing)	Portion according to spec. Place on a lined half sheet pan and store in walk-in cooler	12 hours
Wrapped/Packed Lunch Box Cookies	Wrap cookies and place in prepared lunch boxes	24 hours (use original bake shelf life)
Portioned Fruit Cups – Lunch Boxes	Portion according to spec. Place on a lined half sheet pan and store in walk-in cooler	24 hours (use original prep date)
Lunch Boxes	Lunch Boxes can be pre-folded and stocked with baker boy paper, napkins, flatware and cookies	24 hours (use original bake shelf life)

HOLDING GUIDELINES

Holding Guidelines are designed to ensure adherence to food quality guidelines.

Catering Operations Manual
EXECUTING THE 4 P'S OF CATERING — Product

SALAD TOSSING PROCEDURE

Catering customers who have ordered leafy salads should always be asked if they would like their salad(s) tossed. When tossing salads, all ingredients should be mixed well so each customer gets the full flavor of all of the ingredients.

*Catering Operations Manual*
EXECUTING THE 4 P'S OF CATERING — Product

TOSSING LEAFY GREEN SALADS

(At the delivery site, ask customer if they would you their salad tossed?)

1

Begin with prepared leafy green salad and dressing

2

Shake salad before applying dressing to mix ingredients

3

Take lid off bowl and pour dressing. Replace lid securely

4

Shake until all ingredients are mixed well

5

When mixed thoroughly, the salad is evenly coated with dressing

Catering Operations Manual/Salad Tossing
January 2009

NOTE: Refer to Job Aid set-up for information on where to post job aid.

ZONING YOUR DELIVERY AREA

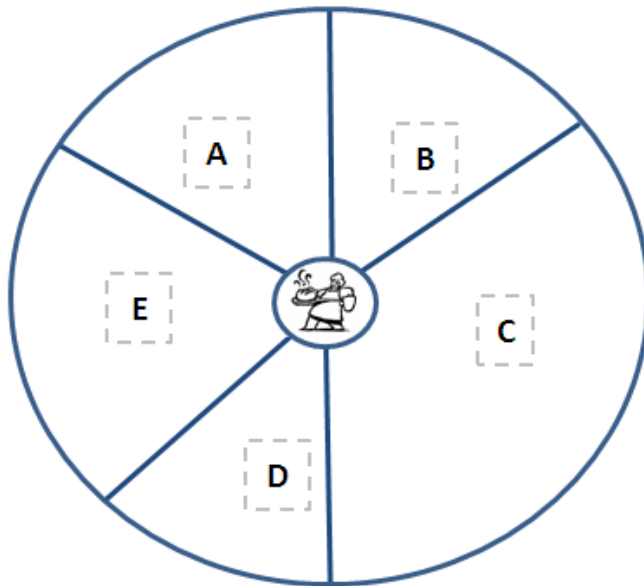

Figure 1

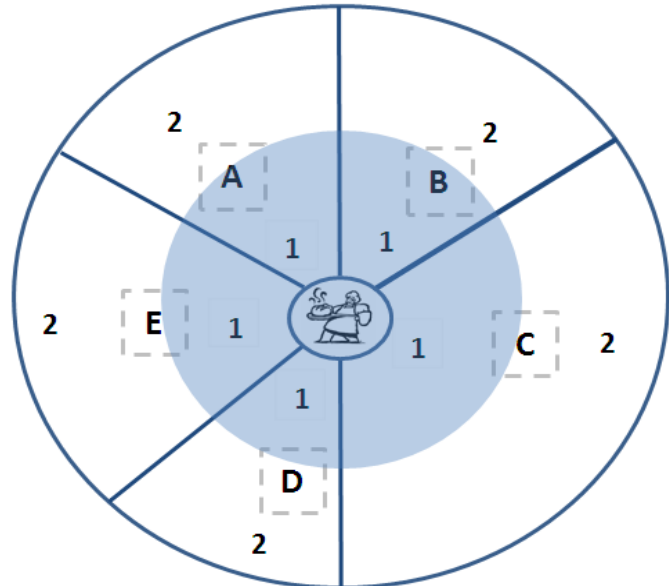

Figure 2

Delivery **areas** are determined by Regionals and Area Directors. As a general rule, delivery areas should not span more than 5 miles. These areas are not typically represented with a perfect radius, freeways, travel patterns and travel times are used more frequently when defining areas.

The number of delivery **zones** is defined by considering several factors: demographics, density of business population and travel time to name a few. These zones are not often divided evenly (i.e. noted by zone "C" above) within the delivery area. The goal of creating delivery zones is to help support effective routing to execute prompt delivery.

In Figure 1 above, the larger size of zone "C" may be due to a limited business presence, a sizable residential community or it may be an undeveloped area. In addition, having 5 delivery zones rather than 4 or 3 may be due to high population, difficult travel times and/or a larger delivery area.

Figure 2 illustrates the addition of a **sub-zone**. A sub-zone is required when an additional delivery resource (i.e. new walker, new catering vehicle) becomes available. Sub-zone 1 represents destinations that are in close proximity of the cafe. Sub-zone 2 represents destinations that are further from the cafe. The size of sub-zones depends on the delivery resources of the cafe. If there is one walker and one delivery vehicle, sub-zone 1 is likely to represent a tight radius around the cafe (i.e. a city block); two delivery vehicles will likely yield equal sub-zones.

CATERING DELIVERY GUIDELINES

These guidelines consist of how our delivery fees are applied, how our delivery window is stated and how we reimburse employees for use of personal vehicles.

DELIVERY FEE STRUCTURE

Our catering delivery fee is used to help cover costs associated with delivery (i.e. van leasing and fuel). Therefore, the delivery fee should not be used as way to discount an order. If a customer is dissatisfied with their order or we arrive late, the order should be handled using the Customer Recovery Tool.

Delivery Fee Structure is as follows:

- 10% on the first \$750.00 of the invoice/order subtotal
- 3% on any amount above \$750.00 – if invoice is greater than \$750, apply additional 3% using the example below:
 - **Invoice Subtotal** Amount \$1000.00
 - \$750.00 of subtotal will be charged at 10% = \$75.00
 - \$250.00 of subtotal will be charged at 3% = \$7.50
 - Total delivery fee charged on the invoice subtotal = \$82.50

DELIVERY WINDOW GUIDELINES

Our delivery window is as follows: “We may arrive as early as 15 minutes before or up to 15 minutes after your scheduled delivery time”.

Our delivery window guidelines are designed to ensure we provide our customers with on-time delivery by adding a buffer to the expected delivery time. This buffer should be used in case the delivery driver encounters unforeseen delays and should not be used as a reason to be late to the delivery.

For Example: Customer requests delivery no later than 8:30 a.m. for an 8:45 a.m. meeting. The order could arrive as early as 8:15 a.m. or as late as 8:45 a.m.

In this example, the order taker should recommend to the customer that their delivery should be scheduled for 8:15 a.m. to ensure the order arrives at the designated time.

CATERING PERSONAL VEHICLE STANDARD

If an employee is using a personal vehicle for Corner Bakery Cafe® business, they will be reimbursed as defined below:

HOURLY

- \$5.00 for 1st Invoice (drop) of the day then \$2.50 per invoice (drop) for each additional delivery that day.
- Reimbursement will be paid based on invoices delivered each shift. Invoices will be matched with route schedule for the day.
- All reimbursements will be taxed based on individual tax rates.
- Tolls will be reimbursed with receipts.

SALARY

- Salaried employees will be reimbursed based on the current CBC Restaurant mileage rate. Expenses must be submitted in the expense report format with proper documentation.
- Refer to Corner Bakery Cafe® Cash Handling Procedures for details.

DELIVERY CLIPBOARD

Each delivery employee should be equipped with the necessary tools to execute each delivery.

DELIVERY CLIPBOARD

- Two invoices per each order stapled together
 - Both invoices should be totaled and signed by the customer. One signed invoice should be given to the customer and the other signed invoice should be returned to the store.
- Packing List for each order
- Map(s)
- Pen
- Cafe Issued Cell Phone
- Catering Menus
- Delivery Job Aids:
 - Driver Script
 - On Site Presentation Standards
 - Salad Tossing Procedure
 - Customer Recovery Tool, Log and BOG's
 - Catering Menus and Holiday/Promotional Fliers (if applicable)

CATERING VAN JOB AIDS (IF APPLICABLE)

- Van Loading/Staging Guidelines
- Van Cleaning Instructions/ Set-Up Recovery Kit

STAGING GUIDELINES

Our staging guidelines establish the standards and processes to accurately and completely prepare catering orders for delivery.

*Catering Operations Manual*
EXECUTING THE 4 P'S OF CATERING — *Prompt Delivery*

STAGING GUIDELINES

PRE-DELIVERY STAGING
Van orders should be staged in crates using the orders packing list. An average order uses approximately 3 crates.

CHEVY ASTRO	FORD E-SERIES
Non-Refrigerated/Ambient 5 Crates with hand truck	Non-Refrigerated/Ambient 12 crates with hand truck
Refrigerated Section 22 Crates	Refrigerated Section 34 Crates

STEP 1
Post the packing list on the top crate and begin loading items – stack all cold hold items together and all ambient items together for ease of van loading.

STEP 2
Check off each item as it is loaded into a crate to ensure all items are delivered on-time to the customer.

STEP 3
Load all orders immediately in vehicle utilizing the refrigerated and ambient sections of the van.

NEXT DAY STAGING GUIDELINES

Using the Next Day Staging guidelines for setting up the next day's business is essential for flawless catering execution.

CATERING REPORTS
At the end of the catering day, enter all orders for tomorrow's business into the POS system and then print the following reports:

- **Catering Summary** – Post in the Manager's Office
- **Catering Future Order Prep Products** – Use this list to prepare items that need to be prepped. Items will include number of muffins that need to be scooped, lunch boxes that need to be folded, Stage 1 salads that need to be made, sandwich meats, and fruit that needs to be cut (order produce if needed)
- **Assembly List** – Post in the production area as defined by where the items will be produced
- **Driver Schedule by employee**– Prepare each delivery clipboard and post delivery schedule on each employee clipboard
- **Packing List** (print two copies) – According to the driver schedule, add to delivery clipboard and use the other copy to attach to the set-ups

SET-UPS
Using the *Assembly List* and the *Catering set-up guide* prepare all set-ups.

- Ideal staging time is after production and deliveries have been completed for the day.

Catering Operations Manual/Staging Guidelines
January 2009

NOTE: Refer to Job Aid set-up for information on where to post job aid.

VAN LOADING

The van loading process ensures organization with multiple orders to avoid unnecessary shuffling and mismanagement of individual catering items.

TELECOMMUNICATIONS

The Corner Bakery Cafe® Telecommunications program is designed to provide a direct line of communication between the delivery employee and the restaurant. As stated in the Catering Code of Conduct, delivery drivers cannot use phones while their vehicle is in motion.

PROGRAM GUIDELINES	
Rate Plan	"Family Share Plan" for each store; unlimited mobile to mobile minutes, unlimited nights and weekends, free long distance
Phones	1 base phone + 1 phone per delivery employee
VZ Navigator (GPS System)	\$9.99 per phone, optional
VERIZON FAQ'S	
QUESTION	ANSWER
1. If my phone needs repair, what do I need to do?	Call Verizon Tech Support at 1-800-922-0204, or visit your neighborhood Verizon Wireless retail store. Our profile is set up in their system, so you should be able to get your phone repaired and at no charge .
2. What information will I need when calling Tech Support?	You need to have the mobile phone number for the phone you are calling about.
3. If I have to replace a phone while it is under warranty, how much will it cost?	There is no charge for the replacement phone as long as it is our spec phone or an approved replacement.
4. If I have to replace a phone out of warranty, how much will it cost?	There is no charge for the replacement phone as long as it is our spec phone or an approved replacement.
5. If I need to add an additional phone to my plan, how much does it cost and how do I get one?	This varies depending on how many phones you currently have. Call Laurie Whitley at ext. 4152 to get assistance.
6. How long does it take the battery to charge?	The first initial charge should be 4 hours. Once you have charged your battery up completely all charges after should be between 2 and 4 hours. If you have VZ Navigator on your phone , be aware that your phone will use up its charge faster than if it does not have VZ Navigator.
7. Can I get accessories at a Verizon retail store or order them online?	NO. Each phone comes with a wall charger and an ear piece. These are the only accessories that are provided by CBC. Currently, if you need to replace any of the above accessories, they must be approved and purchased by Laurie Whitley @ 4152.
8. Where do I find information regarding VZ Navigator?	Information on the VZ Navigator is posted on the CBCNET at Catering/Catering Job Aids/Telecommunications.

FINAL CATERING PACKAGING

Catering packaging is designed to preserve food quality, attractively display our menu offerings and adequately protect the integrity of our food. In addition, our packaging standards deliver a branded message to our customers and help restaurants properly organize food items prior to pick-up or delivery.

NOTE: Refer to Job Aid set-up for information on where to post job aid.

ON SITE PRESENTATION

The On Site Presentation standard ensures organized functionality and access for our catering customers to their various catering items. Given that every set-up space is different, it is best to use the Guidelines and Presentation Tips to help support the proper set-up techniques.

REMEMBER: On Site Presentation is our last chance to make a lasting Best in Class impression!

VAN CLEANING INSTRUCTIONS

Vans are moving billboards for Corner Bakery Cafe®. They are also required to maintain proper food safety standards. Delivery vehicles should be cared for like any other piece of restaurant equipment used for food production.

*Catering Operations Manual*
EXECUTING THE 4 P'S OF CATERING — *Presentation*

VAN CLEANING INSTRUCTIONS

VAN INTERIOR

Daily Cleaning

- Remove all trash from the day's orders
- Restock Set-up Recovery Kit
- Sweep out any food debris

Weekly Cleaning

- Rotate all items in the Set-Up Recovery Kit weekly.
- With a damp cloth, wipe dashboard (**DO NOT USE CHEMICALS**).
- At car wash, spray interior behind the seat (ambient area).
- The refrigerated section should be sprayed as well. However, the interior condenser **cannot** be sprayed. Keep the sprayer pointed to the floor at all times during the cleaning process. Water will damage the condenser.

VAN EXTERIOR

Daily Cleaning

- Clean front windshield with glass cleaner.

Weekly Cleaning

- Vehicle can be sprayed with a low pressure washer from local carwash. Caution and consideration should be made when choosing to take the vehicle to a gas station car wash. **Remember!** The minimum clearance is approximately 8 ft high and the top condenser cannot come in contact with the washing arm.
- Based on heavy usage and weather, you may need to clean your vans more frequently.
